**Dear Neighbor,**

**I am delighted to share great news about upcoming improvements to the overpasses and underpasses that we use on a daily basis.**

**New York State Department of Transportation has heard our concerns about the conditions of the overpasses and underpasses.**

**Some of these improvements will be, but are not limited to, better lighting on both the overpasses and underpasses, as well as fixing the damaged walking path(s).**

**I appreciate the community's advocacy and I know that together we can make the community safer for all.**
