Assemblyman Chris Tague is dedicated to reforming Albany, and within his first week joined his peers in sponsoring the most comprehensive ethics reform bill in New York State, the Public Officers Accountability Act (A5864). **Chris knows that our elected officials must be held to higher standards.**

Tague's plan to win the fight against corruption:

- **Term limits** for all elected officials
- **Limit** special interest influence
- End bid rigging by bringing **more transparency to how our tax dollars are spent**
- **Fight against failed economic development programs** like Buffalo Billion and START-UP NY to prevent fraud, waste and favoritism
- Make it a **crime to fail to report acts of corruption**
