

Thiele Releases Gas Price Survey for May 31, 2014

South Fork Prices Stable;

South Fork Prices Are 7 Cents above the Long Island Average

New York State Assemblyman Fred W. Thiele, Jr. (I, D, WF-Sag Harbor) today announced his most recent survey of gasoline prices. In Thiele's most recent gasoline survey for the South Fork taken on May 31, 2014, prices are virtually unchanged since the last survey on May 4. Long Island prices have decreased by 6 cents during the same period. South Fork prices are now 11 cents above the State average and 7 cent above the Long Island average.

The Automobile Association of America (AAA) provides for a regional survey on New York State gasoline prices. However, there is no survey solely for the South Fork. Thiele's survey also includes prices in western Southampton along Montauk Highway. There may be prices that are higher or lower in the region away from Montauk Highway, but the survey reflects the price posted at most stations on our region's main arterials.

Thiele stated, "The average price for East Hampton and Southampton along Montauk Highway excluding Amagansett and Montauk is now \$3.99. The average price for Amagansett and Montauk is \$4.24. A gallon of gas on the North Fork is now about \$3.85. The Long Island average is \$3.92 and the State average is \$3.88."
