

Assemblymember Steck is fighting for Colonie

Steck passed significant legislation this year to:

Protect prescription coverage

Ensure Medicaid covers prescriptions filled at not-for-profit pharmacies, making quality health care more affordable (A.7922-A)

Fight phone scams

Require fundraisers to inform potential donors about the state attorney general's resources on charitable giving so people can get unbiased information about where their money is going (A.2688-A)

End wage theft

Ensure LLCs pay their employees wages owed even if they go out of business (A.5131)

Require fair contracts

Eliminate oppressive practices in form contracts and assure that arbitration remains a fair forum for consumers and employees, rather than allowing provisions that force New Yorkers into arbitration in California or other far-off places (A.2855)

Stand up for whistleblowers

Protect the rights of whistleblowers and guarantee them access to a court of law (A.2565)

Ensure fair elections

Require that candidates for public office are notified when an opponent files objections to their ballot petition signatures (A.7761)
