NYS ASSEMBLY MINORITY CONFERENCE

Apple PLAN

LIKE Assemblyman Michael Montesano

New York State *is failing* its teachers, students, and their parents.

ASSEMBLYMAN MICHAEL MONTESANO AND THE MINORITY CONFERENCE HAVE PROPOSED THE APPLE PLAN TO REFORM COMMON CORE

Evaluate State Assessments and Curriculum: Stop the rushed implementation and create an independent teacher panel to develop, review, and approve age/developmentally-appropriate curriculum and assessments based on Common Core guidelines.

Funding Equity: Eliminate the GEA over three years, allowing our schools to get the resources they need while easing the strain on taxpayers.

Restrict Use of Student Data: Limit the disclosure of student information by a school district or private school. Require written parental consent or written consent of eligible students (18 years old).

21st Century Pathways: Create alternate pathways to a high school diploma including a Career and Technical Education pathway. Increase state funding for BOCES.

Provide Equity for Special-Needs Students: Work with a special education student's IEP team to decide on the best course of action and ensure it is not trumped by Common Core's rigidity.
