

We fought
for IS 2...

WE WON!

**Nicole
Malliotakis**

Our voice has been heard – **NO CO-LOCATION AT IS 2!**

- ✍ When the city announced its intention to add another middle school within Egbert Intermediate School – known as IS 2 – on Midland Avenue, the response from parents and teachers was nearly instant and unanimous: let’s improve education, not overcrowd our school!
- ✍ So many problems would have resulted – staff inefficiencies, logistical complications, administrative redundancies – that **hundreds of residents turned out to oppose the plan at a public hearing in October. I’m happy to say that our voice was heard and co-location will not take place at IS 2!**
- ✍ This just goes to show how much we can accomplish when we work together. I thank all the parents, teachers and elected officials who helped win this fight, and I encourage you to contact me with other education issues you are passionate about so we can build on this success!
