Assemblyman Marc Butler's

Real Solutions to Grow Jobs, Right Now.

Marc Butler knows that New York's economy and job creators need a jumpstart. Marc also knows that the needed boost will come from solutions that get government out of the way of growth and economic recovery, while bolstering innovation and entrepreneurship.

Marc Butler's Plan to GrowNY:

- + **Boost entrepreneurship** with the "Biz Boom" program, which reduces new business application fees and lowers the income tax rate for the first three years so small businesses can invest in innovation and development (A.4567).
- + **Assist and support job creators** through "GrowNY" with competitive grants and technical assistance programs for entrepreneurs and small businesses (A.1567).
- + **Cut red tape** and get government out of the way of job growth. Doing so allows job creators to do what they do best: create jobs (A.5044).
