

**When our students were pushed to the brink,**

ASSEMBLYMAN

DAVID  
**DiPIETRO**

**Stood up for us**

David DiPietro is fighting to take control of our education system *away from* Albany bureaucrats and give it *back to our parents and communities*.

Here's what he's doing:

There's a better solution for our education system. It's time to stop the federal government from imposing its standards on parents and children. David sponsors legislation to **stop Common Core** and give parents the right to refuse high-stakes testing.

David held a breakfast meeting for superintendents and school officials to discuss Common Core and gain **firsthand knowledge** of the issues facing our students.

He sponsors legislation to create a "**learning for work**" program (A.8695) to help establish alternative pathways for students to succeed.

David held a number of Common Core informational meetings at different schools for parents, students, educators, and the public. **David has opened up a dialogue** with the entire community!

Reach out to David to learn more about how he's **standing up for students** from grade school to college by emailing him at [DipietroD@nyassembly.gov](mailto:DipietroD@nyassembly.gov) , or by calling his office at (716) 655-0951.
