

Our kids deserve better!

ASSEMBLYMAN **KENBLANKENBUSH** HAS A PLAN

Ken's been *listening* to you and he's ready to help!

AFTER TALKING WITH TEACHERS, ADMINISTRATORS, PARENTS AND KIDS, HE DEVELOPED A PLAN TO ENSURE OUR KIDS GET THE WORLD-CLASS EDUCATION THEY DESERVE. **THE APPLE PLAN:**

✿ Halts Common Core Testing

Ken wants to place a moratorium on testing until an age- and developmentally-appropriate curriculum is adopted for our kids.

✿ Secures Fair Funding

Ken is fighting for upstate schools' fair share of funding by restoring the billions lost in the 2011 education aid cuts.

✿ Equips and Empowers Teachers

Ken knows teachers can't do this alone; they deserve the tools they need to succeed: strong professional development and flexibility over their classroom curriculum.

✿ Prioritizes Needs of Students

Ken is fighting for the needs of kids with individualized education plans by creating flexibility in the education system and allowing for Career and Technical Education (CTE) diplomas.

✿ Creates Accountability in State Education System

Ken would like to increase local school management control and hold the Board of Regents accountable for its decisions.
