A Victory for Hunters

Crossbow Hunting Now Legal in New York State

A Victory for the Sportsmen of Wyoming County and New York State

We did it! We fought for and won the right to use crossbows for hunting in New York! This year, crossbows will be permitted in the Southern Zone during the last 14 days of archery season, and full use in big game firearms season. Crossbows will also be allowed for small game and turkey hunting. I am proud to have been part of this fight and will continue to work to expand sportsmen's rights in New York.
