Most New Jobs are Provided by Local Businesses

Small local businesses are the largest employers nationally. By shopping locally, you help create jobs for our neighbors.

Local Business Owners Invest in the Community

Local businesses are owned by people who live in our community, are less likely to leave and are more invested in the community's welfare and future.

Keeping Dollars in the Local Economy

Did you know that money spent locally has triple the impact on our community compared to dollars spent at big box stores? When shopping locally, we are simultaneously creating jobs, funding more community services through sales taxes, investing in neighborhood improvements and promoting community development.

Unique Businesses Create Character & Prosperity

The unique character of our local community is defined in large part by the businesses located here. This plays a large role in our overall satisfaction with where we live and the value of our home and property.

Community Well-Being

Locally-owned businesses build strong neighborhoods by sustaining communities, linking neighbors and contributing more to local causes.
