Family Farms**

CIRCLE OF FRIENDS

# Bill Nojay Supports Our Family Farms

Family farms are the backbone of Upstate New York's economy, generating almost \$5 billion in economic output and 200,000 jobs. Bill is working to promote policies that help family farms grow, create jobs, and feed the people of New York.

## Passed Family Farm Tax Cap

Bill advocated for and passed the 2% Family Farm Tax Cap. This brings much needed tax relief to family farms so that they can expand and create well-paying jobs (A0165).

## Reduce Agricultural Regulations

Bill believes farmers should spend more time farming and less time navigating bureaucratic red tape, such as corporate filing fees (A6024).

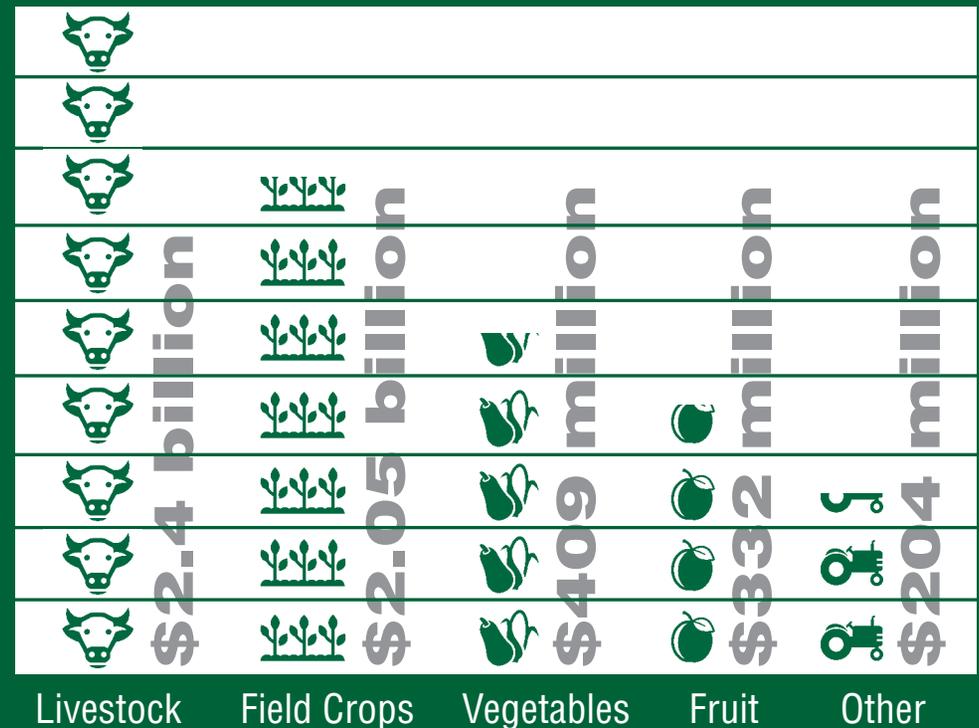

## Next Generation of Farmers

Bill wants to simplify the transition of farm land from one owner to another so that young farmers can continue Upstate New York's farming economy (A7002-A).

## Buy Local

Bill supports initiatives to promote locally-produced New York products, such as Shop: Pride of New York (A3802).

## VALUE OF NEW YORK'S Farming Economy
