Benefits for veterans and their families

A Message to Veterans from Assemblymember Al Stirpe

The nearly one million veterans and their families living in New York State are a powerful voice — pushing for better veterans' programs and benefits. The state Assembly has supported many of the programs veterans have fought for, helping them to receive important benefits and services.

Enclosed is information about the many programs and services available through the New York State Division of Veterans' Affairs and the U.S. Department of Veterans Affairs. Benefits are not awarded automatically — veterans and their families must apply for them. For more information, contact your nearest veterans' counselor listed in the New York State Government section of the telephone book under "Veterans' Affairs."

I am grateful for your contributions to our country and pledge my continued dedication to the needs of all veterans. I look forward to working with you in the future. If you have any questions or concerns on this or any other matter, please contact my district office.

Property tax exemptions

Municipalities have the option to grant an alternative exemption. This provides a property tax exemption of 15 percent of assessed value for veterans who served during wartime, and an additional 10 percent exemption for those who served in a combat zone. Disabled veterans are provided with an additional exemption equal to one-half of their service-connected disability ratings, multiplied by the assessed value of the property. Check with your assessor to determine the maximum exemption limits in your community.

Veterans who have received the Armed Forces, Navy, Marine Corps or Global War on Terrorism Expeditionary Medal are eligible and, under certain conditions, members of the reserves are also eligible.

Municipalities that offer the alternative exemption can increase the limits imposed under the Real Property Tax Law. In 1997, municipalities were given the option to allow veterans residing in cooperative apartments to apply for the exemption.

The eligible funds veterans' real property tax exemption is another benefit and provides a partial exemption where property owned by a veteran or certain other persons designated in the law has been purchased with pension, bonus or insurance monies, referred to as "eligible funds."

There is also a third exemption, known as the Cold War veterans exemption,

available for residential property of veterans who served during the Cold War period covering Sept. 2, 1945, to Dec. 26, 1991, and who do not receive eligible funds or alternative veterans' exemptions.

Unremarried surviving spouses may also be eligible for all three exemptions.

These exemptions are not automatic and are not provided by all municipalities. Veterans should contact their local assessor's office for information and an application. Also, visit www.tax.ny.gov or call 888-838-7697 for additional details.
