

“I fought to get more money for our schools and to make paid family leave a reality – **because our students and families always come first.**”

– Assemblyman
Bill Magee

Assemblyman Magee is fighting for us

Secured large increases in funding for our schools because every child deserves a quality education

Passed paid family leave, allowing workers to take time off to care for a newborn or sick loved one

Fighting for a utility consumer advocate to stand up against big utility companies when they try to raise rates

Continuing to fight for pay equity because women should never be paid less than men for doing the same work
