Assemblywoman Mary Beth Walsh's Priority: Safe Roads & Clean Water

Mary Beth knows continued investment in our roads, highways, and bridges means safe roads, jobs for New York families, and peace of mind while traveling.

She also knows that it's not just roads and bridges that need our attention, and that infrastructure underground is just as important. That is why she is working with her colleagues to secure a \$2 billion investment for clean water infrastructure initiatives that would:

- **Protect aquifers, tributaries, and source water**
- **Remove and replace faulty and dangerous lead pipes**
- **Help our local towns and villages enhance and maintain wastewater infrastructure**

District Office: 199 Milton Ave, Ballston Spa, New York 12020 • 518-884-8010
Walshm@nyassembly.gov

Mary Beth is a sponsor of the "S.W.A.P." program to swap out aging pipes with new & safer infrastructure (A3907).
