INVESTING IN EDUCATION

As an educator, I believe the first step to prosperity is investing in a quality education. That's why I'm working hard to help empower our young people by:

- **Enhancing the tuition assistance program, allowing residents to invest directly in a strong education for generations to come (A.1034);**
- **Providing assistance to family members of those who lost their lives serving our community (A.326); and**
- **Allowing students to continue accessing university facilities after graduation, providing them the resources they need as they transition to the workforce or graduate studies (A.653).**

SUPPORTING OUR BUSINESSES

But we also need to strengthen our economic climate by:

- **Encouraging small-business development in the 110 corridor;**
- **Creating incentives for college-educated New Yorkers to remain in the state, stopping the so-called “brain drain” that’s taking our young people off Long Island (A.4891); and**
- **Passing “Work-NY,” which would encourage businesses to hire veterans and the unemployed, expanding our economy with those ready and willing to work (A.4565).**
