

ASSEMBLYMAN  
James Skoufis

Putting our  
families first

"No family should have to endure  
the heartache of not having a say  
in their loved one's medical care."

*James Skoufis*

“We want to thank Assemblyman Skoufis for everything he’s done – his passion and all of his help through this difficult time is something we’ll never forget.”

– **Sueann and Edward McElroy**

**Assemblyman Skoufis authored the “Glenn McElroy Law” to honor a Stony Point man who tragically died after suffering injuries caused by his wife.**

She was later convicted of vehicular manslaughter and driving while intoxicated. As Glenn’s health care proxy, she resisted his family’s wishes to take him off life support and donate his organs, forcing them into a painful legal battle.

**Skoufis’ new law allows a judge to change a health care proxy if that person is criminally responsible for harming the patient.**
