NEW YORK STATE ASSEMBLY

Assemblyman Ed Ra Wants Your Voice to Be Heard!

Earlier this year, the governor announced a proposal to add a third track along the LIRR main line running through the communities of Floral Park, New Hyde Park, Garden City Park, Mineola, Carle Place, Westbury and Hicksville.

Without any critical details about the plan or the estimated impact to local communities, the public hearings held in May served little purpose.

As a result, Assemblyman Ed Ra and many local officials have called for an **extended discussion, more details and greater public involvement** in this process.

**10
years ago...**
*a similar proposal
was defeated with strong
opposition from the public
because of the potential impact
it would have had on the
communities and quality
of life of residents.*
