

**It's time to
rebuild the
public trust.**

Uncovering Corruption and Restoring Confidence

Assemblyman Marc Butler is on a mission to expose and punish corrupt government officials. The public trust has been abused too often.

We all deserve better.

Butler is taking public corruption head-on.

SUPPORT ASSEMBLYMAN BUTLER'S ANTI-CORRUPTION INITIATIVES:

INCREASE PENALTIES FOR BREAKING THE PUBLIC TRUST

Stiffen penalties and send a strong message to corrupt politicians that the misuse of taxpayer dollars and trust will be aggressively met with jail time and fines. Being an elected official is an honor. Those with clean hands and hearts have nothing to fear by aggressively ferreting out corruption.

ELIMINATE PENSIONS FOR FELONS

Usurping the public trust and continuing to pocket taxpayer money is wrong. Currently, public servants found guilty of corruption can retain their taxpayer-funded pensions. Felons and criminals should not be rewarded with a retirement fund for defrauding and betraying the public they swore to protect.

END PUBLIC CAMPAIGN FINANCING

The vast majority of indicted and corrupt officials come from NYC, where taxpayer dollars are used to pay for political campaigns. The system is broken and it is unconscionable to continue to use taxpayer dollars to support political enterprises. Tax dollars should be used to help those in true need, not to support a political culture.

**Join Assemblyman Butler
in ending rampant corruption in Albany**
