Dean Murray: Working For Us

It's a new year and it's time to get things done. Here's what I'm working on right now to make our communities even stronger:

- ▶ **Ending the failed Common Core standards and ensuring our schools receive the fair share of aid they deserve;**
- ▶ **Stopping wasteful government spending and mandates, giving us a break on our income and property taxes;**
- ▶ **Cutting the red tape and nickel-and-dime fees that slow the growth of our small businesses; and**
- ▶ **Enacting real ethics reform, ensuring our officials work for us and not their own interests.**
