Are There Better Ways to Evaluate a Student's Ability?

As a parent, I understand what's at stake in our children's classrooms. I see how these standardized tests are forcing teachers to teach to the test, narrow curriculum and put unnecessary stress on our children. At the same time, I understand the need to measure performance among students and teachers.

What do you think? I want to hear from you.

Take my short 3 question survey and tell me what you think about standardized testing.
