

Assemblyman
Anthony Palumbo

Dedicated to
making Long Island
more affordable

Assemblyman
Anthony Palumbo
is working to
make one of the
most expensive
counties in
the nation
more affordable.

That's why he reintroduced the most aggressive tax relief bill in Albany, one that would **save the average Suffolk County resident \$2,800 annually** by doubling STAR rebate checks and reducing the personal income tax rate by 30 percent (A.6935).

Last year, Assemblyman Palumbo helped enact a law to make owning a home more affordable. His first-time homebuyer legislation will **save thousands of dollars for moderate-income families** and help them achieve the dream of homeownership right here on Long Island (A.9316).

Share your stories with me so, together, we can continue to make Long Island affordable again:
