URGENT! Your Response is Needed!

Dear Neighbor,

Over the last two years, state government has made great strides toward reopening New York for business, reducing the cost of living for our families and turning our economy around. However, there is still much progress to be made. I hope that you will take the time to fill out this survey and let me know your opinions on the most pressing issues facing Long Islanders.

Sincerely,

Assemblyman Al Graf

On Energy

5) Do you believe that LIPA should be sold to a private company?

Strongly Agree Agree Disagree Strongly Disagree

6) Do you believe that LIPA should be broken up into smaller, municipal electric companies for Nassau and Suffolk counties?

Strongly Agree Agree Disagree Strongly Disagree

7) Do you believe that Long Island should not be paying substantially more for electricity than anywhere else in the state as we do now?

Strongly Agree Agree Disagree Strongly Disagree

8) Do you believe that Long Island's power lines should be moved underground to prevent storm-related power outages?

Strongly Agree Agree Disagree Strongly Disagree

9) Do you believe that the state should put greater resources into programs related to mental health?

Strongly Agree Agree Disagree Strongly Disagree

10) Do you believe that the state should reallocate resources to invest in technology and research to help cut the cost of the delivery of energy to ratepayers?

Strongly Agree Agree Disagree Strongly Disagree

11) Do you believe that the state should focus on delivering mandate relief to help reduce costs for school districts and local governments?

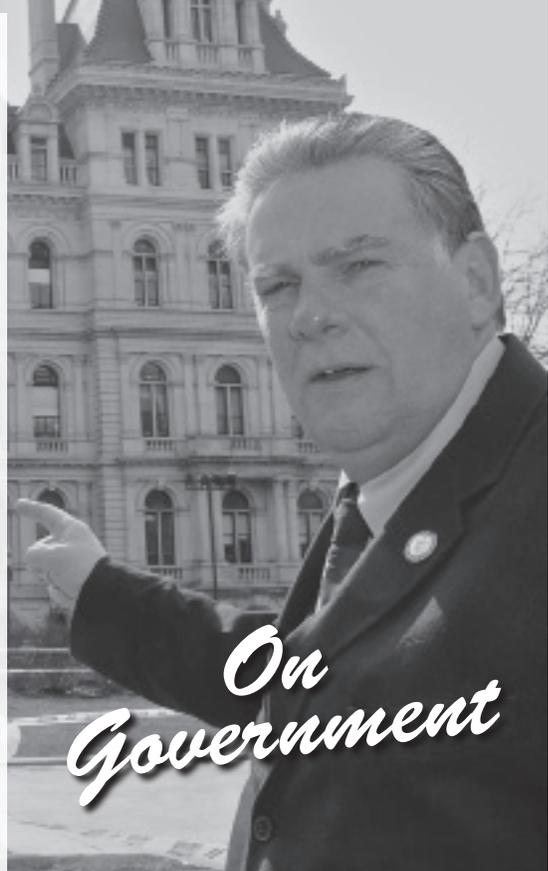

Strongly Agree Agree Disagree Strongly Disagree

12) Understanding that we have been hydro-fracking safely in New York since the 1940s and have conducted numerous studies throughout the decades indicating that it has been done safely, do you believe that the state should continue to allow hydro-fracking?

Strongly Agree Agree Disagree Strongly Disagree

13) If hydro-fracking were to continue in New York, do you believe that 10 percent of the oil or gas should be set aside for the state, at no cost, to generate electricity for the state, thereby, cutting the cost to homeowners, schools, local governments, not-for-profits and businesses?
