study shall be prepared by an entity independent of the department and
selected through a request for proposal process. The purpose of such
study is:
(a) to determine whether there is a disparity between the number of
qualified minority and women-owned businesses ready, willing and able to
perform state contracts for commodities, services and construction, and
the number of such contractors actually engaged to perform such
contracts, and to determine what changes, if any, should be made to
state policies affecting minority and women-owned business enterprises;
and (b) to determine whether there is a disparity between the number of
qualified minorities and women ready, willing and able, with respect to
labor markets, qualifications and other relevant factors, to participate
in contractor employment, management level bodies, including boards of
directors, and as senior executive officers within contracting entities
and the number of such group members actually employed or affiliated
with state contractors in the aforementioned capacities, and to deter-

minority and women group populations with regard to state contractors' 
employment and appointment practices relative to diverse group members.

history of minority and women-owned business enterprise programs and
their effectiveness as a means of securing and ensuring participation by
minorities and women, and a disparity analysis by market area and region
of the state, the effectiveness of the current net worth thresholds, a
statistical analysis of the participation of minority and women-owned
business enterprises correlated with such business enterprises' net
worth, whether minority and women-owned business enterprises' net worth
at the time of certification has any effect on such business enterprise's success or lack thereof in participation in statewide procure-
ment, the effectiveness of the regulations adopted since the most recent
disparity study, the extent of compliance by state agencies and state
authorities with such regulations, an analysis of the number of minority
and women-owned business enterprises seeking certification since the
most recent disparity study, and the reasons, if any, for any increase
or decrease in such certifications. Such study shall distinguish between
minority males, minority females and non-minority females in the statis-
tical analysis.

1-c. The goals set pursuant to subdivision one of this section shall be consistent with the findings of the most recent disparity study.

2. The director shall promulgate rules and regulations pursuant to the goals established in subdivision one of this section that provide measures and procedures to ensure that certified minority and women-owned businesses shall be given the opportunity for maximum feasible participation in the performance of state contracts and to assist in the agency's identification of those state contracts for which minority and women-owned certified businesses may best bid to actively and affirmatively promote and assist their participation in the performance of state contracts so as to facilitate the agency's achievement of the maximum feasible portion of the goals for state contracts to such businesses.

2-a. The director shall promulgate rules and regulations that will accomplish the following:
(a) provide for the certification and decertification of minority and women-owned business enterprises for all agencies through a single process that meets applicable requirements;
(b) require that each contract solicitation document accompanying each solicitation set forth the expected degree of minority and women-owned business enterprise participation based, in part, on:
(i) the potential subcontract opportunities available in the prime procurement contract; [and]
(ii) the availability, as contained within the study, of certified minority and women-owned business enterprises to respond competitively to the potential subcontract opportunities, as reflected in the division's directory of certified minority and women-owned business enterprises; and

(iii) the findings of the disparity study.

(c) require that each agency provide a current list of certified minority business enterprises to each prospective contractor;

(d) allow a contractor that is a certified minority-owned or women-owned business enterprise to use the work it performs to meet requirements for use of certified minority-owned or women-owned business enterprises as subcontractors;

(d-1) establish criteria for agencies to credit the participation of minority and women-owned business enterprises towards the achievement of the minority and women-owned business enterprise participation goals on a state contract based on the commercially useful function provided by each minority and women-owned business enterprise on the contract;

(e) provide for joint ventures, which a bidder may count toward meeting its minority and women-owned business enterprise participation;

(f) consistent with subdivision six of this section, provide for circumstances under which an agency or state-funded entity may waive obligations of the contractor relating to minority and women-owned business enterprise participation;

(g) require that an agency or state-funded entity verify that minority and women-owned business enterprises listed in a successful bid are actually participating to the extent listed in the project for which the bid was submitted;

(h) provide for the collection of statistical data by each agency concerning actual minority and women-owned business enterprise participation; [and]

(i) require each agency to consult the most current disparity study when calculating [agency-wide and contract specific] contract-specific participation goals pursuant to this article; and

(j) provide for the periodic collection of reports from state-funded entities in such form and at such time as the director shall require.

3. Solely for the purpose of providing the opportunity for meaningful participation by certified businesses in the performance of state contracts as provided in this section, state contracts shall include leases of real property by a state agency to a lessee where: the terms of such leases provide for the construction, demolition, replacement, major repair or renovation of real property and improvements thereon by such lessee; and the cost of such construction, demolition, replacement, major repair or renovation of real property and improvements thereon shall exceed the sum of one hundred thousand dollars. Reports to the director pursuant to section three hundred fifteen of this article shall include activities with respect to all such state contracts. Contracting agencies shall include or require to be included with respect to state contracts for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon, such provisions as may be necessary to effectuate the provisions of this section in every bid specification and state contract, including, but not limited to: (a) provisions requiring contractors to make a good faith effort to solicit active participation by enterprises identified in the directory of certified businesses provided to the contracting agency by the office; (b) requiring the parties to agree as a condition of entering into such contract, to be bound by the provisions of section...
three hundred sixteen of this article; and (c) requiring the contractor
to include the provisions set forth in paragraphs (a) and (b) of this
subdivision in every subcontract in a manner that the provisions will be
binding upon each subcontractor as to work in connection with such
contract. Provided, however, that no such provisions shall be binding
upon contractors or subcontractors in the performance of work or the
provision of services that are unrelated, separate or distinct from the
state contract as expressed by its terms, and nothing in this section
shall authorize the director or any contracting agency to impose any
requirement on a contractor or subcontractor except with respect to a
state contract.

4. In the implementation of this section, the contracting agency shall
(a) consult the findings contained within the disparity study evidencing
relevant industry specific availability of certified businesses and
disparities in the utilization of minority and women-owned businesses
relative to their availability;
(b) implement a program that will enable the agency to evaluate each
contract to determine the [appropriateness of the] appropriate goal
pursuant to subdivision one of this section for participation by minori-

(c) consider where practicable, the severability of construction
projects and other bundled contracts; and
(d) consider compliance with the requirements of any federal law
concerning opportunities for minority and women-owned business enter-

agency shall determine whether the imposition of the requirements of any
such law duplicate or conflict with the provisions hereof and if such
duplication or conflict exists, the contracting agency shall waive the
applicability of this section to the extent of such duplication or
conflict.

5. (a) Contracting agencies shall administer the rules and regulations
promulgated by the director in a good faith effort to [meet] achieve the
maximum feasible portion of the agency's goals adopted pursuant to this
article and the regulations of the director. Such rules and regulations:
shall require a contractor to submit a utilization plan after bids are
opened, when bids are required, but prior to the award of a state
contract; shall require the contracting agency to review the utilization
plan submitted by the contractor and to post the utilization plan and
any waivers of compliance issued pursuant to subdivision six of this
section on the website of the contracting agency within a reasonable
period of time as established by the director; shall require the
contracting agency to notify the contractor in writing within a period
of time specified by the director as to any deficiencies contained in
the contractor's utilization plan; shall require remedy thereof within a
period of time specified by the director; shall require the contractor
to submit periodic compliance reports relating to the operation and
implementation of any utilization plan; shall not allow any automatic
waivers but shall allow a contractor to apply for a partial or total
waiver of the minority and women-owned business enterprise participation
requirements pursuant to subdivisions six and seven of this section;
shall allow a contractor to file a complaint with the director pursuant
to subdivision eight of this section in the event a contracting agency
has failed or refused to issue a waiver of the minority and women-owned
business enterprise participation requirements or has denied such
request for a waiver; and shall allow a contracting agency to file a
complaint with the director pursuant to subdivision nine of this section.
in the event a contractor is failing or has failed to comply with the minority and women-owned business enterprise participation requirements set forth in the state contract where no waiver has been granted.

(b) The rules and regulations promulgated pursuant to this subdivision regarding a utilization plan shall provide that where enterprises have been identified within a utilization plan, a contractor shall attempt, in good faith, to utilize such enterprise at least to the extent indicated. A contracting agency may require a contractor to indicate, within a utilization plan, what measures and procedures he or she intends to take to comply with the provisions of this article, but may not require, as a condition of award of, or compliance with, a contract that a contractor utilize a particular enterprise in performance of the contract.

(c) Without limiting other grounds for the disqualification of bids or proposals on the basis of non-responsibility, a contracting agency may disqualify the bid or proposal of a contractor as being non-responsible for failure to remedy notified deficiencies contained in the contractor's utilization plan within a period of time specified in regulations promulgated by the director after receiving notification of such deficiencies from the contracting agency. Where failure to remedy any notified deficiency in the utilization plan is a ground for disqualification, that issue and all other grounds for disqualification shall be stated in writing by the contracting agency. Where the contracting agency states that a failure to remedy any notified deficiency in the utilization plan is a ground for disqualification the contractor shall be entitled to an administrative hearing, on a record, involving all grounds stated by the contracting agency. Such hearing shall be conducted by the appropriate authority of the contracting agency to review the determination of disqualification. A final administrative determination made following such hearing shall be reviewable in a proceeding commenced under article seventy-eight of the civil practice law and rules, provided that such proceeding is commenced within thirty days of the notice given by certified mail return receipt requested rendering such final administrative determination. Such proceeding shall be commenced in the supreme court, appellate division, third department and such proceeding shall be preferred over all other civil causes except election causes, and shall be heard and determined in preference to all other civil business pending therein, except election matters, irrespective of position on the calendar. Appeals taken to the court of appeals of the state of New York shall be subject to the same preference.

6. (a) Where it appears that a contractor cannot, after a good faith effort, comply with the minority and women-owned business enterprise participation requirements set forth in a particular state contract, a contractor may file a written application with the contracting agency requesting a partial or total waiver of such requirements setting forth the reasons for such contractor's inability to meet any or all of the participation requirements together with an explanation of the efforts undertaken by the contractor to obtain the required minority and women-owned business enterprise participation. In implementing the provisions of this section, the contracting agency shall consider the number and types of minority and women-owned business enterprises [located] available to provide goods or services required under the contract in the region in which the state contract is to be performed, the total dollar value of the state contract, the scope of work to be performed and the project size and term. If, based on such considerations, the contracting
agency determines there is not a reasonable availability of contractors on the list of certified business to furnish services for the project, it shall issue a waiver of compliance to the contractor. In making such determination, the contracting agency shall first consider the availability of other business enterprises located in the region and shall thereafter consider the financial ability of minority and women-owned businesses located outside the region in which the contract is to be performed to perform the state contract.

(b) Within thirty days of the issuance of a partial or total waiver of compliance as provided in paragraph (a) of this subdivision, the contracting agency shall:

(i) report the issuance of the waiver to the director; and

(ii) publish on the contracting agency's website: (A) information identifying the contract, including the value of the contract; (B) the name of the contractor receiving the waiver; (C) the date of the waiver; (D) whether the waiver was a total or partial waiver; and (E) the specific contract provisions to which the waiver applies.

7. For purposes of determining a contractor's good faith effort to comply with the requirements of this section or to be entitled to a waiver therefrom the contracting agency shall consider:

(a) whether the contractor has advertised in general circulation media, trade association publications, and minority-focus and women-focus media and, in such event, (i) whether or not certified minority or women-owned businesses which have been solicited by the contractor exhibited interest in submitting proposals for a particular project by attending or having attended a pre-bid conference, if any, scheduled by the state agency awarding the state contract with certified minority and women-owned business enterprises; and

(ii) whether certified businesses which have been solicited by the contractor have responded in a timely fashion to the contractor's solicitations for timely competitive bid quotations prior to the contracting agency's bid date; and

(b) whether the contractor provided timely written notification of subcontracting opportunities on the state contract to appropriate certified businesses that appear in the directory of certified businesses prepared pursuant to paragraph (f) of subdivision three of section three hundred eleven of this article; and

(c) whether the contractor can reasonably structure the amount of work to be performed under subcontracts in order to increase the likelihood of participation by certified businesses.

8. In the event that a contracting agency fails or refuses to issue a waiver to a contractor as requested within twenty days after having made application therefor pursuant to subdivision six of this section or if the contracting agency denies such application, in whole or in part, the contractor may file a complaint with the director pursuant to section three hundred sixteen of this article setting forth the facts and circumstances giving rise to the contractor's complaint together with a demand for relief. The contractor shall serve a copy of such complaint upon the contracting agency by personal service or by certified mail, return receipt requested. The contracting agency shall be afforded an opportunity to respond to such complaint in writing.

9. If, after the review of a contractor's minority and women owned business utilization plan or review of a periodic compliance report and after such contractor has been afforded an opportunity to respond to a notice of deficiency issued by the contracting agency in connection therewith, it appears that a contractor is failing or refusing to comply
with the minority and women-owned business participation requirements as set forth in the state contract and where no waiver from such requirements has been granted, the contracting agency may file a written complaint with the director pursuant to section three hundred sixteen of this article setting forth the facts and circumstances giving rise to the contracting agency's complaint together with a demand for relief. The contracting agency shall serve a copy of such complaint upon the contractor by personal service or by certified mail, return receipt requested. The contractor shall be afforded an opportunity to respond to such complaint in writing.

business enterprise applicants, provided said standards comport with
those required by the state minority and women-owned business program,
in lieu of requiring the applicant to complete the state certification
process. The director shall promulgate rules and regulations to set
forth criteria for the acceptance of federal certification.

2-b. (a) Each business applying for minority or women-owned business
enterprise certification pursuant to this section must agree to allow:

with the division and (ii) the department of labor to share its tax and
employer information with the division.
(b) Such information provided pursuant to paragraph (a) of this subdi-

under the same conditions as such information is kept by the department

2-c. The director shall establish a procedure enabling the office to

approving or denying such certification and, in the event of a denial a
statement setting forth the reasons for such denial. Upon a determi-

which certification has been so denied or revoked shall, upon written
request made within thirty days from receipt of notice of such determi-

determination of the director. Such written recommendation shall be
issued to the parties. The director, within thirty days, by order, must
accept, reject or modify such recommendation of the hearing officer and
set forth in writing the reasons therefor. The director shall serve a
copy of such order and reasons therefor upon the business enterprise by
personal service or by certified mail return receipt requested. The
order of the director shall be subject to review pursuant to article
seventy-eight of the civil practice law and rules.
4. The director may, after performing an availability analysis and
upon a finding that industry-specific factors coupled with personal net
worth or small business eligibility requirements pursuant to subdivi-
sions nineteen and twenty of section three hundred ten of this article, respectively, have led to the significant exclusion of businesses owned by minority group members or women in that industry, grant provisional MWBE certification status to applicants from that designated industry, provided, however, that all other eligibility requirements pursuant to subdivision seven or fifteen of section three hundred ten of this article, as applicable, are satisfied. Any industry-based determination made under this section by the director shall be made widely available to the public and posted on the division's website.

5. With the exception of provisional MWBE certification, as provided for in subdivision twenty-three of section three hundred ten of this article, all minority and women-owned business enterprise certifications shall be valid for a period of three years.

Each agency shall also include in such annual report whether or not it has been required to prepare a remedial plan, and, if so, the plan and the extent to which the agency has complied with each element of the plan.

contracts and subcontracts; (c) contains a summary of all waivers of the
requirements of subdivisions six and seven of section three hundred
thirteen of this article allowed by each contracting agency during the
period covered by the report, including a description of the basis of

in connection with such determinations and the rationale for such penal-
ties or sanctions; and (f) contains information on each contract identi-

and women-owned business enterprises, categorized by the minority group

certification pursuant to this article and by gender. Copies of the
annual report shall be provided to the commissioner, the governor, the
comptroller, the temporary president of the senate, the speaker of the

all waivers of the requirements of subdivisions six and seven of section
three hundred thirteen of this article allowed by the reporting agency
during the preceding year, including a description of the basis of the
waiver request and the rationale for granting such waiver. Each agency
shall also include in such annual report whether or not it has been
required to prepare a remedial plan, and, if so, the plan and the extent
to which the agency has complied with each element of the plan. Each
agency shall also include in such annual report its three year growth

6. Each contracting agency that substantially fails to meet the goals
supported by the disparity study or make a good faith effort, as defined
by regulation of the director, to achieve the maximum feasible partic-
ipation of minority and women-owned business enterprises in such agen-
cy's contracting shall be required to submit to the director a remedial
action plan to remedy such failure.

7. If it is determined by the director that any agency has failed to
act in good faith to implement the remedial action plan, pursuant to
subdivision six of this section within one year, the director shall
provide written notice of such a finding, which shall be publicly avail-

owned business enterprises;
(c) eliminate extended experience or capitalization requirements, when
programmatically and economically feasible, that will expand partic-

enterprises with such identification to result from and be coupled with
the efforts of paragraphs (a), (b), and (c) of this subdivision; and
(e) upon a finding by the director that an agency has failed to take
affirmative measures to implement the remedial plan and to follow any of
the remedial actions set forth by the director, and in the absence of
any objective progress towards the agency's goals, require some or all
of the agency's procurement, for a specified period of time, be placed
under the direction and control of another agency or agencies, unless
such agency is a state funded entity.

such provisions or has failed or refused to issue a waiver where one has
been applied for pursuant to subdivision six of section three hundred
thirteen of this article or has denied such application, the director
shall attempt to resolve the matter giving rise to such complaint. If
efforts to resolve such matter to the satisfaction of all parties are
unsuccessful, the director shall refer the matter, within thirty days of
the receipt of the complaint, to the division's hearing officers. Upon
conclusion of the administrative hearing, the hearing officer shall
submit to the director his or her decision regarding the alleged

contract may include a determination that the contractor shall be ineli-

contract for a period not to exceed one year following the final deter-

penalties imposed for any subsequent violation, if such violation occurs within five years of the first violation, may include a determination that the contractor shall be ineligible to submit a bid to any contracting agency or be awarded any such contract for a period not to exceed five years following the final determination. The division of minority and women's business development shall maintain a website listing all contractors that have been deemed ineligible to submit a bid pursuant to this section and the date after which each contractor shall once again become eligible to submit bids.

3. Every contractor responding to an invitation for bids, request for proposals, or other solicitation that will result in the award of a state contract subject to workforce participation goals pursuant to this section shall agree to make a good faith effort to achieve such workforce participation goal or request a waiver of such goal.

(a) A contractor that certifies that it will make a good faith effort to achieve a workforce participation goal shall provide with its response to the applicable invitation for bids, request for proposals, or other solicitation:

(i) A certification stating that the contractor will make a good faith effort to achieve the applicable workforce participation goal and will
contractually require any subcontractors to the contractor to make a good faith effort to achieve the applicable workforce participation goal in any subcontracted work, which certification shall acknowledge that failure by the contractor or any of its subcontractors to make a good faith effort to achieve the applicable workforce participation goal may result in a determination by the contracting state agency that the contractor or its subcontractor is a non-compliant contractor; and

(b) A contractor that requests a waiver of a workforce participation goal shall provide with its response to the applicable invitation for bids, request for proposals, or other solicitation:

(i) Numerical evidence setting forth why the achievement of the workforce participation goal is not practical, feasible, or appropriate in light of the trades, professions, and occupations required to perform the work of the state contract;

(vi) Any other relevant information evidencing that the contractor's achievement of the workforce participation goal would not be practical, feasible, or appropriate.

4. A state agency shall not award a state contract to a contractor unless the contractor has (i) certified that it will make a good faith effort to achieve the applicable workforce participation goal and provided documentation of the workforce anticipated to perform the work of the state contract or (ii) submitted a waiver request which the state agency deems to reflect the maximum feasible participation of minority group members and women in each of the trades, professions, and occupations required in performance of the work of the state contract.

(a) In the event that a contractor submits a certification or waiver request that is accepted by the state agency, the state agency shall establish in the state contract the expected level of participation by minority group members and women in each of the trades, professions, and occupations required in performance of the work of the state contract.
occupations required in performance of the work of the state contract, 
require that the contractor make good faith efforts to achieve such 
workforce participation goals, require that the contractor require any 
subcontractors to make a good faith effort to achieve the applicable 
workforce participation goal in any subcontracted work, and indicate 
that the failure of the contractor or any of its subcontractors to make 
a good faith effort to achieve the workforce participation goal may 
result in the contractor or subcontractor being deemed a non-compliant 
contractor.

(b) In the event that a contractor fails to submit a certification, 
waiver request, or any other information required by the state agency, 
or the state agency determines that a contractor's waiver request does 
not demonstrate that the applicable workforce participation goal is 
impractical, unfeasible, or inappropriate, the state agency shall notify 
the contractor of the deficiency in writing and provide the contractor 
ten business days to remedy the noticed deficiency. A state agency shall 
reject any bid or proposal of a contractor that fails to timely respond 
to a notice of deficiency or to provide documentation remedying the 
deficiency to the satisfaction of the state agency.

(i) Where failure to remedy any notified deficiency in the workforce 
utilization plan is a ground for disqualification, that issue and all 
other grounds for disqualification shall be stated in writing by the 
contracting state agency. The contractor shall be entitled to an admin- 
istrative hearing, on a record, involving all grounds stated by the 
contracting state agency in its notice of the contractor's disqualifica-
tion. Such hearing shall be conducted by the division to review the 
determination of disqualification. Contractors required to submit to 
such hearing shall have an opportunity to be heard. A final administra-
tive determination made following such hearing shall be reviewable in a 
proceeding commenced under article seventy-eight of the civil practice 
law and rules, provided that such proceeding is commenced within one 
hundred twenty days of the notice given by certified mail return receipt 
requested rendering such final administrative determination. Such 
proceeding shall be commenced in the supreme court and such proceeding 
shall be preferred over all other civil causes except election causes, 
and shall be heard and determined in preference to all other civil busi-
ness pending therein, except election matters, irrespective of position 
on the calendar. Appeals taken to the court of appeals of the state of 
New York shall be subject to the same preference.

§ 823. Reporting. 1. State contracts shall require contractors to 
submit, and to require any subcontractors to submit, to the contracting 
state agency reports documenting the hours worked by employees of the 
contractor and any subcontractors in the performance of the work of the 
state contract. Such reports shall be submitted no less frequently than 
monthly for state contracts for construction and quarterly for all other 
state contracts. Such reports shall identify the race, ethnicity, 
gender, and trade, profession, and occupation of each employee perform-
ing work on a state contract.

2. State agencies shall submit periodic reports to the director, or 
the designee of the director, concerning the participation of minority 
group members and women in state contracts let by such agencies and such 
state agencies' compliance with this article. Such reports shall be 
submitted at such time, and include such information, as the director 
shall require in regulations. State agencies shall make available their 
facilities, books, and records for inspection, upon reasonable notice, 
by the director or the director's designee.
3. The department shall provide such assistance as the director shall require in carrying out the requirements of this section.

§ 824. Enforcement. 1. Where it appears that a contractor cannot, after a good faith effort, meet the workforce participation goals set forth in a particular state contract, a contractor may file a written application with the contracting state agency requesting a partial or total waiver of such requirements. servicer in accordance with this article and such regulations as may be
prescribed by the superintendent.

2. The licensing provisions of this subdivision shall not apply to any
exempt organization.

§ 712. Application for a student loan servicer license; fees. 1. The
application for a license to be a student loan servicer shall be in
writing, under oath, and in the form prescribed by the superintendent.
Notwithstanding article three of the state technology law or any other
law to the contrary, the superintendent may require that an application
for a license or any other submission or application for approval as may
be required by this article be made or executed by electronic means if
he or she deems it necessary to ensure the efficient and effective
administration of this article. The application shall include a
description of the activities of the applicant, in such detail and for
such periods as the superintendent may require, including:
(a) an affirmation of financial solvency noting such capitalization
requirements as may be required by the superintendent, and access to
such credit as may be required by the superintendent;

§ 713. Application process to receive license to engage in the business of student loan servicing. 1. Upon the filing of an application for a license, if the superintendent shall find that the financial responsibility, experience, character, and general fitness of the applicant and, if applicable, the members, officers, partners, directors and principals of the applicant are such as to command the confidence of the community and to warrant belief that the business will be operated honestly, fairly, and efficiently within the purpose of this article, the superintendent shall thereupon issue a license in duplicate to engage in the business of servicing student loans described in section seven hundred ten of this article in accordance with the provisions of this article. If the superintendent shall not so find, the superintendent shall not issue a license, and the superintendent shall so notify the applicant. The superintendent shall transmit one copy of a license to the applicant and file another copy in the office of the department of financial services. Upon receipt of such license, a student loan servicer shall be authorized to engage in the business of servicing student loans in accordance with the provisions of this article. Such license shall remain in full force and effect until it is surrendered by the servicer or revoked or suspended as hereinafter provided.

2. The superintendent may refuse to issue a license pursuant to this article if he or she shall find that the applicant, or any person who is a director, officer, partner, agent, employee, member or substantial stockholder of the applicant:

(a) lacks the good moral character and general fitness such as to warrant belief that the licensed entity would be operated honestly, fairly and efficiently within the purposes of this article;

(b) has had a license or registration revoked by the superintendent or any other regulator or jurisdiction;

(c) has been an officer, director, partner, member or substantial stockholder of an entity which has had a license or registration revoked by the superintendent or any other regulator or jurisdiction; or

3. The term "substantial stockholder", as used in this section, shall be deemed to refer to a person owning or controlling directly or indirectly ten per centum or more of the total outstanding stock of a corporation.

§ 714. Changes in officers and directors. Upon any change of any of the executive officers, directors, partners or members of any student loan servicer, the student loan servicer shall submit to the superintendent the name, address, and occupation of each new officer, director,
§ 715. Changes in control. 1. It shall be unlawful, except with the prior approval of the superintendent, for any action to be taken which results in a change of control of the business of a student loan servicer. Prior to any change of control, the person desirous of acquiring control of the business of a student loan servicer shall make written application to the superintendent and pay an investigation fee as prescribed pursuant to section eighteen-a of this chapter to the superintendent. The application shall contain such information as the superintendent, by rule or regulation, may prescribe as necessary or appropriate for the purpose of making the determination required by subdivision two of this section. Such information shall include, but not be limited to, the information and other material required for a student loan servicer by subdivision one of section seven hundred twelve of this article.

2. The superintendent shall approve or disapprove the proposed change of control of a student loan servicer in accordance with the provisions of section seven hundred thirteen of this article.

3. For a period of six months from the date of qualification thereof and for such additional period of time as the superintendent may prescribe, in writing, the provisions of subdivisions one and two of this section shall not apply to a transfer of control by operation of law to the legal representative, as hereinafter defined, of one who has control of a student loan servicer. Thereafter, such legal representative shall comply with the provisions of subdivisions one and two of this section. The provisions of subdivisions one and two of this section shall be applicable to an application made under this section by a legal representative. The term "legal representative", for the purposes of this subdivision, shall mean a person duly appointed by a court of competent jurisdiction to act as executor, administrator, trustee, committee, conservator or receiver, including a person who succeeds a legal representative and a person acting in an ancillary capacity there-to in accordance with the provisions of such court appointment.

4. Control shall be presumed to exist if any person, directly or indirectly, owns, controls or holds with power to vote ten per centum or more of the voting stock of any student loan servicer or of any person which owns, controls or holds with power to vote ten per centum or more of the voting stock of any student loan servicer, but no person shall be deemed to control a student loan servicer solely by reason of being an officer or director of such student loan servicer. The superintendent may in his discretion, upon the application of a student loan servicer or any person who, directly or indirectly, owns, controls or holds with power to vote or seeks to own, control or hold with power to vote any voting stock of such student loan servicer, determine whether or not the ownership, control or holding of such voting stock constitutes or would constitute control of such student loan servicer for purposes of this section.

§ 716. Grounds for suspension or revocation of license. 1. The superintendent may revoke any license to engage in the business of a student loan servicer if he finds after a hearing on due notice that the holder of such license is guilty of any violation of this chapter or of the regulations promulgated thereunder. Such violation shall include, but not be limited to, any violation of the provisions of this chapter or of the regulations promulgated thereunder related to the operations of a student loan servicer.
loan servicer issued pursuant to this article if a determination has
been made, after notice and a hearing, that:
   (a) a servicer has violated any provision of this article, any rule or
regulation promulgated by the superintendent under and within the
authority of this article, or any other applicable law;
   (b) a servicer engages in fraud, intentional misrepresentation, or
gross negligence in servicing a student loan;
   (c) the competence, experience, character, or general fitness of the
servicer, an individual controlling, directly or indirectly, ten percent
or more of the outstanding interests, or any person responsible for
servicing a student loan for the servicer indicates that it is not in
the public interest to permit the servicer to continue servicing student
loans;
   (d) the servicer is insolvent, suspends payment of its obligations, or
makes a general assignment for the benefit of its creditors; or
   (e) the servicer has violated the laws of this state, any other state
law or any federal law involving fraudulent or dishonest dealing, or a
final judgment has been entered against a student loan servicer in a
civil action upon grounds of fraud, misrepresentation or deceit.
2. The superintendent may, on good cause shown, or where there is a
substantial risk of public harm, suspend any license for a period not
exceeding thirty days, pending investigation. "Good cause", as used in
this subdivision, shall exist when a student loan servicer has defaulted
in performing its financial engagements or engages in dishonest or ineq-
suitable practices which may cause substantial harm to the persons
afforded the protection of this article.
3. No license shall be revoked or suspended except after notice and a
hearing thereon. Any order of suspension issued after notice and a
hearing may include as a condition of reinstatement that the student
loan servicer make restitution to consumers of fees or other charges
which have been improperly charged or collected, including but not
limited to by allocating payments contrary to a borrower's direction or
in a manner that fails to help a borrower avoid default, as determined
by the superintendent. Any hearing held pursuant to the provisions of
this section shall be noticed, conducted and administered in compliance
with the state administrative procedure act.
4. Any student loan servicer may surrender any license by delivering
to the superintendent written notice that the student loan servicer
thereby surrenders such license, but such surrender shall not affect the
servicer's civil or criminal liability for acts committed prior to the
surrender. If such surrender is made after the issuance by the super-
intendent of a statement of charges and notice of hearing, the super-
intendent may proceed against the servicer as if the surrender had not
taken place.
5. No revocation, suspension, or surrender of any license shall impair
or affect the obligation of any pre-existing lawful contract between the
student loan servicer and any person, including the department of finan-
cial services.
6. Every license issued pursuant to this article shall remain in full
force and effect until the same shall have been surrendered, revoked or
suspended in accordance with any other provisions of this article.
7. Whenever the superintendent shall revoke or suspend a license
issued pursuant to this article, he or she shall forthwith execute in
duplicate a written order to that effect. The superintendent shall file
one copy of the order in the office of the department of financial
services and shall forthwith serve the other copy upon the student loan
servicer. Any such order may be reviewed in the manner provided by arti-
cle seventy-eight of the civil practice law and rules.

§ 717. Books and records; reports and electronic filing. 1. Each
student loan servicer shall keep and use in its business such books,
accounts and records as will enable the superintendent to determine
whether the servicer is complying with the provisions of this article
and with the rules and regulations lawfully made by the superintendent.
Every servicer shall preserve such books, accounts, and records, for at
least three years.

2. (a) Each student loan servicer shall annually, on or before a date
to be determined by the superintendent, file a report with the super-
intendent giving such information as the superintendent may require
concerning the business and operations during the preceding calendar
year of such servicer under authority of this article. Such report shall
be subscribed and affirmed as true by the servicer under the penalties
of perjury and shall be in the form prescribed by the superintendent.

(b) In addition to annual reports, the superintendent may require such
additional regular or special reports as he or she may deem necessary to
the proper supervision of student loan servicers under this article.
Such additional reports shall be subscribed and affirmed as true by the
servicer under the penalties of perjury and shall be in the form
prescribed by the superintendent.

3. Notwithstanding article three of the state technology law or any
other law to the contrary, the superintendent may require that any
submission or approval as may be required by the superintendent be made
or executed by electronic means if he or she deems it necessary to
ensure the efficient administration of this article.

§ 718. Rules and regulations. 1. In addition to such powers as may
otherwise be prescribed by this chapter, the superintendent is hereby
authorized and empowered to promulgate such rules and regulations as may
in the judgment of the superintendent be consistent with the purposes of
this article, or appropriate for the effective administration of this
article, including, but not limited to:

(a) such rules and regulations in connection with the activities of
student loan servicers as may be necessary and appropriate for the
protection of borrowers in this state;
(b) such rules and regulations as may be necessary and appropriate to
define unfair, deceptive or abusive acts or practices in connection with
the activities of student loan servicers in servicing student loans;
(c) such rules and regulations as may define the terms used in this
article and as may be necessary and appropriate to interpret and imple-
ment the provisions of this article; and
(d) such rules and regulations as may be necessary for the enforcement
of this article.

2. The superintendent is hereby authorized and empowered to make such
specific rulings, demands and findings as the superintendent may deem
necessary for the proper conduct of the student loan servicing industry.

§ 719. Prohibited practices. No student loan servicer shall:

1. Directly employ any scheme, device or artifice to defraud or
mislead a borrower.

2. Intentionally engage in any unfair, deceptive or predatory act or
practice toward any person or misrepresent or omit any material informa-
tion in connection with the servicing of a student loan, including, but
not limited to, misrepresenting the amount, nature or terms of any fee
or payment due or claimed to be due on a student loan, the terms and
conditions of the loan agreement or the borrower's obligations under the
loan.
3. Intentionally misapply payments to the outstanding balance of any
student loan or to any related interest or fees.
4. Intentionally provide misleading information to a consumer reporting
agency.
5. Refuse to communicate with an authorized representative of the
borrower who provides a written authorization signed by the borrower,
provided that the servicer may adopt procedures reasonably related to
verifying that the representative is in fact authorized to act on behalf
of the borrower.
6. Knowingly make any false statement or make any omission of a mate-
rial fact in connection with any information or reports filed with a
governmental agency or in connection with any investigation conducted by
the superintendent or another governmental agency.
§ 720. Servicing student loans without a license. Whenever, in the
opinion of the superintendent, a person is engaged in the business of
servicing student loans, either actually or through subterfuge, without
a license from the superintendent, the superintendent may order that
person to desist and refrain from engaging in the business of servicing
student loans in the state. If, within thirty days after an order is
served, a request for a hearing is filed in writing and the hearing is
not held within sixty days of the filing, the order shall be rescinded.
§ 721. Responsibilities. 1. If a student loan servicer regularly
reports information to a consumer reporting agency, the servicer shall
accurately report a borrower's payment performance to at least one
consumer reporting agency that compiles and maintains files on consumers
on a nationwide basis as defined in Section 603(p) of the Federal Fair
Credit Reporting Act (15 U.S.C. Sec. 1681a(p)), upon acceptance as a
data furnisher by that consumer reporting agency.
2. (a) Except as provided in federal law or required by a student loan
agreement, a student loan servicer shall inquire of a borrower how to
apply a borrower's nonconforming payment. A borrower's direction on how
to apply a nonconforming payment shall remain in effect for any future
nonconforming payment during the term of a student loan until the
borrower provides different directions.
(b) For purposes of this subdivision, "nonconforming payment" shall
mean a payment that is either more or less than the borrower's required
student loan payment.
3. (a) If the sale, assignment, or other transfer of the servicing of
a student loan results in a change in the identity of the person to whom
the borrower is required to send subsequent payments or direct any
communications concerning the student loan, a student loan servicer
shall transfer all information regarding a borrower, a borrower's
account, and a borrower's student loan, including but not limited to the
borrower's repayment status and any borrower benefits associated with
the borrower's student loan, to the new student loan servicer servicing
the borrower's student loan within forty-five days.
(b) A student loan servicer shall adopt policies and procedures to
verify that it has received all information regarding a borrower, a
borrower's account, and a borrower's student loan, including but not
limited to the borrower's repayment status and any borrower benefits
associated with the borrower's student loan, when the servicer obtains
the right to service a student loan.
4. If a student loan servicer sells, assigns, or otherwise transfers
the servicing of a student loan to a new servicer, the sale, assignment
or other transfer shall be completed at least seven days before the borrower's next payment is due.

5. (a) A student loan servicer that sells, assigns, or otherwise transfers the servicing of a student loan shall require as a condition of such sale, assignment or other transfer that the new student loan servicer shall honor all borrower benefits originally represented as being available to a borrower during the repayment of the student loan and the possibility of such benefits, including any benefits that were represented as being available but for which the borrower had not yet qualified.

(b) A student loan servicer that obtains the right to service a student loan shall honor all borrower benefits originally represented as being available to a borrower during the repayment of the student loan and the possibility of such benefits, including any benefits that were represented as being available but for which the borrower had not yet qualified.

6. A student loan servicer shall respond within thirty days after receipt to a written inquiry from a borrower or a borrower's authorized representative.

7. A student loan servicer shall preserve records of each student loan and all communications with borrowers for not less than two years following the final payment on a student loan or the sale, assignment or other transfer of the servicing of a student loan, whichever occurs first, or such longer period as may be required by any other provision of law.

§ 722. Examinations. 1. The superintendent may at any time, and as often as he or she may determine, either personally or by a person duly designated by the superintendent, investigate the business and examine the books, accounts, records, and files used therein of every student loan servicer. For that purpose the superintendent and his or her duly designated representative shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of all student loan servicers. The superintendent and any person duly designated by him or her shall have the authority to require the attendance of and to examine under oath all persons whose testimony he or she may require relative to such business.

2. No person subject to investigation or examination under this section may knowingly withhold, abstract, remove, mutilate, destroy or secrete any books, records, computer records or other information.

3. The expenses incurred in making any examination pursuant to this section shall be assessed against and paid by the student loan servicer so examined, except that traveling and subsistence expenses so incurred shall be charged against and paid by servicers in such proportions as the superintendent shall deem just and reasonable, and such proportionate charges shall be added to the assessment of the other expenses incurred upon each examination. Upon written notice by the superintendent of the total amount of such assessment, the servicer shall become liable for and shall pay such assessment to the superintendent.

4. In any hearing in which a department employee acting under authority of this chapter is available for cross-examination, any official written report, worksheet, other related papers, or duly certified copy thereof, compiled, prepared, drafted, or otherwise made by such department employee, after being duly authenticated by the employee, may be admitted as competent evidence upon the oath of the employee that such worksheet, investigative report, or other related documents were prepared as a result of an examination of the books and records of a
servicer or other person, conducted pursuant to the authority of this chapter.

5. Unless otherwise exempt pursuant to subdivision two of section seven hundred eleven of this article, affiliates of a student loan servicer shall be subject to examination by the superintendent on the same terms as the servicer, but only when reports from, or examination of, a servicer provides evidence of unlawful activity between a servicer and affiliate benefitting, affecting, or arising from the activities regulated by this article.

§ 723. Penalties for violation of this article. 1. In addition to such penalties as may otherwise be applicable by law, the superintendent may, after notice and hearing, require any person found violating the provisions of this article or the rules or regulations promulgated hereunder to pay to the people of this state a penalty for each violation of this article or any regulation or policy promulgated hereunder a sum not to exceed an amount as determined pursuant to section forty-four of this chapter for each such violation.

2. Nothing in this article shall limit any statutory or common-law right of any person to bring any action in any court for any act, or the right of the state to punish any person for any violation of any law.

§ 724. Severability of provisions. If any provision of this article, or the application of such provision to any person or circumstance, shall be held invalid, illegal or unenforceable, the remainder of the article, and the application of such provision to persons or circumstances other than those as to which it is held invalid, illegal or unenforceable, shall not be affected thereby.

§ 725. Compliance with other laws. 1. Student loan servicers shall engage in the business of servicing student loans in conformity with the provisions of this chapter, such rules and regulations as may be promulgated by the superintendent thereunder and all applicable federal laws and the rules and regulations promulgated thereunder.

2. Nothing in this section shall be construed to limit any otherwise applicable state or federal law or regulations.

Section 1. Approximately 40 percent of the food produced in the United States today goes uneaten. Much of this organic waste is disposed of in solid waste landfills, where its decomposition accounts for over 15 percent of our nation's emissions of methane, a potent greenhouse gas. Meanwhile, an estimated 2.8 million New Yorkers are facing hunger and food insecurity. Recognizing the importance of food scraps to our environment, economy, and the health of New Yorkers, this act establishes a food scraps hierarchy for the state of New York. The first tier of the hierarchy is source reduction, reducing the volume of surplus food generated. The second tier is recovery, feeding wholesome food to hungry people. Third is repurposing, feeding animals. Fourth is recycling, processing any leftover food such as by composting or anaerobic digestion to create a nutrient-rich soil amendment. This legislation is designed to address each tier of the hierarchy by: encouraging the
prevention of food waste generation by commercial generators and residents; directing the recovery of excess edible food from high-volume commercial food waste generators; and ensuring that a significant portion of inedible food waste from large volume food waste generators is managed in a sustainable manner, and does not end up being sent to landfills or incinerators. In addition, the state has supported the recovery of wholesome food by providing grants from the environmental protection fund to increase capacity of food banks, conduct food scraps audits of high-volume generators of food scraps, support implementation of pollution prevention projects identified by such audits, and expand capacity of generators and municipalities to donate and recycle food.

§ 2. Article 27 of the environmental conservation law is amended by adding a new title 22 to read as follows:

TITLE 22

FOOD DONATION AND FOOD SCRAPS RECYCLING

Section 27-2201. Definitions.

27-2203. Designated food scraps generator responsibilities.
27-2205. Waste transporter responsibilities.
27-2207. Transfer station.
27-2209. Food scraps disposal prohibition.
27-2211. Department responsibilities.
27-2213. Regulations.
27-2215. Exclusions.

§ 27-2219. Severability.

1. "Designated food scraps generator" means a person who generates at a single location an annual average of two tons per week or more of food scraps based on a methodology established by the department pursuant to regulations, including, supermarkets, restaurants, higher educational institutions, hotels, food processors, correctional facilities, sports or entertainment venues and health care facilities. For a location with multiple independent food service businesses, such as a mall or college campus, the entity responsible for contracting for solid waste hauling services is responsible for managing food scraps from the independent businesses.

2. "Food scraps" means inedible food, trimmings from the preparation of food, food-soiled paper, and edible food that is not donated. Food scraps shall not include used cooking oil, yellow grease or food from residential sources, or any food identified in regulations promulgated by the department in consultation with the department of agriculture and markets or any food which is subject to a recall or seizure due to the presence of pathogens, including but not limited to: Listeria Monocytogenes, confirmed Clostridium Botulinum, E. coli 0157:H7 and all salmonella in ready-to-eat foods.

3. "Organics recycler" means a facility, permitted by the department, that recycles food scraps through use as animal feed or a feed ingredient, rendering, land application, composting, aerobic digestion, anaerobic digestion, fermentation, or ethanol production. Animal scraps, food soiled paper, and post-consumer food scraps are prohibited for use as animal feed or as a feed ingredient. The proportion of the product created from food scraps by a composting or digestion facility, including a wastewater treatment plant that operates a digestion facility, or other treatment system, must be used in a beneficial manner as a soil amendment and shall not be disposed of or incinerated.
4. "Person" means any business entity, partnership, company, corporation, not-for-profit corporation, association, governmental entity, public benefit corporation, public authority, firm, or organization.

5. "Single location" means contiguous property under common ownership, which may include one or more buildings.

6. "Incinerator" shall have the same meaning as provided in section 72-0401 of this chapter.

7. "Landfill" shall have the same meaning as provided in section 72-0401 of this chapter.

8. "Transfer station" means a solid waste management facility, whether owned or operated by a private or public entity, other than a recycler, bales handling and recovery facility, used oil facility, or a construction and demolition debris processing facility, where solid waste is received for the purpose of subsequent transfer to another solid waste management facility for processing, treating, disposal, recovery, or further transfer.

§ 27-2203. Designated food scraps generator responsibilities.

1. Effective January first, two thousand twenty-one:
   (a) all designated food scraps generators shall separate their excess edible food for donation for human consumption to the maximum extent practicable, and in accordance with applicable laws, rules and regulations related to food donation; and
   (b) except as provided in paragraph (c) of this subdivision, each designated food scraps generator that is within fifteen miles of an organics recycler, to the extent that the recycler has capacity to accept all of such generator's food scraps based on the department's yearly estimate of an organics recycler's capacity pursuant to section 27-2211 of this title, shall:
      (i) separate its remaining food scraps from other solid waste;
      (ii) ensure proper storage for food scraps on site which shall preclude such materials from becoming odorous or attracting vectors, such as a container that has a lid and a latch that keeps the lid closed and is resistant to tampering by rodents or other wildlife and has sufficient capacity;
      (iii) have information available and provide training for employees concerning the proper methods to separate and store food scraps; and
      (iv) obtain a transporter that will deliver food scraps to an organics recycler, self-haul its food scraps to an organics recycler, or provide for organics recycling on-site via in vessel composting, aerobic or anaerobic digestion or any other method of processing organic waste that the department approves by regulation, for some or all of the food waste that it generates on its premises, provided that the remainder is delivered to an organics recycler.
   (c) The provisions of paragraph (b) of this subdivision shall not apply to any designated food scraps generator that has all of its food scraps processed in a mixed solid waste composting or mixed solid waste anaerobic digestion facility.

2. All designated food scraps generators shall submit an annual report to the department on or before March first, two thousand twenty-two, and annually thereafter, in an electronic format. The annual report must summarize the amount of edible food donated, the amount of food scraps recycled, the organics recycler or recyclers and associated transporters used, and any other information as required by the department.

3. A designated food scraps generator may petition the department for a temporary waiver from some or all of the requirements of this title. The petition must include evidence of undue hardship based on:
(a) the designated food scraps generator does not meet the two tons per week threshold;
(b) the cost of processing organic waste is not reasonably competitive with the cost of disposing of waste by landfill;
(c) the organics recycler does not have sufficient capacity, despite the department's calculation; or
(d) the unique circumstances of the generator.
A waiver shall be no longer than one year in duration provided, however, the department may renew such waiver.

§ 27-2205. Waste transporter responsibilities.
1. Any waste transporter that collects food scraps for recycling from a designated food scraps generator shall:
   (a) deliver food scraps to a transfer station that will deliver such food scraps to an organics recycler unless such generator has received a temporary waiver under subdivision three of section 27-2203 of this title; or
   (b) deliver such food scraps directly to an organics recycler.
2. Any waste transporter that collects food scraps from a designated food scraps generator shall take all reasonable precautions to not deliver those food scraps to an incinerator or a landfill nor commingle the material with any other solid waste unless such commingled waste can be processed by an organics recycler or unless such generator has received a temporary waiver under subdivision three of section 27-2203 of this title.

§ 27-2207. Transfer station.
Any transfer station that receives food scraps from a designated food scraps generator must ensure that the food scraps are taken to an organics recycler unless such generator has received a temporary waiver under subdivision three of section 27-2203 of this title. A transfer station shall take all reasonable precautions to not commingle the material with any other solid waste unless such commingled waste can be processed by an organics recycler.

§ 27-2209. Food scraps disposal prohibition.
Incinerators and landfills shall take all reasonable precautions to not accept food scraps from designated food scraps generators required to send their food scraps to an organics recycler as outlined under section 27-2203 of this title, after January first, two thousand twenty-one, unless the designated food scraps generator has received a temporary waiver under subdivision three of section 27-2203 of this title.

§ 27-2211. Department responsibilities.
1. The department shall publish on its website: (a) the methodology the department will use to determine who is a designated food scrap generator; (b) the waiver process; (c) procedures to minimize odors and vectors; and (d) a list of all designated food scraps generators, organics recyclers, and all waste transporters that manage source-separated organics.
2. No later than June first, two thousand twenty and annually thereafter, the department shall assess the capacity of each organic recycler and notify designated food scraps generators if they are required to comply with the provisions of paragraph (b) of subdivision one of section 27-2203 of this title.
3. The department shall develop and make available educational materials to assist designated food scraps generators with compliance with this title. The department shall also develop education materials on food waste minimization and encourage municipalities to disseminate.
these materials both on their municipal websites and in any such future mailings to their residents as they may distribute.

4. The department shall regulate organics recyclers to ensure that their activities do not impair water quality or otherwise harm human health and the environment.

§ 27-2213. Regulations.
The department shall, after one or more public hearings, promulgate rules and regulations necessary to implement the provisions of this title including: (a) the methodology the department will use to determine who is a designated food scraps generator; (b) the waiver process; (c) procedures to minimize odors and vectors; (d) a list of all designated food scraps generators, organics recyclers, and all waste transporters that manage source-separated organics; and (e) how designated food scraps generators shall comply with the provisions of paragraph (a) and subparagraph (i) of paragraph (b) of subdivision one of section 27-2203 of this title.

§ 27-2215. Exclusions.
1. This title shall not apply to any designated food scraps generators located in a city with a population of one million or more which has a local law, ordinance or regulation in place which requires the diversion of edible food and food scraps from disposal.

2. This title does not apply to hospitals, elementary and secondary schools.

§ 27-2217. Annual report.
No later than January first, two thousand twenty-two, and on an annual basis thereafter, the department shall submit an annual report to the governor and legislature describing the operation of the food donation and food scraps recycling program including amount of edible food donated, amount of food scraps recycled, sample educational materials, and number of waivers provided.

§ 27-2219. Severability.
The provisions of this title shall be severable and if any portion thereof or the applicability thereof to any person or circumstance is held invalid, the remainder of this title and the application thereof shall not be affected thereby.

§ 3. This act shall take effect immediately.

If the claim is based on your failure to pay property or water and sewer charges or maintain homeowner's insurance, you can cure this default by making the payment of $____________ for the advancements we made towards these payments on your behalf.

You have the right to dispute the claims listed above by contacting us, by calling ___________ or sending a letter to __________________. This may include proof of payments made for property taxes or water and sewer charges or a current declaration page from your insurance company, or any other proof to dispute the servicer's claim.

If you are in default for failure to pay property charges (property taxes, homeowner's insurance and/or water/sewer charges) you may qualify for a grant, loan, or re-payment plan to cure the default balance owed.
If you are in default due to the death of your spouse, you may be considered an eligible "Non-Borrowing Spouse" under a HUD program which allows you to remain in your home for the rest of your life.

If you are over the age of 80 and have a long term illness, you may also qualify for the "At-Risk Extension," which allows you to remain in your home for one additional year and requires an annual re-certification.

If you are in default because the named borrower on the reverse mortgage has died and you are the lawful heir to the property, you may be able to keep the property by paying either the full loan balance or 95 percent of the home's appraised value, whichever is less.

The small business innovation research/small business technology transfer technical assistance program, hereafter referred to as "the program", is hereby created in the corporation for the purposes of providing funds to eligible entities to provide technical assistance to small businesses of one hundred employees or less and located in New York state in competing successfully for grants made available through phase I of the federal small business innovation research program as enacted pursuant to the
small business innovation development act of 1982, and the small business technology transfer act of 1982, so as to increase the number of phase I SBIR and STTR award winners within the state.

2. Technical assistance services under this section may include, but are not limited to:
   (a) outreach to small businesses to promote awareness of SBIR/STTR program solicitations;
   (b) counseling to determine the ability of a business to pursue SBIR/STTR phase I funding, the technology match with the federal agency solicitation to be pursued, the qualifications of personnel involved in the proposed project, and the level of support needed from the technical assistance program to produce a competitive application; and
   (c) proposal preparation assistance including grant writing, technology evaluation, and general proposal evaluation.

3. In determining whether to provide technical assistance authorized pursuant to this section to a small business, eligible entities shall consider the probability of such business commercializing any innovations resulting from research funded by an SBIR or STTR award in New York state.

4. (a) Entities that are eligible to receive funds under this section shall have demonstrable experience and success in providing technical assistance authorized pursuant to this section, and as determined by the corporation, and shall include:

   (b) Preference for receiving funds under this section shall be given to entities that partner with other eligible entities to provide the full range of technical assistance services as specified in subdivision two of this section.
   (c) Entities receiving funds under this section shall match such funds on a one-to-one basis. Such match shall consist of actual cash, salaries, staff time, or expenses directly attributable to the purposes of this section. Overhead costs may not be included in the match.

5. (a) Funds can be used for costs related to conducting outreach to small businesses to promote awareness of SBIR/STTR program solicitations, grant preparation and review, and printing costs and supplies associated with the submission of grants.
   (b) From such funds as may be appropriated for this purpose by the legislature, the corporation shall make competitive awards annually in amounts of up to two hundred thousand dollars to providers of assistance pursuant to this section.

6. (a) Entities receiving funds shall annually provide to the corporation details on the following:
   (i) description of small businesses served, including technology focus, business size and location;

PART MM

Section 1. Short title. This act shall be known and may be cited as the "New York state innovation voucher program act".

§ 2. Section 1 of chapter 174 of the laws of 1968, constituting the New York state urban development corporation act, is amended by adding a new section 16-bb to read as follows:

§ 16-bb. New York state innovation voucher program. (1) Program established. There is hereby established a New York state innovation voucher program under the purview of the empire state development corporation. Such program shall provide small businesses with access to research and development by colleges and universities, government laboratories and public research institutes in order to assist such businesses in the creation of innovative products or services that provide job retention and expansion.

(2) Definitions. For the purposes of this section, the following terms shall have the following meanings:

(a) "Eligible recipient" shall mean small businesses as defined in section one hundred thirty-one of the economic development law.

(b) "Eligible projects" for vouchers authorized pursuant to this section shall mean research and development projects leading to innovation of products or services. Eligible costs shall include, but not be limited to, the development of prototypes, field testing, engineering or other projects authorized by the corporation that enhance innovation of products or services that result in job growth and business expansion within the state.

(c) "Ineligible expense" shall mean reimbursement of time spent by the employees or owners of the small business; grant or voucher application costs; routine and readily-predictable business expenses; design and production of marketing or advertising materials; basic professional services such as ongoing routine accounting, tax or legal services; building or equipment construction costs; financing fees; travel and entertainment costs; hospitality costs; and any other expenses deemed ineligible by the corporation.

(d) "Research and development partner" shall mean colleges, universities, state and national government laboratories, and public research institutes in New York state.

(e) "Exceptionally innovative projects" shall mean projects that demonstrate a potential for substantial economic growth and job development in an emerging technology field, as defined by the corporation, through the promulgation of rules and regulations, as emerging technology fields from those fields listed in subparagraphs one, two, three, four and five of paragraph (b) of subdivision one of section thirty-one hundred two-e of the public authorities law.
(3) Selection of eligible recipients. (a) Eligible recipients shall be
selected by the corporation based on the strength of their proposals,
including evaluation of the innovative nature of the project, its tech-
nical feasibility, commercial viability and the potential impact on the
retention and creation of new jobs.
(b) Small businesses may identify desired or potential research and
development partners as part of their applications. Advance determina-
tions of the business' research and development partner shall not be a
requirement for receipt of an innovation voucher.
(c) Applications shall be judged by an advisory committee, or regional
advisory committee, appointed by the president of the corporation
consisting of members of the higher education, science and technology,
and business communities.

(4) Research and development partners. The corporation shall identify
a list of potential research and development partners in New York state
that have appropriate facilities and resources to participate in the
innovation voucher program and are willing to accept vouchers from
eligible recipients for payment of their services. The list of potential
research and development partners shall be displayed on the corpo-
ration's website, and shall be reviewed and revised at least quarterly.

(5) Vouchers and matching funds. (a) The corporation, upon the recom-
mendation of the advisory committee, may award vouchers up to ten thou-
sand dollars for each eligible project. Upon the recommendation of the
advisory committee, the corporation may award a voucher in an amount up
to fifty thousand dollars where a project is deemed exceptionally inno-
native. Criteria for determination of awards shall be established by the
corporation in rules and regulations. Eligible recipients shall match
the value of the voucher on a dollar-for-dollar basis and shall apply
such amount to the voucher-funded project.
(b) If an applicant is approved by the corporation for a voucher based
on the merits of an eligible project, such eligible recipient shall be
authorized to enter into a working agreement with the appropriate
research and development partner. The eligible recipient shall notify
the corporation of the research and development partner collaboration to
be formed to further research and development. Payment of the voucher
shall be made based on a payment structure established by the corpo-
ration in rules and regulations promulgated pursuant to section four of
this act to administer a collaboration.

(6) Outreach. To ensure maximum awareness of the innovation voucher
program, the corporation shall develop and implement a plan to dissem-
inate information and materials to small businesses, including but not
limited to minority- and women-owned enterprises and veteran-owned busi-
nesses.

(7) Reports. The corporation shall post quarterly reports stating: the
number and monetary value of vouchers issued; the amount of program
funding used for the vouchers; the recipient of the the vouchers and
research and development partner; and any other appropriate metrics to
measure the success of the program, including but not limited to, the
number of jobs created or retained, the number of patents produced as a
result of the collaboration, a description of the economic development
impact and such other information as the corporation may deem necessary.
Such quarterly reports shall also include a list of current advisory
committee members and a list of current research and development part-
ners approved by the corporation.

(8) Funding. The corporation is authorized, within available appropri-
ations in the empire state development fund established pursuant to
Section sixteen-m of this act or from any other funds appropriated, to make innovative vouchers available to eligible recipients.

§ 3. Subdivision 1 of section 16-m of section 1 of chapter 174 of the laws of 1968, constituting the New York state urban development corporation act, is amended by adding a new paragraph (o) to read as follows:

(o) Vouchers to eligible entities as set forth in section sixteen-bb of this act to support the New York state innovation voucher program to assist small business access to research and development by colleges and universities, government laboratories and public research institutes to support such businesses in the creation of innovative products or services.

§ 4. Rules and regulations. The empire state development corporation is authorized to promulgate rules and regulations in accordance with the state administrative procedure act that are necessary to fulfill the purposes of this act. Such rules and regulations shall be completed within one hundred eighty days after the effective date of this act.

§ 5. This act shall take effect on the one hundred eightieth day after it shall have become a law; provided, however, that the amendments to subdivision 1 of section 16-m of section 1 of chapter 174 of the laws of 1968, constituting the New York state urban development corporation act, made by section three of this act shall not affect the expiration of such section and shall be deemed to expire therewith; provided, further, that any rules and regulations necessary for the timely implementation of this act on its effective date may be promulgated on or before such effective date.

§ 438. Disclosure authorization and reporting requirements. 1. The commissioner and the department shall disclose publicly the names and addresses of the businesses located within a tax-free NY area. In addition, the commissioner and the department shall disclose publicly and include in the annual report required under subdivision two of this section such other information contained in such businesses' applications and annual reports, including the projected number of net new jobs to be created, as they determine is relevant and necessary to evaluate the success of this program.

2. (a) The commissioner shall prepare an annual report to the governor and the legislature. Such report shall include the number of business applicants, number of businesses approved, the names and addresses of the businesses located within a tax-free NY area, total amount of benefits distributed, benefits received per business, number of net new jobs created, net new jobs created per business, new investment per business, the types of industries represented and such other information as the commissioner determines is necessary to evaluate the progress of the START-UP NY program.

(b) Any business located in a tax-free NY area must submit an annual report to the commissioner in a form and at such time and with such information as prescribed by the commissioner in consultation with the commissioner of taxation and finance. Such information shall be sufficient for the commissioner and the commissioner of taxation and finance to: (i) monitor the continued eligibility of the business and its employees to participate in the START-UP NY program and receive the tax benefits described in section thirty-nine of the tax law; (ii) evaluate
the progress of the START-UP NY program; and (iii) prepare the annual
report required by paragraph (a) of this subdivision. Such annual report
shall also include information regarding the wages paid during the year
to its employees employed in the net new jobs created and maintained in
the tax-free NY area.
§ 2. This act shall take effect immediately and shall be deemed to
have been in full force and effect on and after April 10, 2017.

PART 00

Section 1. Section 1 of chapter 174 of the laws of 1968, constituting
the New York state urban development corporation act, is amended by
adding a new section 52 to read as follows:
§ 52. Strategic investment in workforce development. 1. Pursuant to
this section there is hereby established within the corporation, the
strategic investment in workforce development program to identify and
address workforce needs throughout the state. The corporation shall
collaborate with the department of labor, the department of economic
development, the state university of New York, the city university of
New York, and the state education department to provide support to
eligible applicants within amounts available for the strategic invest-
ments in workforce development program and shall identify the training
needs of employers, employees and prospective employees; identify areas
of the state or specific industries where a shortage of a skilled work-
force is impacting the ability of those areas of the state or industries
to remain competitive and innovative; identify methods and models to
train and employ youth workers; and identify ways to serve prospective
employees that are currently unemployed or underemployed. The strategic
investment in workforce development program shall utilize the informa-
tion gathered to target workforce training activities, employment
credentials or certificate opportunities, and skill development programs
to meet the identified needs and to provide necessary training and skill
development programs to youth and individuals who are unemployed or
underemployed.

2. Eligible applicants shall include an employer or consortium of
employers in conjunction with a labor organization, a not-for-profit, an
educational entity or a program or network that provides training and
skill development for youth or individuals who are unemployed or under-
employed. An entity that works directly with employers to provide
training or retraining, particularly in high-skill occupations or indus-
tries, or an entity that seeks to promote and foster economic develop-
ment and job growth shall also be considered an eligible applicant.
Eligible applicants shall demonstrate a relationship with educational
programs and entities that address the needs of employers, employees or
prospective employees, particularly youth, unskilled workers, unemployed
individuals or underemployed workers.

3. (a) Assistance provided by the corporation to eligible applicants
may be used for the costs associated with strategic workforce develop-
ment training and skills development. Such costs may include, but is not
limited to, classroom training, on the job training, curriculum develop-
ment, and training materials associated with on the job training, skills
upgrading, skills retraining, and basic skills training that leads to
obtaining appropriate certifications or degrees from accredited insti-
tutions; and

(b) The corporation shall ensure that not less than twenty percent of
the program funds are used in support of projects that assist small
S. 54-1701. Definitions.

For purposes of this title "environmental justice" means the fair treatment of people of all races, cultures and incomes in the development, adoption, implementation and enforcement of environmental laws and policies.

§ 54-1702. Implementation of environmental justice policies.

1. All state agencies, boards, commissions and other bodies involved in decisions that may affect environmental quality shall adopt and implement environmental justice policies providing meaningful opportunities for involvement to all people, regardless of race, color, ethnicity, religion, income or education level.

2. All state programs and policies designed to protect the environment shall be reviewed periodically to ensure that program implementation and dissemination of information meet the needs of low-income and minority communities, and seek to address disproportionate exposure to environmental hazards.

3. The department will use available environmental and public health data to identify existing and proposed industrial and commercial facilities and areas in communities of color and low-income communities for which compliance, enforcement, remediation, siting and permitting strategies will be targeted to address impacts from these facilities.

4. The department shall create an environmental justice advisory council to advise the department and the environmental justice task force on environmental justice issues. The council shall consist of fifteen individuals and will meet at least quarterly. The council shall annually select a chairperson from its membership and shall have a composition of one-third membership from grassroots or faith-based community organizations, with additional membership to include representatives from the following communities: academic public health, statewide environmental, civil rights and public health organizations, large and small business and industry, municipal and county officials, and organized labor.
§ 54-1703. Environmental justice task force.
1. The commissioner and the commissioner of the department of health, or their appointed designees, shall convene a multi-agency task force, to be named the environmental justice task force. This task force will include senior management designees from the governor counsel's office, the attorney general's office, the departments of health, agriculture and markets, transportation, and education. The task force shall be an advisory body, the purpose of which is to make recommendations to state agency heads regarding actions to be taken to address environmental justice issues consistent with each agency's existing statutory and regulatory authority. The task force is authorized to consult with, and expand its membership to, other state agencies as needed to address concerns raised in affected communities.
2. Any community may file a petition with the task force that asserts that residents and workers in the community are subject to disproportionate adverse exposure to environmental health risks, or disproportionate adverse effects resulting from the implementation of laws affecting public health or the environment.
3. The task force shall identify a set of communities from the petitions filed, based on selection criteria developed by the task force, including consideration of state agency resource constraints. The task force shall meet directly with the selected communities to understand their concerns.
4. The task force shall develop an action plan for each of the selected communities after consultation with the citizens, as well as local and county government as relevant, that will address environmental factors that affect community health. The action plan shall clearly delineate the steps that will be taken in each of the selected communities to reduce existing environmental burdens and avoid or reduce the imposition of additional environmental burdens through allocations of resources, exercise of regulatory discretion, and development of new standards and protections. The action plan, which shall be developed in consultation with the environmental justice advisory council, will specify community deliverables, a timeframe for implementation, and the justification and availability of financial and other resources to implement the plan. The task force shall present the action plan to the relevant departments, recommending its implementation.
5. The task force shall monitor the implementation of each action plan in the selected communities, and shall make recommendations to state agencies as necessary to facilitate implementation of the action plans. Agencies shall implement the strategy to the fullest extent practicable in light of statutory and resource constraints.

§ 54-1705. Environmental justice grants.
1. For the purpose of this section, environmental justice projects shall take place in environmental justice, inner city, and underserved areas and mean:
   (a) improvements to environmental quality;
   (b) projects that address exposure to multiple harms and risks, including lead exposure;
   (c) environmental job training;
   (d) studies, including air monitoring, to investigate the environment, or related public health issues of the community; and,
   (e) research that will be used to expand the knowledge or understanding of the affected community, including ways to improve resiliency provided that the results of any such investigation shall be disseminated to the members of the affected community.
2. The commissioner, after consultation with the environmental justice advisory council, and a not-for-profit corporation may enter into a contract for the undertaking by the not-for-profit corporation of an environmental justice project. Such project shall be recommended to the commissioner by the governing body of a not-for-profit corporation which demonstrates to the satisfaction of the commissioner that such projects address the environmental and/or related public health issues of the residents of the affected community. Upon approval by the commissioner, such project shall be undertaken pursuant to the provisions of this title and any other applicable provision of law.

3. The commissioner, after consultation with the environmental justice advisory council, and a municipality may enter into a contract for the undertaking by the municipality of an environmental justice project. Such project shall be recommended to the commissioner by the governing body of a municipality which demonstrates to the satisfaction of the commissioner that such projects address the environmental and/or related public health issues of the residents of the affected community. Upon approval by the commissioner, such project shall be undertaken pursuant to the provisions of this title and any other applicable provision of law.

§ 2. This act shall take effect July 1, 2019; provided however, that the environmental justice task force and the environmental justice advisory council shall be established and operating by October 1, 2019.

PART QQ

Section 1. Legislative findings and declaration. The legislature hereby enacts the "New York State climate and community protection act" and finds and declares that:

1. Climate change is adversely affecting economic well-being, public health, natural resources, and the environment of New York. The adverse impacts of climate change include:
   a. an increase in the severity and frequency of extreme weather events, such as storms, flooding, and heat waves, which can cause direct injury or death, property damage, and ecological damage (e.g., through the release of hazardous substances into the environment);
   b. rising sea levels, which exacerbate damage from storm surges and flooding, contribute to coastal erosion and saltwater intrusion, and inundate low-lying areas, leading to the displacement of or damage to coastal habitat, property, and infrastructure;
   c. a decline in freshwater and saltwater fish populations;
   d. increased average temperatures, which increase the demand for air conditioning and refrigeration among residents and businesses;
   e. exacerbation of air pollution; and
   f. an increase in the incidences of infectious diseases, asthma attacks, heart attacks, and other negative health outcomes. These impacts are having a detrimental effect on some of New York's largest industries, including agriculture, commercial shipping, forestry, tourism, and recreational and commercial fishing. These impacts also place additional strain on the physical infrastructure that delivers critical services to the citizens of New York, including the state's energy, transportation, stormwater, and wastewater infrastructure.

2. a. The severity of current climate change and the threat of additional and more severe change will be affected by the actions undertaken by New York and other jurisdictions to reduce greenhouse gas emissions. According to the U.S. Global Change Research Program (USGCRP) and the
Intergovernmental Panel on Climate Change (IPCC), substantial reductions
in greenhouse gas emissions will be required by mid-century in order to
limit global warming to no more than 2°C and ideally 1.5°C, and thus
minimize the risk of severe impacts from climate change. Specifically,
industrialized countries must reduce their greenhouse gas emissions by
at least 80% below 1990 levels by 2050 in order to stabilize carbon
dioxide equivalent concentrations at 450 parts per million—the level
required to stay within the 2°C target.

b. On December 12, 2015, one hundred ninety-five countries at the 21st
Conference of the parties of the United Nations Framework Convention on
Climate Change adopted an agreement addressing greenhouse gas emissions
mitigation, adaptation, and finance starting in the year 2020, known as
the Paris Agreement. The Paris Agreement was adopted on November 4,
2016, and is the largest concerted global effort to combat climate
change to date.

3. Action undertaken by New York to reduce greenhouse emissions will
have an impact on global greenhouse gas emissions and the rate of
climate change. In addition, such action will encourage other jurisdic-
tions to implement complementary greenhouse gas reduction strategies and
provide an example of how such strategies can be implemented. It will
also advance the development of green technologies and sustainable prac-
tices within the private sector, which can have far-reaching impacts
such as a reduction in the cost of renewable energy components, and the
creation of jobs and tax revenues in New York.

4. It shall therefore be a goal of the state of New York to reduce
greenhouse gas emissions from all anthropogenic sources 100% over 1990
levels by the year 2050, with an incremental target of at least a 50
percent reduction in climate pollution by the year 2030, in line with
USGCRP and IPCC projections of what is necessary to avoid the most
severe impacts of climate change.

5. Although substantial emissions reductions are necessary to avoid
the most severe impacts of climate change, complementary adaptation
measures will also be needed to address those risks that cannot be
avoided. Some of the impacts of climate change are already observable in
New York state and the northeastern United States. Annual average
temperatures are on the rise, winter snow cover is decreasing, heat
waves and precipitation are intensifying, and sea levels along New
York's coastline are approximately one foot higher than they were in
1900. New York has also experienced an increasing number of extreme and
unusual weather events, like Hurricanes Irene and Lee and the
unprecedented Superstorm Sandy in 2012, which caused at least 53 deaths
and $32 billion in damage in New York state.

6. New York should therefore minimize the risks associated with
climate change through a combination of measures to reduce statewide
greenhouse gas emissions and improve the resiliency of the state with
respect to the impacts and risks of climate change that cannot be
avoided.

7. Climate change especially heightens the vulnerability of disadvan-
taged communities, which bear environmental and socioeconomic burdens as
well as legacies of racial and ethnic discrimination. Actions undertaken
by New York state to mitigate greenhouse gas emissions should prioritize
the safety and health of disadvantaged communities, control potential
regressive impacts of future climate change mitigation and adaptation
policies on these communities, and prioritize the allocation of public
investments in these areas.
8. Creating good jobs and a thriving economy is a core concern of New York state. Shaping the ongoing transition in our energy sector to ensure that it creates good jobs and protects workers and communities that may lose employment in the current transition must be key concerns of our climate policy. Setting clear standards for job quality and training standards encourages not only high-quality work but positive economic impacts.

9. Workers are at the front lines of climate change. Construction workers and building service workers were some of the first workers dedicated to cleaning up damage inflicted by recent storms. These workers were often operating in unsafe and toxic environments, cleaning up mold, and working in unstable buildings. In order to protect the health and welfare of these workers, it is in the interest of the state of New York to establish safe and healthy working conditions and proper training for workers involved in climate change related activities. In addition, much of the infrastructure work preparing our state for additional climate change events must happen quickly and efficiently. It is in the interest of the state to ensure labor harmony and promote efficient performance of work on climate change related work sites by requiring workers to be well-trained and adequately compensated.

10. Ensuring career opportunities are created and shared geographically and demographically is necessary to ensure increased access to good jobs for marginalized communities while making the same neighborhoods more resilient. Climate change has a disproportionate impact on low-income people, women, and workers. It is in the interest of the state of New York to protect and promote the interests of these groups against the impacts of climate change and severe weather events and to advance our equity goals by ensuring quality employment opportunities in safe working environments.

11. The complexity of the ongoing energy transition, the uneven distribution of economic opportunity, and the disproportionate cumulative economic and environmental burdens on communities mean that there is a strong state interest in setting a floor statewide for labor standards, but allowing and encouraging individual agencies and local governments to raise standards.

12. By exercising a global leadership role on greenhouse gas mitigation and climate change adaptation, New York will position its economy, technology centers, financial institutions, and businesses to benefit from national and international efforts to address climate change. New York state has already demonstrated leadership in this area by undertaking efforts such as:
   a. executive order no. 24 (2009), establishing a goal to reduce greenhouse gas emissions 80% by the year 2050, creating a climate action council, and calling for preparation of a climate action plan;
   b. chapter 433 of the laws of 2009, establishing a state energy planning board and requiring the board to adopt a state energy plan;
   c. chapter 388 of the laws of 2011, directing the department of environmental conservation to promulgate rules and regulations limiting emissions of carbon dioxide by newly constructed major generating facilities;
   d. the adoption of a state energy plan establishing clean energy goals for the year 2030 aimed at reducing greenhouse gas emission levels by 40% from 1990 levels, producing 50% of electricity from renewable sources, and increasing energy efficiency from 2012 levels by 23%;
   e. collaboration with other states on the Regional Greenhouse Gas Initiative, and the development of a regional low carbon fuel standard;
f. creation of new offices and task forces to address climate change,
including the New York state office of climate change, the renewable
energy task force, and the sea level rise task force; and

g. the enactment of the Community Risk and Resiliency Act (CRRA),
which requires agencies to consider sea level rise and other climate-re-
lated events when implementing certain state programs.

This legislation will build upon these past developments by creating a
comprehensive regulatory program to reduce greenhouse gas emissions that
corresponds with the targets established in executive order no. 24, the
state energy plan, and USGCRP and IPCC projections.

§ 2. The environmental conservation law is amended by adding a new
article 75 to read as follows:

c. Such regulations shall include provisions governing how market-based compliance mechanisms may be used by regulated entities subject to greenhouse gas emissions limits and mandatory emission reporting requirements to achieve compliance with their greenhouse gas emissions limits.
d. The department shall ensure that, at a minimum, forty percent of any funds collected pursuant to any market-based compliance regulations promulgated under this section as a result of legislative authorization, funds authorized by the public service commission to be collected solely for and directed to the New York state energy research and development authority and proceeds collected by the New York state energy research and development authority from the auction or sale of carbon dioxide emission allowances allocated by the department are invested in a manner which will benefit disadvantaged communities, identified pursuant to section 75-0113 of this article, consistent with the purposes of this article, including but not limited to, increased access to renewable energy, energy efficiency, weatherization, zero- and low-emission transportation, and adaptation opportunities. The department shall consult with the climate justice working group in developing and carrying out such investments.
§ 75-0113. Climate justice working group.
1. There is hereby created within the department, no later than six months after the effective date of this article, a "climate justice working group".    b. The working group, in consultation with the department, the departments of health and labor, the New York state energy and research development authority, and the environmental justice advisory group, will establish criteria to identify disadvantaged communities for the purposes of co-pollutant reductions, greenhouse gas emissions
reductions, regulatory impact statements, and the allocation of investments related to this article.

c. Disadvantaged communities shall be identified based on geographic, public health, environmental hazard, and socioeconomic criteria, which shall include but are not limited to:
(i) areas burdened by cumulative environmental pollution and other hazards that can lead to negative public health effects;
(ii) areas with concentrations of people that are of low income, high unemployment, high rent burden, low levels of home ownership, low levels of educational attainment, or members of groups that have historically experienced discrimination on the basis of race or ethnicity; and

leave and the rates of pay, benefits, and paid leave actually received
by them, and including attorney's fees.

c. i. Where a recipient of financial assistance contracts building
service work to a building service contractor, the contractor is held to
the same obligations with respect to prevailing wages as the recipient.
The recipient must include terms establishing this obligation within any
contract signed with a contractor.

ii. Where a recipient of financial assistance contracts for
construction, excavation, demolition, rehabilitation, repair, reno-

development within the state, including but not limited to cash payments
or grants, bond financing, tax abatements or exemptions, including but
not limited to abatements or exemptions from real property, mortgage
recording, sales, and use taxes, or the difference between any payments
in lieu of taxes and the amount of real property or other taxes that
would have been due if the property were not exempted from such taxes,
tax increment financing, filing fee waivers, energy cost reductions,
environmental remediation costs, write-downs in the market value of
buildings or land, or the cost of capital improvements related to real
property for which the state would not pay absent the development
project, and includes both discretionary and as of right assistance. The
provisions of this section shall only apply to projects receiving more
than one hundred thousand dollars in total financial assistance, or to
projects with a total project value of more than ten million dollars.

5. The commissioner shall evaluate whether there are additional stand-
ards that could be applied to increase wage and benefit standards or to
encourage a safe, well-trained, and adequately compensated workforce.

6. Nothing set forth in this section shall be construed to impede,
infringe, or diminish the rights and benefits which accrue to employees
through bona fide collective bargaining agreements, or otherwise dimin-
ish the integrity of the existing collective bargaining relationship.

7. Nothing set forth in this section shall preclude a local government
from setting additional standards that expand on these state-wide stand-
ards.
§ 8. Report on barriers to, and opportunities for, community ownership of services and commodities in disadvantaged communities. 1. On or before two years of the effective date of this act, the department of environmental conservation, with input from relevant state agencies, the environmental justice advisory group as defined in section 75-0101 of the environmental conservation law, the climate justice working group as defined in section 75-0113 of the environmental conservation law and Climate Action Council established in article 75 of the environmental conservation law, and following at least two public hearings, shall prepare a report on barriers to, and opportunities for, access to or community ownership of the following services and commodities in disadvantaged communities as identified in article 75 of the environmental conservation law:

3. The department of environmental conservation shall amend the scoping plan for statewide greenhouse gas emissions reductions in accordance with the recommendations included in the report.

§ 9. Climate change actions by state agencies. 1. All state agencies shall assess and implement strategies to reduce their greenhouse gas emissions.

2. In considering and issuing permits, licenses, and other administrative approvals and decisions, including but not limited to the execution of grants, loans, and contracts, all state agencies, offices, authorities, and divisions shall consider whether such decisions are inconsistent with or will interfere with the attainment of the statewide greenhouse gas emissions limits established in article 75 of the environmental conservation law. Where such decisions are deemed to be inconsistent with or will interfere with the attainment of the statewide greenhouse gas emissions limits, each agency, office, authority, or division shall provide a detailed statement of justification as to why such limits/criteria may not be met, and identify alternatives or greenhouse gas mitigation measures to be required where such project is located.

3. In considering and issuing permits, licenses, and other administrative approvals and decisions, including but not limited to the execution of grants, loans, and contracts, pursuant to article 75 of the environmental conservation law, all state agencies, offices, authorities, and divisions shall not disproportionately burden disadvantaged communities as identified pursuant to subdivision 5 of section 75-0101 of the environmental conservation law. All state agencies, offices, authorities,
and divisions shall also prioritize reductions of greenhouse gas emissions and co-pollutants in disadvantaged communities as identified pursuant to such subdivision 5 of section 75-0101 of the environmental conservation law.

The public service commission, the New York state energy research and development authority, the department of health, the department of transportation, the department of state, the department of economic development, the department of agriculture and markets, the department of financial services, the office of general services, the division of housing and community renewal, the public utility authorities established pursuant to titles 1, 1-A, 1-B, 11, 11-A, 11-B, 11-C and 11-D of article 5 of the public authorities law and any other state agency may promulgate regulations to contribute to achieving the statewide greenhouse gas emissions limits established in article 75 of the environmental conservation law. Provided, however, any such regulations shall not limit the department of environmental conservation's authority to regulate and control greenhouse gas emissions pursuant to article 75 of the environmental conservation law.

§ 11. Chapter 355 of the laws of 2014, constituting the "community risk and resiliency act", is amended by adding two new sections 17-a and 17-b to read as follows:

§ 17-a. The department of environmental conservation shall take actions to promote adaptation and resilience, including:

(a) actions to help state agencies and other entities assess the reasonably foreseeable risks of climate change on any proposed projects, taking into account issues such as: sea level rise, tropical and extra-tropical cyclones, storm surges, flooding, wind, changes in average and peak temperatures, changes in average and peak precipitation, public health impacts, and impacts on species and other natural resources.

(b) identifying the most significant climate-related risks, taking into account the probability of occurrence, the magnitude of the potential harm, and the uncertainty of the risk.

§ 17-b. Major permits for the regulatory programs of subdivision three of section 70-0107 of the environmental conservation law shall require applicants to demonstrate that future physical climate risk has been considered. In reviewing such information the department may require the applicant to mitigate significant risks to public infrastructure and/or services, private property not owned by the applicant, adverse impacts on disadvantaged communities, and/or natural resources in the vicinity of the project.

§ 12. Nothing in this act shall limit the existing authority of a state entity to adopt and implement greenhouse gas emissions reduction measures.

§ 13. Nothing in this act shall relieve any person, entity, or public agency of compliance with other applicable federal, state, or local laws or regulations, including state air and water quality requirements, and other requirements for protecting public health or the environment.

§ 14. Review under this act may be had in a proceeding under article 78 of the civil practice law and rules at the instance of any person aggrieved.

§ 15. Severability. If any word, phrase, clause, sentence, paragraph, section, or part of this act shall be adjudged by any court of competent jurisdiction to be invalid, such judgement shall not affect, impair, or
invalidate the remainder thereof, but shall be confined in its operation
to the word, phrase, clause, sentence, paragraph, section, or part ther-
eof directly involved in the controversy in which such judgement shall
have been rendered.
§ 16. This act shall take effect on the same date and in the same
manner as a chapter of the laws of 2018, amending the environmental
conservation law, relating to establishing a permanent environmental
justice advisory group and an environmental justice interagency coordi-
nating council, as proposed in legislative bills numbers A.2234 and
S.3110, takes effect; provided further, the provisions of section seven
of this act shall take effect on the one hundred eightieth day after it
shall have become a law and shall apply to any grants, loans, and
contracts and financial assistance awarded or renewed on or after such
effective date.

PART RR

Section 1. Declaration of legislative intent and findings. The legis-
lature finds and declares that it is in the public interest of the state
of New York for architectural paint producers to finance and manage an
environmentally sound, cost-effective architectural paint stewardship
program, undertaking responsibility for the development and implementa-
tion of strategies to reduce the generation of post-consumer architec-
tural paint, promote the reuse of post-consumer architectural paint and
collect, transport and process post-consumer architectural paint for
end-of-product-life management, including reuse and recycling.
§ 2. Article 27 of the environmental conservation law is amended by
adding a new title 20 to read as follows:

TITLE 20
PAINT STEWARDSHIP PROGRAM

This title shall be known as and may be cited as the "New York state
paint stewardship program".
It is hereby declared to be the public policy of the state of New York
to promote the development and implementation of strategies to reduce
the generation of post-consumer architectural paint, to encourage the
reuse of post-consumer architectural paint, and to maximize the
collection, transport, and process of post-consumer architectural paint
for end-of-product-life management.
When used in this title:
1. "architectural paint" means interior and exterior architectural

copy with, the president, vice-president, secretary, assistant secre-

the officer performing corresponding functions under another name, or a
director or managing agent of such corporation, personally without the

When a certificate of designation has been filed by such corporation the secretary of state shall mail copies of process thereafter served upon the secretary of state to the address set forth in such certificate. Any such corporation, from time to time, may change the address to which the secretary of state is directed to mail copies of process, by filing a certificate to that effect executed, signed and acknowledged in like manner as a certificate of designation as herein provided. Service of process upon any such corporation or upon any corporation having authority to do business by virtue of section thirteen hundred five of the business corporation law, in any action commenced at any time pursuant to the provisions of this subchapter five or former subchapter six of this chapter may be made by either: (1) personally delivering to and leaving with the secretary of state, a deputy secretary of state or with any person authorized by the secretary of state to receive such service duplicate copies thereof at the office of the department of state in either the city of Albany or New York, in which event the secretary of state shall forthwith send by registered mail, return receipt requested, one of such copies to the corporation at the address designated by it or at its last known office address within or without the state, or (2) personally delivering to and leaving with the secretary of state, a deputy secretary of state or with any person authorized by the secretary of state to receive such service, a copy thereof at the office of the department of state in either the city of Albany or New York and by delivering a copy hereof to, and leaving such copy with, the president, vice-president, secretary, assistant secretary, treasurer, assistant treasurer, or cashier of such corporation, or the officer performing corresponding functions under another name, or a director or managing agent of such corporation, personally without the state. Service of process on such corporation or board of managers shall be complete when the secretary of state is so served. The secretary of state shall promptly send one of such copies by certified mail, return receipt requested, to such corporation or board of managers, at the post office address, on file in the department of state, specified for such purpose. Nothing in this subdivision shall affect the right to serve process in any other manner permitted by law. The corporation or board of managers shall also file with the secretary of state the name and post office address within or without this state to which the secretary of state shall mail a copy of any process against it served upon the secretary of state and shall update the filing as necessary.

If such process is served upon behalf of a county, city, town or village, or other political subdivision of the state, the fee to be paid to the secretary of state shall be five dollars, irrespective of the amount involved or the nature of the action on account of which such service of process is made. If the cost of registered mail for transmitting a copy of the process shall exceed two dollars, an additional fee equal to such excess shall be paid at the time of the service of such process. Proof of service shall be by affidavit of compliance with this subdivision filed by or on behalf of the plaintiff together with the process, within ten days after such service, with the clerk of the court in which the action or special proceeding is pending. Service made as provided in this section shall be complete ten days after such papers are filed with the clerk of the court and shall have the same force and validity as if served on him personally within the state and within the territorial jurisdiction of the court from which the process issues.

§ 26. Subdivision 2 of section 250 of the general business law, as amended by chapter 103 of the laws of 1981, is amended to read as follows:

Where the summons is mailed to a foreign country, other official proof of the delivery of the mail may be filed in case the post office department is unable to obtain such a return receipt. The foregoing papers shall be filed within thirty days after the return receipt or other official proof of delivery or the original envelope bearing a notation of refusal, as the case may be, is received by the plaintiff. Service of process shall be complete when such papers are filed. The return receipt or other official proof of delivery shall constitute presumptive evidence that the summons mailed was received by the defendant or a person qualified to receive his registered mail; and the notation of refusal shall constitute presumptive evidence that the refusal was by the defendant or his agent. Service of such summons also may be made by mailing a copy thereof to the office of the secretary of state [at his office] in either the city of Albany or New York, or by personally delivering a copy thereof to one of his regularly established offices, with a fee of ten dollars, and by delivering a duplicate copy thereof, with a complaint annexed thereto, to the defendant personally without the state by a resident or citizen of the state of New York or a sheriff, under-sheriff, deputy-sheriff or constable of the county or other political subdivision in which the personal service is made, or an officer authorized by the laws of this state, to take acknowledgments of deeds to be recorded in this state, or an attorney and/or counselor at law, solicitor, advocate or barrister duly qualified to practice in the state or country where such service is made, or by a United States marshal or deputy United States marshal. Notwithstanding any general, special or local law, rule or regulation to the contrary, including but not limited to article 5-A of the general municipal law, section 8 of the New York city health and hospitals corporation act, and in conformity with the requirements of this act, for any public work that has an estimated total cost of not less than ten million dollars and is undertaken pursuant to a project labor agreement in accordance with section 222 of the labor law, an authorized entity charged with awarding a contract for public work may use the alternative delivery method referred to as design-build contracts.
A contractor selected by such authorized entity to enter into a design-build contract shall be selected through a two-step method, as follows:

(1) Step one. Generation of a list of responding entities that have demonstrated the general capability to perform the design-build contract. Such list shall consist of a specified number of responding entities, as determined by an authorized entity, and shall be generated based upon the authorized entity's review of responses to a publicly advertised request for qualifications. The authorized entity's request for qualifications shall include a general description of the public work, the maximum number of responding entities to be included on the list, the selection criteria to be used and the relative weight of each criteria in generating the list. Such selection criteria shall include the qualifications and experience of the design and construction team, organization, demonstrated responsibility, ability of the team or of a member or members of the team to comply with applicable requirements, including the provisions of articles 145, 147, and 148 of the education law, past record of compliance with the labor law, and such other qualifications the authorized entity deems appropriate, which may include but are not limited to project understanding, financial capability and record of past performance. The authorized entity shall evaluate and rate all responding entities to the request for qualifications. Based upon such ratings, the authorized entity shall list the responding entities that shall receive a request for proposals in accordance with paragraph two of this subdivision. To the extent consistent with applicable federal law, the authorized entity shall consider, when awarding any contract pursuant to this section, the participation of (i) responding entities that are certified as minority- or women-owned business enterprises as defined in subdivisions 1, 7, 15 and 20 of section 310 of the executive law, or certified pursuant to local law as minority- or women-owned business enterprises; and (ii) small business concerns identified pursuant to subdivision (b) of section 139-g of the state finance law.

(2) Step two. Selection of the proposal which is the best value to the authorized entity. The authorized entity shall issue a request for proposals to the responding entities listed pursuant to paragraph one of this subdivision. If such responding entity consists of a team of separate entities, the entities that compromise such a team must remain unchanged from the responding entity as listed pursuant to paragraph one of this subdivision unless otherwise approved by the authorized entity. The request for proposals shall set forth the public work's scope of work, and other requirements, as determined by the authorized entity, which may include separate goals for work under the contract to be performed by businesses certified as minority- or women-owned business enterprises as defined in subdivisions 1, 7, 15 and 20 of section 310 of the executive law, or certified pursuant to local law as minority- or women-owned business enterprises. The request for proposals shall also specify the criteria to be used to evaluate the responses and the relative weight of each of such criteria. Any contract awarded pursuant to
this act shall be awarded to a responsive and responsible proposer, which, in consideration of these and other specified criteria deemed pertinent, offers the best value, as determined by the authorized entity. The request for proposals shall include a statement that proposers shall designate in writing those portions of the proposal that contain trade secrets or other proprietary information that are to remain confidential; that the material designated as confidential shall be readily separable from the proposal. Nothing in this subdivision shall be construed to prohibit the authorized entity from negotiating final contract terms and conditions including cost. All proposals submitted shall be scored according to the criteria listed in the request for proposals and such final scores shall be published on the authorized entity's website.

(b) An authorized entity awarding a design-build contract to a contractor offering the best value may but shall not be required to use the following types of contracts:

   (ii) Include a detailed line item cost breakdown,
   (iii) Include a list of all drawings, specifications and other information on which the guaranteed maximum price is based,

(2) A lump sum contract in which the contractor agrees to accept a set dollar amount for a contract which comprises a single bid without providing a cost breakdown for all costs such as for equipment, labor, materials, as well as such contractor's profit for completing all items of work comprising the public work.

§ 5. Any contract entered into pursuant to this act shall include a clause requiring that any professional services regulated by articles 145, 147 and 148 of the education law shall be performed and stamped and sealed, where appropriate, by a professional licensed in accordance with such articles.

corporation act, or, for projects or public works receiving federal aid,
applicable federal requirements for disadvantaged business enterprises
or minority- and women-owned business enterprises.
§ 8. Public works undertaken by an authorized entity pursuant to this
act shall be subject to the requirements of article 8 of the environ-
mental conservation law, and, where applicable, the requirements of the
national environmental policy act.
§ 9. (a) Notwithstanding any provision of law to the contrary, all
rights or benefits, including terms and conditions of employment, and
protection of civil service and collective bargaining status of all
existing employees of authorized entities solely in connection with the
public works identified in subdivision (f) of section two of this act,
shall be preserved and protected.
(b) Nothing in this act shall result in the: (1) displacement of any
currently employed worker or loss of position (including partial
displacement such as a reduction in the hours of non-overtime work,
wages or employment benefits), or result in the impairment of existing
collective bargaining agreements; and (2) transfer of existing duties
and functions related to maintenance and operations currently performed
by existing employees of authorized entities to a contractor.
(c) Employees of authorized entities using design-build contracts
serving in positions in newly created titles shall be assigned to the
appropriate bargaining unit. Nothing contained in this act shall be
construed to affect (1) the existing rights of employees of such enti-
ties pursuant to an existing collective bargaining agreement, (2) the
existing representational relationships among employee organizations
representing employees of such entities or (3) the bargaining relation-
ships between such entities and such employee organizations.

design-build contract pursuant to this act shall not be construed to be
a violation of section 6512 of the education law.
§ 11. Nothing contained in this act shall limit the right or obli-
gation of any authorized entity to comply with the provisions of any
existing contract or to award contracts as otherwise provided by law.

PART UU

Section 1. This Part enacts into law major components of legislation
which are necessary to promote and protect the health and safety of New
York residents relating to public housing. Each component is wholly
contained within a Part identified as Subparts A through B. The effec-
tive date for each particular provision contained within such Subpart is
set forth in the last section of such Subpart. Any provision in any
section contained within a Subpart, including the effective date of the
Subpart, which makes reference to a section "of this act", when used in
connection with that particular component, shall be deemed to mean and
refer to the corresponding section of the Subpart in which it is found.
Section three of this act sets forth the general effective date of this
act.

SUBPART A
Section 1. This act shall be known and may be cited as the "New York City Housing Authority Facilities Modernization Act".

§ 2. Definitions. For the purposes of this act, the following terms shall have the following meanings:

1. "Project" shall mean any installation, construction, demolition, reconstruction, excavation, rehabilitation, renovation, and repair contracted out by the authorized authority pursuant to this act.

2. "Authorized authority" shall mean the New York City Housing Authority.

3. "Best value" shall mean the basis for awarding contracts for services to the bidder that optimize quality, cost and efficiency, price and performance criteria, which may include, but is not limited to:

   (b) The timeliness of the contractor's performance on previous projects;

   (k) A quantitative factor to be used in evaluation of bids or offers for awarding of contracts for bidders or offerers that are certified as minority or women-owned business enterprises as defined in article 15-A of the executive law, or certified pursuant to local law as minority or women-owned business enterprises.

Such basis shall reflect, wherever possible, objective and quantifiable analysis.

4. "Design-build contract" shall mean, in conformity with the requirements of this act, a contract for the design and construction of the projects with a single entity, which may be a team comprised of separate entities.

5. "Procurement record" shall mean documentation of the decisions made and the approach taken in the procurement process.

6. "Project labor agreement" shall mean a pre-hire collective bargaining agreement between a contractor and a bona fide building and construction trade labor organization establishing the labor organization as the collective bargaining representative for all persons who will perform work on the project, and which provides that only contractors and subcontractors who sign a pre-negotiated agreement with the labor organization can perform project work.

§ 3. Notwithstanding section 151 of the public housing law, or the provisions of any other law to the contrary, in conformity with the requirements of this act, and only when a project labor agreement is performed, the authorized authority may utilize the alternative delivery method referred to as a design-build contract for the project provided that each such project shall not be less than one million two hundred thousand dollars ($1,200,000). The authorized authority shall ensure
§ 4. An entity selected by the authorized authority to enter into a
design-build contract for the project shall be selected through a two-
step method, as follows:

1. Step one. Generation of a list of entities that have demonstrated
the general capability to perform a design-build contract for the
project. Such list shall consist of a specified number of entities, as
determined by the authorized authority, and shall be generated based
upon the authorized authority's review of responses to a publicly adver-
tised request for qualifications for the project. The authorized author-
ity's request for qualifications for the project shall include a general
description of the project, the maximum number of entities to be
included on the list, and the selection criteria to be used in generat-
ing the list. Such selection criteria shall include the qualifications
and experience of the design and construction team, organization, demon-
strated responsibility, ability of the team or of a member or members of
the team to comply with applicable requirements, including the
provisions of articles 145, 147 and 148 of the education law, past
record of compliance with the labor law including prevailing wage
requirements under state and federal law; the past record of compliance
with existing labor standards and maintaining harmonious labor
relations; the record of protecting the health and safety of workers on
public works projects and job sites as demonstrated by the experience
modification rate for each of the last three years; the prospective
bidder's ability to undertake the particular type and complexity of
work; the financial capability, responsibility and reliability of the
prospective bidder for such type and complexity of work; the prospective
bidder's compliance with equal employment opportunity requirements and
anti-discrimination laws, and demonstrated commitment to working with
minority and women-owned businesses through joint ventures or subcon-
tractor relationships; whether or not the prospective bidder or a
substantially owned-affiliated entity as defined by paragraph g of
subdivision 5 of section 220 of the labor law, is listed by the federal
government as excluded from receiving federal contracts and certain
subcontracts, assistance, or benefits pursuant to 48 C.F.R. subpart 9-4;
and such other qualifications the authorized authority deems appropriate
which may include but are not limited to project understanding, finan-
cial capability and record of past performance. The authorized authority
shall evaluate and rate all entities responding to the request for qual-
ilications. Based upon such ratings, the authorized authority shall list
the entities that shall receive a request for proposals in accordance
with subdivision two of this section. To the extent consistent with
applicable federal law, the authorized authority shall consider, when
awarding any contract pursuant to this section, the participation of:
(a) firms certified pursuant to article 15-A of the executive law as
minority or women-owned businesses or certified pursuant to local law as
minority or women-owned business enterprises and the ability of other
businesses under consideration to work with minority and women-owned
businesses so as to promote and assist participation by such businesses;
and (b) small business concerns identified pursuant to subdivision (b)
of section 139-g of the state finance law.

2. Step two. Selection of the proposal which is the best value to the
authorized authority. The authorized authority shall issue a request
for proposals for the project to the entities listed pursuant to subdi-
vision one of this section. If such an entity consists of a team of
separate entities, the entities that comprise such a team must remain
unchanged from the entity as listed pursuant to subdivision one of this
section unless otherwise approved by the authorized authority. The
request for proposals for the project shall set forth the project's
scope of work, and other requirements, as determined by the authorized
authority, which may include separate goals for work under the contract
to be performed by businesses certified as minority or women-owned busi-
ness enterprises as defined in article 15-A of the executive law, or
certified pursuant to local law as minority or women-owned business
enterprises. The request for proposals shall specify the criteria to be
used to evaluate the responses and the relative weight of each such
criteria. Such criteria shall include the proposal's cost, the quality
of the proposal's solution, the qualifications and experience of the
design-build entity, and other factors deemed pertinent by the author-
ized authority, which may include, but shall not be limited to, the
proposal's project implementation, ability to complete the work in a
timely and satisfactory manner, maintenance costs of the completed
project, maintenance of traffic approach, and community impact. Any
contract awarded pursuant to this act shall be awarded to a responsive
and responsible entity that submits the proposal, which, in consider-
ation of these and other specified criteria deemed pertinent to the
project, offers the best value to the authorized authority, as deter-
mined by the authorized authority. Nothing in this act shall be
construed to prohibit the authorized authority from negotiating final
contract terms and conditions including cost.

3. Notwithstanding the foregoing provisions of this section, when any
person or entity is listed by the federal government as excluded from
receiving federal contracts and certain subcontracts, assistance or
benefits, pursuant to 48 C.F.R. subpart 9-4, such person or entity, and
any substantially owned-affiliated entity as defined by paragraph g of
subdivision 5 of section 220 of the labor law, shall be ineligible to
submit a bid or be awarded any contract authorized by this act during
such period of exclusion. The department of labor shall notify the
person or entity immediately of such ineligibility and such person or
entity must be afforded the opportunity to be heard by the department of
labor. A substantially owned-affiliated entity shall be afforded an
opportunity to be heard consistent with the provisions of subparagraph 3
of paragraph b of subdivision 3 of section 220-b of the labor law.

§ 5. Any contract entered into pursuant to this act shall include a
clause requiring that any professional services regulated by articles
145, 147 and 148 of the education law shall be performed and stamped and
sealed, where appropriate, by a professional licensed in accordance with
such articles.

§ 6. The installation, construction, demolition, reconstruction, exca-
vation, rehabilitation, repair, and renovation of the project undertaken
by the authorized authority pursuant to this act shall be deemed a
"public work" to be performed in accordance with the provisions of arti-
cle 8 of the labor law, as well as subject to sections 200, 240, 241 and
242 of the labor law and enforcement of prevailing wage requirements by
the New York state department of labor and, if the project receives
federal aid, applicable federal requirements for prevailing wage.

§ 7. A project labor agreement shall be included in the request for
proposals for the project, provided that, based upon a study done by or
for the authorized authority, the authorized authority determines that
its interest in obtaining the best work at the lowest possible price,
preventing favoritism, fraud and corruption, and other considerations
such as the impact of delay, the possibility of cost savings advantages, and any local history of labor unrest, are best met by requiring a project labor agreement. The authorized authority shall conduct such a study and the project labor agreement shall be performed consistent with the provisions of section 222 of the labor law. If a project labor agreement is not performed on the project (1) the authorized authority shall not utilize a design-build contract for the project; and (2) sections 151 and 151-a of the public housing law shall apply to the project.

§ 8. Each contract entered into by the authorized authority pursuant to this act shall comply, whenever practical, with the objectives and goals of minority and women-owned business enterprises pursuant to article 15-A of the executive law or, if the project receives federal aid, shall comply with applicable federal requirements for disadvantaged business enterprises.

§ 9. The project undertaken by the authorized authority pursuant to this act shall be subject to the requirements of article 8 of the environmental conservation law, and, where applicable, the requirements of the national environmental policy act.

§ 10. (a) Notwithstanding any provision of law to the contrary, all rights and benefits, including terms and conditions of employment, and protection of civil service and collective bargaining status of all employees of the authorized authority in connection with the project shall be preserved and protected.

(b) Nothing in this act shall result in the: (1) displacement of any currently employed worker or loss of position (including partial displacement such as a reduction in the hours of non-overtime work, wages or employment benefits), or result in the impairment of existing collective bargaining agreements; and (2) transfer of existing duties and functions related to maintenance and operations currently performed by existing employees of the authorized authority to a contractor.

(c) Employees of the authorized authority that perform work in connection with the project serving in positions in newly created titles shall be assigned to the appropriate bargaining unit.

(d) Nothing contained in this act shall be construed to affect: (1) the existing rights and benefits of employees of the authorized authority pursuant to an existing collective bargaining agreement and the civil service law, including terms and conditions of employment; (2) the existing representational relationships among employee organizations representing employees of the authorized authority; or (3) the bargaining relationships between the authorized authority and such employee organizations.

§ 11. If otherwise applicable, the project undertaken by the authorized authority pursuant to this act shall be governed by the public housing law.

§ 12. The submission of a proposal or responses or the execution of a design-build contract pursuant to this act shall not be construed to be a violation of section 6512 of the education law.

§ 13. Nothing contained in this act shall limit the right or obligation of the authorized authority to comply with the provisions of any existing contract, including any existing contract with or for the benefit of the holders of the obligations of the authorized authority, or to award contracts as otherwise provided by law.

§ 14. This act shall take effect immediately and shall expire and be deemed repealed 4 years after such date, provided that, if the New York city housing authority has issued requests for qualifications for the
project prior to such repeal, such project shall be permitted to continue under this act notwithstanding such repeal.
