Our Kids Deserve Better
Let's Fix New York's Schools!

New York's education system is failing our children. Assemblyman Al Graf has a plan to fix the problem.

A.7994 - would withdraw New York State from Common Core and Race to the Top, which are two federal programs that are too costly and have had a negative impact on the educational experiences of our children. Let's go back to proven methods and let teachers teach.

Sign the Petition to Fix our Schools!

Fix New York's Schools – join the fight to position our kids for success by reinstating a General Diploma in addition to a Regents Diploma, as well as a career track in addition to an educational track. Sign the petition at www.fixnyschools.com.

For information on education or any other state issue, please contact Assemblyman Al Graf
