

Since day one, Assemblyman Anthony Palumbo knew
Common Core was the wrong answer for our schools...

ANTHONY
PALUMBO
STATE ASSEMBLY

Assemblyman Anthony Palumbo has always stood for responsible education, not just when it was politically timely to do so.

Tony stood up for parents, teachers and students when state leaders ignored their calls for help.

Tony's alternative to Common Core: **The APPLE Plan**

- **Suspend Common Core testing**
- **Re-evaluate the standards** with an independent commission of teachers and education experts
- **Eliminate the Gap Elimination Adjustment education cuts**
- **Increase teacher involvement and preparedness**
