ASSEMBLYMAN JOHN

LET'S FACE IT: we're all feeling the hurtful consequences of a lagging economy and record-high inflation¹. We need leaders when it comes to helping families deal with the very crippling consequences of inflation.

I'M DOING MY PART TO CONTRIBUTE TO A STRONGER NEW YORK. HERE ARE SOME PROPOSALS I'VE BEEN ADVOCATING FOR IN ALBANY:

- ✔ Eliminating the state sales and compensating use taxes on motor fuels (A.1690)
- ✔ Increasing the affordability of a college education through the creation of the "College to Work" program (A.2382)
- ✔ Increasing transparency for utility prices (A.2859)
- ✔ Helping our local businesses grow through the "New York Business Emergency Relief Act of 2023" (A.6068)
- ✔ Bolstering tourism by cutting prices for food and supplies at NY Thruway stops (A.3022)
