LIKE Assemblyman Ray Walter

New York State *is failing* its teachers, students, and their parents.

ASSEMBLYMAN RAY WALTER AND THE MINORITY CONFERENCE HAVE PROPOSED THE APPLE PLAN TO REFORM COMMON CORE

Evaluate State Assessments and Curriculum: Stop testing and implementation until an independent teacher panel can create age/developmentally-appropriate curriculum and assessments.

More Funding: Eliminate the GEA, allowing our schools to get the resources they need while easing the strain on taxpayers.

Restrict Use of Student Data: Limit the disclosure of student information by a school district or private school. Require written parental consent or written consent of eligible students (18 years old).

21st Century Pathways: Create alternate pathways to a high school diploma including a Career and Technical Education pathway. Increase state funding for BOCES.

Provide Equity for Special-Needs Students: Work with a special education student's IEP team to decide on the best course of action and ensure it is not trumped by Common Core's rigidity.
