

Andrew
GARBARINO

NEW YORK STATE ASSEMBLY

Hello! I'm Your New Assemblyman, Andrew Garbarino.

I am so grateful for the trust and support I have received from our community, and I will work every day to make Long Island a better place to work, live and raise a family.

I am committed to being the most responsive representative I can be. Together, we will build Long Island into the community we all know it can be.

MY PRIORITIES:

- As a third generation local businessman, I know what our local job creators need in order to maintain the establishments they have worked so hard to build;
- For far too long, state government has taken funding away from our local schools to support other areas of the state. I will fight for our schools and our children;
- Unfunded state mandates are crushing our local governments and driving taxes through the roof. I will work to deliver quick and effective mandate relief to our local municipalities; and
- In order to keep more of our hard earned money, state government must spend less. I'll work to make Albany spend within its means like our families and businesses do.

LET'S CONNECT...
How can I help you?
