

**How long before
your family is
forced to leave
New York State?**

Assemblyman Steve McLaughlin wants to save Sunday Dinner

Steve's Plan To Keep Families In New York:

- Lower property taxes, making homes more affordable;
- Increase career training in high school and college to help students land their dream job;
- Cut personal income taxes so that you can save more of your hard-earned money; and
- Eliminate unfunded state mandates so businesses can afford to hire more employees.
