DOUG
SMITH
NYS Assemblyman

Through The Power Of Education!

As an educator and mentor in the classroom, Assemblyman Doug Smith knows what it takes to ensure student success, that is why he is:

Supporting initiatives like bringing more computers, tablets, smartboards, and security upgrades to our schools.

Making college affordability an obtainable goal in a financially-responsible way, ensuring that Long Island students will be able to continue their education.

Adopting legislation allowing students to pursue vocational training as a path to graduation which includes careers in trade or technical fields. **(A.3064)**

Fighting for teachers to be able to teach without unfair burdensome testing and state evaluations hanging over their heads. **(A.10475)**

Assemblyman Doug Smith, once an educator, always an educator – leading the way for students to excel and grow in and out of the classroom!
