

SMALL BUSINESSES
NEED THE FREEDOM TO
GROW

ASSEMBLYWOMAN
Claudia Tenney

ECONOMIC FREEDOM FIRST

New York is one of the least business-friendly states in the country, making it difficult for small businesses and manufacturers to thrive and create jobs in our state.

But it's not too late to change.

More Economic Freedom, More Prosperity and More Jobs **Means a better economy for you and me.**

Assemblywoman Tenney's Plan for Economic Freedom

Reduce personal income tax to provide immediate economic freedom:

Providing personal income tax relief is one of the most effective ways to improve the economy.

Provide tax relief for small businesses and job creators:

New York has some of the highest taxes in the nation; tax savings means more investment in job creation and business development.

Remove barriers to growth by removing job-killing regulations:

There are 49,000 pages of regulations interfering with our personal lives and job creation. It's time to review and remove them.

Support Wages Based on the Local Market:

Small-business owners should be able to pay wages that make sense for the market in which they operate, not those dictated by government bureaucrats and NYC politicians.
