Long Islanders
Improving
our Quality of Life
in New York

+ Protecting Children and Families

As a husband and father, Assemblyman Al Graf knows how much our children mean to us. Having walked the beat with the NYPD, he's learned firsthand what it takes to protect our kids.

A.2859 – Forcing deadbeat dads to support their children

A.3084 – Preventing sexual predators from being imported into New York

A.5991 – Removing the statute of limitations for sex offenses committed against minors

A.6813 – Creating the new crime of attempting to lure a child for sexual purposes

A.2083 – Creates a safe haven for victims of domestic violence

+ Fixing Education

As a former teacher, Assemblyman Al Graf understands what it takes to help our children grow in the classroom, both academically and personally.

A.2870 – Creating an online GED study program

FixNYSchools.com – An informational website and online petition imploring the governor to confront the state's high drop-out rate and help our children succeed by restoring the option of a career track as well as an educational track and a General Diploma as well as a Regents Diploma.

+ Reducing the Cost of Living on Long Island

Assemblyman Al Graf has led the fight for low-cost utility service since his first day in office. His experiences helping our neighbors in the wake of Superstorm Sandy have highlighted the need for not just more affordable service, but more reliable service as well.

A.2871 – Providing Long Islanders with access to cheaper electricity

A.2872 – Acquiring fuel at no cost to generate electricity for Long Islanders

A.6000 – Moving our electrical lines underground to keep the lights on and prevent costly repairs
