*“No one should have to face scenes like  
this outside their front door.”*

*— Assemblymember Dan Quart*

The Second Avenue Subway construction has required tremendous sacrifice from residents throughout the Upper East Side. The continued construction has resulted in the accumulation of garbage within our neighborhoods. No one should have to face scenes like this outside their front door.

I have introduced legislation that will empower the Department of Sanitation to issue citations for these conditions, even if a department officer did not witness the violation. Sanitation officers should have the same authority as other city enforcement officers to investigate and issue violations. This legislation will help ensure that this image does not become part of the landscape of our neighborhoods.
