On the state level...

All not-for-profit applicants must now pre-qualify on the NYS Grants Reform website at grantsreform.ny.gov/grantees in order to apply for certain New York State grant solicitations. Potential not-for-profit applicants are strongly encouraged to begin the process of registering and pre-qualifying immediately as this is a lengthy process.

New York State Department of Health

The New York State Department of Health is accepting applications for their Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 4). This program encourages the development and implementation of innovative pilot projects in breast cancer risk reduction education with rigorous evaluation and revision. Successful applications will propose the design of new educational strategies to elicit behavior changes intended to reduce specific risk factors associated with developing breast cancer. Please note: the letter of interest is not required, but it is strongly encouraged.

- **Eligibility:** Nonprofit organizations and government entities are eligible to apply.
- **Funding:** \$270,000 maximum award
- **Deadline:** Letter of Interest due November 4, 2015. Application due November 19, 2015.

On the federal level...

National Endowment for the Humanities

The National Endowment for the Humanities (NEH) is accepting applications for their Summer Stipends program to support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients produce articles, monographs, books, digital materials, archaeological site reports, translations, editions or other scholarly resources. Summer Stipends support continuous full-time work on a humanities project at any stage of development for a period of two consecutive months. Applications on all topics are welcome, but NEH invites projects related to its new initiative, The Common Good: The Humanities in the Public Square. This initiative seeks to connect the study of the humanities to the current conditions of national life.

- **Eligibility:** The Summer Stipends program accepts applications only from individual researchers, teachers and writers, whether they have an institutional affiliation or not. Applicants with college or university affiliations must, however, be nominated by their institutions. All applicants must have completed their formal education by the application deadline. U.S. citizens, whether they reside inside or outside the United States, are eligible to apply. Foreign nationals who have been living in the United States or its jurisdictions for at least the three years immediately preceding the application deadline are also eligible.
- **Funding:** Summer Stipends provide \$6,000 for two consecutive months of full-time research and writing.
- **Deadline:** October 1, 2015

On the private level...

The GRAMMY Foundation®

The GRAMMY Foundation® Grant Program awards grants to organizations and individuals to support research on the impact of music on the human condition. Examples might include the study of the effects of music on mood, cognition and healing, as well as the medical and occupational well-being of music professionals and the creative process underlying music. Priority is given to projects with strong methodological design as well as those addressing an important research question. To apply online, visit their website (grammyfoundation.formstack.com/forms/2016_grant_loi_form).

- **Eligibility:** Organizations and individuals are eligible to apply.
- **Funding:** \$20,000 maximum award
- **Deadline:** All Letters of Inquiry are due by October 1, 2015.
- **Contact:** The GRAMMY Foundation
Email: loi@grammy.com
Website: grammy.org/grammy-foundation/grants

The GRAMMY Foundation® Grant Program also awards grants to organizations and individuals to support efforts that advance the archiving and preservation of the music and recorded sound heritage of the Americas. The Archiving and Preservation area has two funding categories: Preservation Implementation grants and Assistance, Assessment and/or Consultation grants. To determine under which category of preservation grant you should apply, visit their website (grammy.org/files/pages/2015_implementation_vs_assistance.pdf). To apply online, visit their website (grammyfoundation.formstack.com/forms/2016_grant_loi_form).

- **Eligibility:** Organizations and individuals are eligible to apply.
- **Funding:** The GRAMMY Foundation will award a maximum \$20,000 per Preservation Implementation grant, and a

maximum \$5,000 per Assistance, Assessment and/or Consultation grant.

- **Deadline:** All Letters of Inquiry are due by October 1, 2015.

National Psoriasis Foundation

The National Psoriasis Foundation (NPF) is seeking grant applications that encourage the advancement of innovative research into psoriasis and psoriatic arthritis. Discovery Grants fund researchers while they explore preliminary ideas and conduct proof-of-concept experiments. The goal is to stimulate the development of new research programs in the field of psoriatic disease capable of competing for long-term funding from the National Institutes of Health or other agencies. Applications related to all aspects of psoriatic disease are strongly encouraged, including basic science, technology and clinical research. This year, NPF strongly encourages Discovery Grant proposals in psoriatic arthritis, public health and comorbidities.

- **Eligibility:** The principal investigator must be personally and actively responsible for the conduct of the proposed research, and eligible to apply for research grants under the guidelines of the applicant's host institution.
- **Funding:** As many as 10 new Discovery Grants will be awarded in 2016. Applicants may request up to \$75,000 for direct costs only per year.
- **Deadline:** October 2, 2015

National Oceanic and Atmospheric Administration and the National Weather Service

The National Oceanic and Atmospheric Administration and the National Weather Service (NOAA/NWS) have announced their Collaborative Science, Technology and Applied Research Program to create a cost-effective transition from basic and applied research to operations and services through collaborative research between operational forecasters and academic institutions which have expertise in the environmental sciences. These activities engage researchers and students in applied research of interest to the operational meteorological community and improve the accuracy of forecasts and warnings of environmental hazards by applying scientific knowledge and information to operational products and services.

- **Eligibility:** Eligible applicants include institutions of higher education and federally funded educational institutions.
- **Funding:** NOAA/NWS anticipates granting four to six individual annual awards in the form of cooperative agreements, limited to a maximum of \$150,000 per year for no more than three years.
- **Deadline:** October 30, 2015
