

“Heroin and painkiller addiction have devastated too many lives. We need to work together to get these deadly poisons out of our community and get people the help they need.”

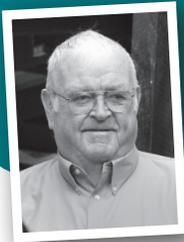

– Assemblyman Bill Magee

Assemblyman Bill Magee

fought for \$170 million to fight heroin and opioid abuse:

- ✓ \$25 million for heroin and opioid treatment and prevention services
- ✓ \$1 million for safe drug disposal programs
- ✓ Ensured coverage for overdose reversal medications

Magee supported a new law that ensures insurance coverage for a minimum of 14 days for inpatient treatment, mandates pharmacists provide crucial information about treatment options and limits the amount of painkillers that can be prescribed (Ch. 71 of 2016).
