

**Assemblyman**

**Michael Montesano**

**A New Way to Grow NY.**

A Legislative Update from

# Assemblyman Michael Montesano

*Leadership to Grow NY*

A successful economy grows over time, not overnight. To truly make New York “Open for Business,” we must empower people, reinvigorate small, local businesses and encourage budding entrepreneurs. That’s what creates jobs and that’s how an economy grows.

## Michael Montesano’s Plan to GrowNY:

+ **BizBoom:** Starting your own business is difficult and due to our state’s unwieldy bureaucracy, expensive. The BizBoom start-up program cuts all application fees for new businesses by 50 percent and reduces the income tax rate through a new business’ first three years, allowing it to invest, develop and grow (A.4567).

+ **Cutting the Red Tape:** If there’s one thing every New Yorker can agree on, it’s that our state is crippled with redundant, time-consuming and costly regulations and bureaucracy. D-REGG cuts the red tape and allows our economic innovators to do what they do best – create jobs and opportunities for our communities (A.5044).
