

BAD MEN

Where your taxes
buy corruption.

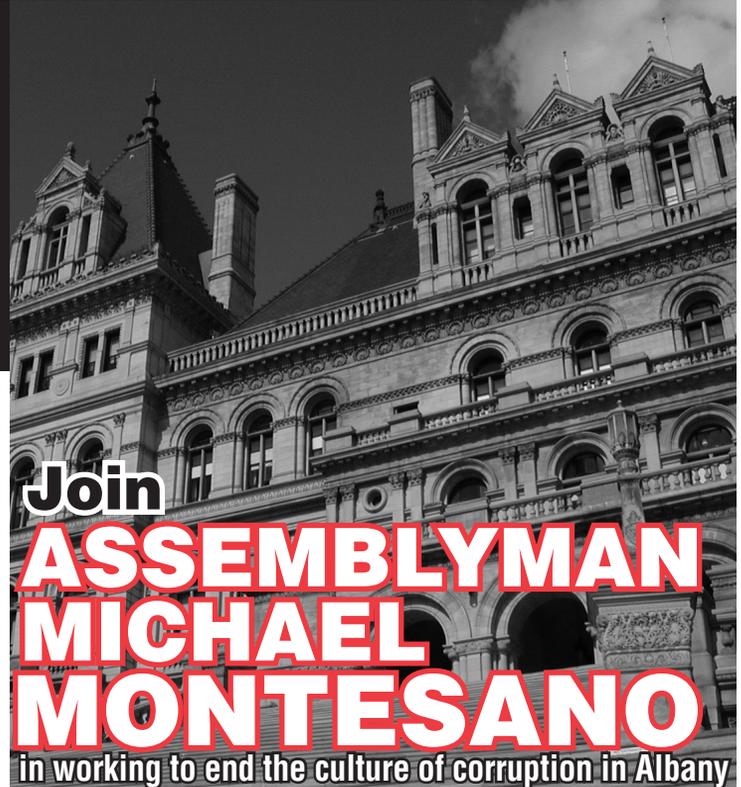

A group of crooked, self-serving politicians in Albany is funneling your tax dollars to their insider friends.

**THEY ARE WORKING FOR THEMSELVES,
NOT FOR US!**

Had enough? Government should work for the people, not the career politicians.

As a member of the Assembly Ethics and Guidance Committee and the New York State Legislative Ethics Commission, Assemblyman Michael Montesano is leading the fight to restore integrity and accountability to government. He sponsors legislation (A.7393, A.4935) that would crack down on corruption and restore public trust in government by:

- Banning public officials convicted of corruption from holding public office, lobbying, or bidding on state contracts;
- Strengthening penalties for corruption, bribery, and improper use of campaign funds; and
- Immediately stripping taxpayer-funded pensions and benefits from all politicians convicted of corruption.
