# I'm Assemblyman **Ron Castorina, Jr:**

I value having a government  
that works for the people...

## As your voice in Albany, I will fight for:

- Ethics reform;
- Lower property taxes;
- Resources to fight the heroin epidemic;
- Improved infrastructure and affordable transportation; and
- Growing our economy.

I am honored to be your new assemblyman, and with a lifetime of public service to our state and nation, I'm looking forward to continuing that commitment to you. I value having a government that works for the people and that's what I will do. I'm also looking forward to building on the good work accomplished by my fellow elected officials and advocating for our children, families, seniors, and veterans.
