important information  
about education from  
Assemblymember  
**Phil Steck**

“Parents, teachers and students have spoken and have rejected the overemphasis on standardized testing. I will continue to be an outspoken advocate for high-quality public education for our children.”

— Assemblymember **Phil Steck**

**FOCUS**  **on**  
**EDUCATION**

# Assemblymember Phil Steck

is an advocate for our teachers and students

## Steck passed reforms to:

- ✓ Decrease the emphasis on standardized tests and take into account factors outside the classroom that impact learning
- ✓ Help teachers better prepare students by releasing past test questions and answers and allowing them to discuss the contents of publicly released exams
- ✓ Put teacher evaluations into the hands of an independent, nonpartisan Board of Regents
- ✓ Discourage the federal government from withholding school funding when students opt out of standardized tests (K.523)

**FOCUS**  **on**  
**EDUCATION**

## Steck will continue to fight to:

- ✓ Fully fund state Foundation Aid so that our schools get 100% of the aid they deserve
- ✓ Oppose special tax credits for wealthy donors to private schools
