

Dear Neighbor:

As a father and former teacher, I would like to share with you our accomplishments from this year's legislative session, as well as my priorities for the upcoming school year. I assure you that my fight to improve New York's education system and enact real reform is not over. I look forward to working with my colleagues so we can return local control to our teachers and parents, and finally provide our students with the best possible education to assist them in gaining the necessary skills to compete at a world-class level.

Sincerely,

John D. Ceretto
