

FIRST BIG DREAMS

BROUGHT TO YOU BY
ASSEMBLYMAN

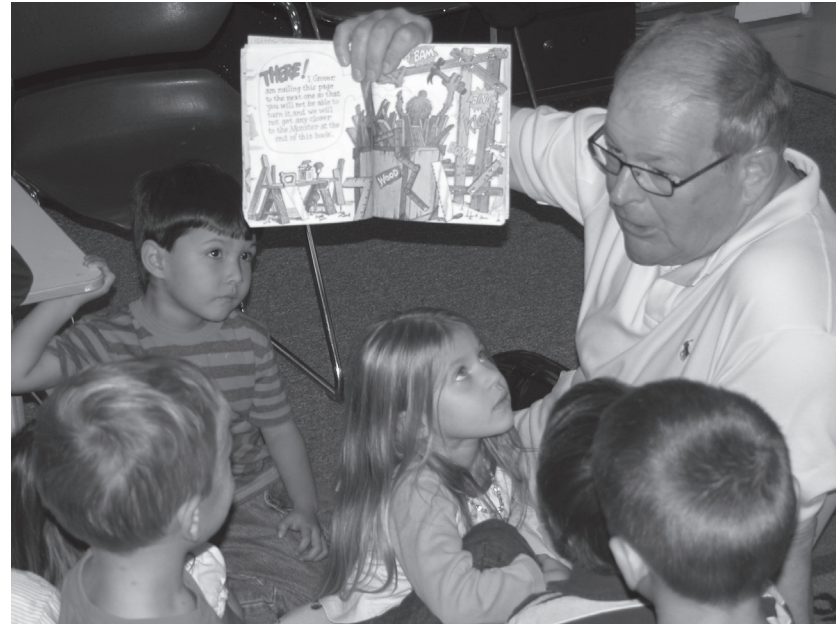

Gary D. Finch

INVESTING IN OPPORTUNITY

The spark of a new discovery can light up a child's life. That's why funding our public schools is so important. Our kids deserve the resources they need to unlock new opportunities.

Gary Finch delivered again. He secured **\$1.4 billion in new education aid**.

Gary Finch also **restored \$443 million in education aid** that was cut by New York City politicians in 2010. This funding can make a huge impact on our kids.

\$433 million can...

hire 9,800 new teachers

enroll 76,600 students in music theory and studio art classes

put 216,500 students in after-school programs

buy 577,300 computers

hire 6,900 school resource officers
