

Assemblyman Frank Skartados
helps students realize their **DREAMS!**

Assemblyman Skartados passed legislation to create the DREAM Fund that would:

- establish a commission to create and fund college scholarships for the children of immigrants
- change 529 college account regulations to allow more families, including immigrant families with children, to save money for college (A.8689-B)

“The DREAM Fund would have changed my life when I was younger. As an immigrant myself, I fought tooth and nail to learn English and pay my way through college. Tuition is continuing to rise, pushing the dream of a higher education out of reach for many immigrant families. Establishing a scholarship fund gives immigrants a better chance to achieve the American Dream.”
