

Join Assemblyman Titone and Councilwoman Rose in a letter-writing campaign to let MTA Chairman Jay Walder know that Staten Island needs the X16 bus.

Since last December – when the MTA first proposed service cuts – the North Shore has been fighting to save our bus lines. Through petition drives, protests and participation in the MTA public hearing, our voices were heard and many bus lines were saved.

But the MTA announced it will eliminate the X16 bus line. We cannot let this happen. This express bus connects our community to employment and enjoyment in Manhattan. Without it, North Shore residents will face longer, more crowded commutes.

You can help. Please join Assemblyman Matthew Titone and City Councilwoman Debi Rose in a letter-writing campaign to save this important bus line. And let MTA Chairman Jay Walder know that the North Shore needs the X16 bus!

Dear Chairman Walder:

North Shore residents rely on the X16 bus. Eliminating this line would limit our ability to get to Manhattan for work, school and other activities. Our community cannot afford this service cut, and we already have few public-transportation options. We call on you to take the X16 off the MTA's chopping block. Staten Island needs this service!
