10 the proposed therapeutic class to be reviewed, a listing of drug
11 products in the therapeutic class, and the proposals to be considered by
12 the board. The board shall allow interested parties a reasonable oppor-
13 tunity to make an oral presentation to the board related to the prior
14 authorization of the therapeutic class to be reviewed. The board shall
15 consider any information provided by any interested party, including,
16 but not limited to, prescribers, dispensers, patients, consumers and
17 manufacturers of the drug in developing their recommendations.

18 § 2. Subdivision 8 of section 272 of the public health law, as amended
19 by section 16 of part A of chapter 56 of the laws of 2013, is amended to
20 read as follows:

21 8. The commissioner shall provide notice of any recommendations devel-
22 oped by the board regarding the preferred drug program or elimination to
23 the list of drugs reimbursable under subdivision four of section three
24 hundred sixty-five-a of the social services law, at least five days
25 before any final determination by the commissioner, by making such
26 information available on the department's website. Such public notice
27 may include: a summary of the deliberations of the board; a summary of
28 the positions of those making public comments at meetings of the board;
29 the response of the board to those comments, if any; and the findings
30 and recommendations of the board.

31 § 3. Subdivision 9 of section 272 of the public health law, as amended
32 by section 16 of part A of chapter 56 of the laws of 2013, is amended to
33 read as follows:

34 9. Within ten days of a final determination regarding the preferred
35 drug program or elimination to the list of drugs reimbursable under
36 subdivision four of section three hundred sixty-five-a of the social
37 services law, the commissioner shall provide public notice on the
38 department's website of such determinations, including: the nature of
39 the determination; and analysis of the impact of the commissioner's
40 determination on state public health plan populations and providers; and
41 the projected fiscal impact to the state public health plan programs of
42 the commissioner's determination.

43 § 4. Section 280 of the public health law, as amended by section 8 of
44 part D of chapter 57 of the laws of 2018, paragraph (b) of subdivision 2
45 as amended by section 5, subdivision 3 as amended by section 6, para-
46 graph (a) of subdivision 5 as amended by section 7, subparagraph (iii)
47 of paragraph (e) of subdivision 5 as amended by section 6-a and subdivi-
48 sion 8 as amended by section 9 of part B of chapter 57 of the laws of
49 2019, paragraphs (c) and (d) of subdivision 2 as amended and paragraph
50 (e) of subdivision 2 as added by section 2 of part FFF of chapter 56 of
51 the laws of 2020, the opening paragraph of paragraph (a) of subdivision
52 6 and paragraph (a) of subdivision 7 as amended by sections 3 and 4,
53 respectively, of part GG of chapter 56 of the laws of 2020, is amended
54 to read as follows:

55 § 280. Medicaid drug cap. 1. The legislature hereby finds and declares
56 that there is a significant public interest for the Medicaid program to

1 manage drug costs in a manner that ensures patient access while provid-
2 ing financial stability for the state and participating providers.
3 Since two thousand eleven, the state has taken significant steps to
4 contain costs in the Medicaid program by imposing a statutory limit on
5 annual growth. Drug expenditures, however, continually outpace other
6 cost components causing significant pressure on the state, providers,
7 and patient access operating under the Medicaid global cap. It is there-
8 fore intended that the department establish a [Medicaid drug cap as a
9 separate component within the Medicaid global cap] supplemental rebate
10 program as part of a focused and sustained effort to balance the growth
11 of drug expenditures with the growth of total Medicaid expenditures.

12 2. The commissioner shall [establish a year to year] review at least
13 annually the department of health state funds Medicaid drug [expenditure
14 growth target as follows:

15 (a) for state fiscal year two thousand seventeen--two thousand eigh-
16 teen, be limited to the ten-year rolling average of the medical compo-
17 nent of the consumer price index plus five percent and minus a pharmacy
18 savings target of fifty-five million dollars; and

19 (b) for state fiscal year two thousand eighteen--two thousand nine-
20 teen, be limited to the ten-year rolling average of the medical compo-
21 nent of the consumer price index plus four percent and minus a pharmacy
22 savings target of eighty-five million dollars;

23 (c) for state fiscal year two thousand nineteen--two thousand twenty,
24 be limited to the ten-year rolling average of the medical component of
25 the consumer price index plus four percent and minus a pharmacy savings
26 target of eighty-five million dollars;

27 (d) for state fiscal year two thousand twenty--two thousand twenty-
28 one, be limited to the ten-year rolling average of the medical component
29 of the consumer price index plus two percent; and

30 (e) for state fiscal year two thousand twenty-one--two thousand twen-
31 ty-two and fiscal years thereafter, be limited in accordance with subdi-
32 vision one of section ninety-one of part H of chapter fifty-nine of the
33 laws of two thousand eleven, as amended] expenditures to identify drugs
34 in the eightieth percentile or higher of total spend, net of rebate or
35 in the eightieth percentile or higher based on cost per claim, net of
36 rebate.

37 3. (a) The [department and the division of the budget shall assess on
38 a quarterly basis the projected total amount to be expended in the year
39 on a cash basis by the Medicaid program for each drug, and the projected
40 annual amount of state funds Medicaid drug expenditures on a cash basis
41 for all drugs, which shall be a component of the projected department of
42 health state funds Medicaid expenditures calculated for purposes of
43 sections ninety-one and ninety-two of part H of chapter fifty-nine of
44 the laws of two thousand eleven. For purposes of this section, state
45 funds Medicaid drug expenditures include amounts expended for drugs in
46 both the Medicaid fee-for-service program and Medicaid managed care
47 programs, minus the amount of any drug rebates or supplemental drug
48 rebates received by the department, including rebates pursuant to subdi-
49 vision five of this section with respect to rebate targets. The depart-
50 ment and the division of the budget shall report in December of each
51 year, for the prior April through October, to the drug utilization
52 review board the projected state funds Medicaid drug expenditures
53 including the amounts, in aggregate thereof, attributable to the net
54 cost of: changes in the utilization of drugs by Medicaid recipients;
55 changes in the number of Medicaid recipients; changes to the cost of
56 brand name drugs and changes to the cost of generic drugs. The informa-

1 tion contained in the report shall not be publicly released in a manner
2 that allows for the identification of an individual drug or manufacturer
3 or that is likely to compromise the financial competitive, or proprie-
4 tary nature of the information.

5 (a) In the event the director of the budget determines, based on Medi-
6 caid drug expenditures for the previous quarter or other relevant infor-
7 mation, that the total department of health state funds Medicaid drug
8 expenditure is projected to exceed the annual growth limitation imposed
9 by subdivision two of this section, the] commissioner may identify and
10 refer drugs in the eightieth percentile or higher of total spend, net of
11 rebate or in the eightieth percentile or higher based on cost per claim,
12 net of rebate, to the drug utilization review board established by
13 section three hundred sixty-nine-bb of the social services law for a
14 recommendation as to whether a target supplemental Medicaid rebate
15 should be paid by the manufacturer of the drug to the department and the
16 target amount of the rebate.

17 (b) If the department intends to refer a drug to the drug utilization
18 review board pursuant to paragraph (a) of this subdivision, the depart-
19 ment shall notify the manufacturer of such drug and shall attempt to
20 reach agreement with the manufacturer on a rebate for the drug prior to
21 referring the drug to the drug utilization review board for review.
22 Such rebate may be based on evidence-based research, including, but not
23 limited to, such research operated or conducted by or for other state
24 governments, the federal government, the governments of other nations,
25 and third party payers or multi-state coalitions, provided however that
26 the department shall account for the effectiveness of the drug in treat-
27 ing the conditions for which it is prescribed or in improving a
28 patient's health, quality of life, or overall health outcomes, and the
29 likelihood that use of the drug will reduce the need for other medical
30 care, including hospitalization.

31 (c) In the event that the commissioner and the manufacturer have
32 previously agreed to a supplemental rebate for a drug pursuant to para-
33 graph (b) of this subdivision or paragraph (e) of subdivision seven of
34 section three hundred sixty-seven-a of the social services law, the drug
35 shall not be referred to the drug utilization review board for any
36 further supplemental rebate for the duration of the previous rebate
37 agreement, provided however, the commissioner may refer a drug to the
38 drug utilization review board if the commissioner determines there are
39 significant and substantiated utilization or market changes, new
40 evidence-based research, or statutory or federal regulatory changes that
41 warrant additional rebates. In such cases, the department shall notify
42 the manufacturer and provide evidence of the changes or research that
43 would warrant additional rebates, and shall attempt to reach agreement
44 with the manufacturer on a rebate for the drug prior to referring the
45 drug to the drug utilization review board for review.

46 (d) The department shall consider a drug's actual cost to the state,
47 including current rebate amounts, prior to seeking an additional rebate
48 pursuant to paragraph (b) or (c) of this subdivision.

49 (e) [The commissioner shall be authorized to take the actions
50 described in this section only so long as total Medicaid drug expendi-
51 tures are projected to exceed the annual growth limitation imposed by
52 subdivision two of this section.] If the commissioner is unsuccessful in
53 entering into a rebate arrangement with the manufacturer of the drug
54 satisfactory to the department, the drug manufacturer shall, in that
55 event be required to provide to the department, on a standard reporting
56 form developed by the department, the following information:

1 (i) the actual cost of developing, manufacturing, producing (including
2 the cost per dose of production), and distributing the drug;

3 (ii) research and development costs of the drug, including payments to
4 predecessor entities conducting research and development, such as
5 biotechnology companies, universities and medical schools, and private
6 research institutions;

7 (iii) administrative, marketing, and advertising costs for the drug,
8 apportioned by marketing activities that are directed to consumers,
9 marketing activities that are directed to prescribers, and the total
10 cost of all marketing and advertising that is directed primarily to
11 consumers and prescribers in New York, including but not limited to
12 prescriber detailing, copayment discount programs, and direct-to-consum-
13 er marketing;

14 (iv) the extent of utilization of the drug;

15 (v) prices for the drug that are charged to purchasers outside the
16 United States;

17 (vi) prices charged to typical purchasers in the state, including but
18 not limited to pharmacies, pharmacy chains, pharmacy wholesalers, or
19 other direct purchasers;

20 (vii) the average rebates and discounts provided per payer type in the
21 state; and

22 (viii) the average profit margin of each drug over the prior five-year
23 period and the projected profit margin anticipated for such drug.

24 (f) All information disclosed pursuant to paragraph (e) of this subdi-
25 vision shall be considered confidential and shall not be disclosed by
26 the department in a form that identifies a specific manufacturer or
27 prices charged for drugs by such manufacturer.

28 4. In determining whether to recommend a target supplemental rebate
29 for a drug, the drug utilization review board shall consider the actual
30 cost of the drug to the Medicaid program, including federal and state
31 rebates, and may consider, among other things:

32 (a) the drug's impact on [the] Medicaid drug spending [growth target],
33 and the adequacy of capitation rates of participating Medicaid managed
34 care plans, and the drug's affordability and value to the Medicaid
35 program; or

36 (b) significant and unjustified increases in the price of the drug; or

37 (c) whether the drug may be priced disproportionately to its therapeu-
38 tic benefits.

39 5. (a) If the drug utilization review board recommends a target rebate
40 amount on a drug referred by the commissioner, the department shall
41 negotiate with the drug's manufacturer for a supplemental rebate to be
42 paid by the manufacturer in an amount not to exceed such target rebate
43 amount. [A rebate requirement shall apply beginning with the first day
44 of the state fiscal year during which the rebate was required without
45 regard to the date the department enters into the rebate agreement with
46 the manufacturer.]

47 (b) The supplemental rebate required by paragraph (a) of this subdivi-
48 sion shall apply to drugs dispensed to enrollees of managed care provid-
49 ers pursuant to section three hundred sixty-four-j of the social
50 services law and to drugs dispensed to Medicaid recipients who are not
51 enrollees of such providers.

52 (c) [If the drug utilization review board recommends a target rebate
53 amount for a drug and the department is unable to negotiate a rebate
54 from the manufacturer in an amount that is at least seventy-five percent
55 of the target rebate amount, the commissioner is authorized to waive the
56 provisions of paragraph (b) of subdivision three of section two hundred

1 seventy-three of this article and the provisions of subdivisions twen-
2 ty-five and twenty-five-a of section three hundred sixty-four-j of the
3 social services law with respect to such drug; however, this waiver
4 shall not be implemented in situations where it would prevent access by
5 a Medicaid recipient to a drug which is the only treatment for a partic-
6 ular disease or condition. Under no circumstances shall the commissioner
7 be authorized to waive such provisions with respect to more than two
8 drugs in a given time.

9 (d)] Where the department and a manufacturer enter into a rebate
10 agreement pursuant to this section, which may be in addition to existing
11 rebate agreements entered into by the manufacturer with respect to the
12 same drug, no additional rebates shall be required to be paid by the
13 manufacturer to a managed care provider or any of a managed care provid-
14 er's agents, including but not limited to any pharmacy benefit manager,
15 while the department is collecting the rebate pursuant to this section.

16 [(e)] (d) In formulating a recommendation concerning a target rebate
17 amount for a drug, the drug utilization review board may consider:

18 (i) publicly available information relevant to the pricing of the
19 drug;

20 (ii) information supplied by the department relevant to the pricing of
21 the drug;

22 (iii) information relating to value-based pricing provided, however,
23 if the department directly invites any third party to provide cost-ef-
24 fectiveness analysis or research related to value-based pricing, and the
25 department receives and considers such analysis or research for use by
26 the board, such third party shall disclose any funding sources. The
27 department shall, if reasonably possible, make publicly available the
28 following documents in its possession that it relies upon to provide
29 cost effectiveness analyses or research related to value-based pricing:
30 (A) descriptions of underlying methodologies; (B) assumptions and limi-
31 tations of research findings; and (C) if available, data that presents
32 results in a way that reflects different outcomes for affected subpopu-
33 lations;

34 (iv) the seriousness and prevalence of the disease or condition that
35 is treated by the drug;

36 (v) the extent of utilization of the drug;

37 (vi) the effectiveness of the drug in treating the conditions for
38 which it is prescribed, or in improving a patient's health, quality of
39 life, or overall health outcomes;

40 (vii) the likelihood that use of the drug will reduce the need for
41 other medical care, including hospitalization;

42 (viii) the average wholesale price, wholesale acquisition cost, retail
43 price of the drug, and the cost of the drug to the Medicaid program
44 minus rebates received by the state;

45 (ix) in the case of generic drugs, the number of pharmaceutical
46 manufacturers that produce the drug;

47 (x) whether there are pharmaceutical equivalents to the drug; and

48 (xi) information supplied by the manufacturer, if any, explaining the
49 relationship between the pricing of the drug and the cost of development
50 of the drug and/or the therapeutic benefit of the drug, or that is
51 otherwise pertinent to the manufacturer's pricing decision; any such
52 information, including the information on the standard reporting form
53 requirement in paragraph (e) of subdivision three of this section,
54 provided shall be considered confidential and shall not be disclosed by
55 the drug utilization review board in a form that identifies a specific
56 manufacturer or prices charged for drugs by such manufacturer.

1 6. [(a) If the drug utilization review board recommends a target
2 rebate amount or if the commissioner identifies a drug as a high cost
3 drug pursuant to subparagraph (vii) of paragraph (e) of subdivision 7 of
4 section three hundred sixty-seven-a of the social services law and the
5 department is unsuccessful in entering into a rebate arrangement with
6 the manufacturer of the drug satisfactory to the department, the drug
7 manufacturer shall in that event be required to provide to the depart-
8 ment, on a standard reporting form developed by the department, the
9 following information:

10 (i) the actual cost of developing, manufacturing, producing (including
11 the cost per dose of production), and distributing the drug;

12 (ii) research and development costs of the drug, including payments to
13 predecessor entities conducting research and development, such as
14 biotechnology companies, universities and medical schools, and private
15 research institutions;

16 (iii) administrative, marketing, and advertising costs for the drug,
17 apportioned by marketing activities that are directed to consumers,
18 marketing activities that are directed to prescribers, and the total
19 cost of all marketing and advertising that is directed primarily to
20 consumers and prescribers in New York, including but not limited to
21 prescriber detailing, copayment discount programs, and direct-to-consum-
22 er marketing;

23 (iv) the extent of utilization of the drug;

24 (v) prices for the drug that are charged to purchasers outside the
25 United States;

26 (vi) prices charged to typical purchasers in the state, including but
27 not limited to pharmacies, pharmacy chains, pharmacy wholesalers, or
28 other direct purchasers;

29 (vii) the average rebates and discounts provided per payer type in the
30 State; and

31 (viii) the average profit margin of each drug over the prior five-year
32 period and the projected profit margin anticipated for such drug.

33 (b) All information disclosed pursuant to paragraph (a) of this subdi-
34 vision shall be considered confidential and shall not be disclosed by
35 the department in a form that identifies a specific manufacturer or
36 prices charged for drugs by such manufacturer.

37 7.] (a) [If, after] After taking into account all rebates and supple-
38 mental rebates received by the department, including rebates received to
39 date pursuant to this section[, total Medicaid drug expenditures are
40 still projected to exceed the annual growth limitation imposed by subdi-
41 vision two of this section], the commissioner may: subject any drug of a
42 manufacturer referred to the drug utilization review board under this
43 section to prior approval in accordance with existing processes and
44 procedures when such manufacturer has not entered into a supplemental
45 rebate arrangement as required by this section; direct a managed care
46 plan to limit or reduce reimbursement for a drug provided by a medical
47 practitioner if the drug utilization review board recommends a target
48 rebate amount for such drug and the manufacturer has failed to enter
49 into a rebate arrangement required by this section; direct managed care
50 plans to remove from their Medicaid formularies any drugs of a manufac-
51 turer who has a drug that the drug utilization review board recommends a
52 target rebate amount for and the manufacturer has failed to enter into a
53 rebate arrangement required by this section; promote the use of cost
54 effective and clinically appropriate drugs other than those of a
55 manufacturer who has a drug that the drug utilization review board
56 recommends a target rebate amount and the manufacturer has failed to

1 enter into a rebate arrangement required by this section; allow manufac-
2 turers to accelerate rebate payments under existing rebate contracts;
3 and such other actions as authorized by law. The commissioner shall
4 provide written notice to the legislature at least thirty days prior to
5 taking action pursuant to this paragraph[, unless action is necessary in
6 the fourth quarter of a fiscal year to prevent total Medicaid drug
7 expenditures from exceeding the limitation imposed by subdivision two of
8 this section, in which case such notice to the legislature may be less
9 than thirty days].

10 (b) The commissioner shall be authorized to take the actions described
11 in paragraph (a) of this subdivision [only so long as total Medicaid
12 drug expenditures are projected to exceed the annual growth limitation
13 imposed by subdivision two of this section]. In addition, no such
14 actions shall be deemed to supersede the provisions of paragraph (b) of
15 subdivision three of section two hundred seventy-three of this article
16 or the provisions of subdivisions twenty-five and twenty-five-a of
17 section three hundred sixty-four-j of the social services law[, except
18 as allowed by paragraph (c) of subdivision five of this section];
19 provided further that nothing in this section shall prevent access by a
20 Medicaid recipient to a drug which is the only treatment for a partic-
21 ular disease or condition.

22 [8.] 7. The commissioner shall provide a report by July first annually
23 to the drug utilization review board, the governor, the speaker of the
24 assembly, and the temporary president of the senate on savings achieved
25 through the [drug cap] supplemental rebate programs in the last fiscal
26 year. Such report shall provide data on what savings were achieved
27 through actions pursuant to subdivisions three, five and [seven] six of
28 this section, respectively, and what savings were achieved through other
29 means and how such savings were calculated and implemented.

30 § 5. The opening paragraph of paragraph (e) of subdivision 7 of
31 section 367-a of the social services law, as amended by section 24 of
32 part B of chapter 57 of the laws of 2023, is amended to read as follows:

33 During the period from April first, two thousand fifteen through March
34 thirty-first, two thousand twenty-six, the commissioner may, in lieu of
35 a managed care provider or pharmacy benefit manager, negotiate directly
36 and enter into an arrangement with a pharmaceutical manufacturer for the
37 provision of supplemental rebates relating to pharmaceutical utilization
38 by enrollees of managed care providers pursuant to section three hundred
39 sixty-four-j of this title and may also negotiate directly and enter
40 into such an agreement relating to pharmaceutical utilization by medical
41 assistance recipients not so enrolled. Such rebate arrangements shall be
42 limited to the following: antiretrovirals approved by the FDA for the
43 treatment of HIV/AIDS, accelerated approval drugs established pursuant
44 to this paragraph, opioid dependence agents and opioid antagonists list-
45 ed in a statewide formulary established pursuant to subparagraph (vii)
46 of this paragraph, hepatitis C agents, high cost drugs as provided for
47 in subparagraph (viii) of this paragraph, gene therapies as provided for
48 in subparagraph (ix) of this paragraph, and any other class or drug
49 designated by the commissioner for which the pharmaceutical manufacturer
50 has in effect a rebate arrangement with the federal secretary of health
51 and human services pursuant to 42 U.S.C. § 1396r-8, and for which the
52 state has established standard clinical criteria. No agreement entered
53 into pursuant to this paragraph shall have an initial term or be
54 extended beyond the expiration or repeal of this paragraph. For
55 purposes of this paragraph, an "accelerated approval" is a drug or
56 labeled indication of a drug authorized by the Federal Food, Drug and

1 Cosmetic Act for drugs approved under Subpart H of 21 CFR Part 314 and
2 Subpart E of 21 CFR Part 601 for serious conditions that fill an unmet
3 medical need based on whether the drug has an effect on a surrogate
4 clinical endpoint, and is pending verification of clinical benefit in
5 confirmatory trials.

6 § 6. Paragraphs (a), (b) and (c) of subdivision 9 of section 367-a of
7 the social services law, paragraphs (a) and (c) as amended by chapter 19
8 of the laws of 1998, paragraph (b) as amended by section 3 of part C of
9 chapter 58 of the laws of 2004, subparagraphs (i) and (ii) of paragraph
10 (b) as amended by section 7 of part D of chapter 57 of the laws of 2017,
11 and subparagraph (iii) of paragraph (b) as added by section 29 of part E
12 of chapter 63 of the laws of 2005, are amended to read as follows:

13 (a) for drugs provided by medical practitioners and claimed separately
14 by the practitioners[, the actual cost of the drugs to the practition-
15 ers; and] the lower of:

16 (i) (1) an amount equal to the national average drug acquisition cost
17 set by the federal centers for medicare and medicaid services for the
18 drug, if any, or if such amount is not available, the wholesale acquisi-
19 tion cost of the drug based on the package size dispensed from, as
20 reported by the prescription drug pricing service used by the depart-
21 ment, (2) the federal upper limit, if any, established by the federal
22 centers for medicare and medicaid services; (3) the state maximum acqui-
23 sition cost, if any, established pursuant to paragraph (e) of this
24 subdivision; or (4) the actual cost of the drug to the practitioner.

25 (ii) Notwithstanding subparagraph (i) of this paragraph and paragraph
26 (e) of this subdivision, for the Medicaid fee-for-service program, if a
27 drug has been purchased from a manufacturer by a covered entity pursuant
28 to section 340B of the federal public health service act (42 USCA §
29 256b), the actual amount paid by such covered entity. For purposes of
30 this subparagraph, a "covered entity" is an entity that meets the
31 requirements of paragraph four of subdivision (a) of such section that
32 elects to participate in the program established by such section, and
33 that causes claims for payment for drugs covered by this subparagraph to
34 be submitted to the medical assistance program, either directly or
35 through an authorized contract pharmacy. No medical assistance payments
36 may be made to a covered entity or to an authorized contract pharmacy of
37 a covered entity for drugs that are eligible for purchase under the
38 section 340B program and are dispensed on an outpatient basis to
39 patients of the covered entity, other than under the provisions of this
40 subparagraph. Medical practitioners submitting claims for reimbursement
41 of drugs purchased pursuant to section 340B of the public health service
42 act shall notify the department that the claim is eligible for purchase
43 under the 340B program, consistent with claiming instructions issued by
44 the department to identify such claims.

45 (iii) In no event shall a medical practitioner be reimbursed at an
46 amount that is lower than the state maximum acquisition cost, or for
47 drugs that do not have a state maximum acquisition cost, the wholesale
48 acquisition cost of the drug based on the package size.

49 (b) for drugs dispensed by pharmacies:

50 (i) (A) if the drug dispensed is a generic prescription drug, the
51 lower of: (1) an amount equal to the national average drug acquisition
52 cost set by the federal centers for medicare and medicaid services for
53 the drug, if any, or if such amount if not available, the wholesale
54 acquisition cost of the drug based on the package size dispensed from,
55 as reported by the prescription drug pricing service used by the depart-
56 ment, less seventeen and one-half percent thereof; (2) the federal upper

1 limit, if any, established by the federal centers for medicare and medi-
2 caid services; (3) the state maximum acquisition cost, if any, estab-
3 lished pursuant to paragraph (e) of this subdivision; or (4) the
4 dispensing pharmacy's usual and customary price charged to the general
5 public; (B) if the drug dispensed is available without a prescription as
6 required by section sixty-eight hundred ten of the education law but is
7 reimbursed as an item of medical assistance pursuant to paragraph (a) of
8 subdivision four of section three hundred sixty-five-a of this title,
9 the lower of (1) an amount equal to the national average drug acquisi-
10 tion cost set by the federal centers for medicare and medicaid services
11 for the drug, if any, or if such amount is not available, the wholesale
12 acquisition cost of the drug based on the package size dispensed from,
13 as reported by the prescription drug pricing service used by the depart-
14 ment, (2) the federal upper limit, if any, established by the federal
15 centers for medicare and medicaid services; (3) the state maximum acqui-
16 sition cost if any, established pursuant to paragraph (e) of this subdivi-
17 sion; or (4) the dispensing pharmacy's usual and customary price
18 charged to the general public;

19 (ii) if the drug dispensed is a brand-name prescription drug, the
20 lower of:

21 (A) an amount equal to the national average drug acquisition cost set

25 practice law and rules and other laws relating to malpractice and
26 professional medical conduct, as amended by section 4 of part F of chap-
27 ter 57 of the laws of 2023, is amended to read as follows:

28 § 40. The superintendent of financial services shall establish rates
29 for policies providing coverage for physicians and surgeons medical
30 malpractice for the periods commencing July 1, 1985 and ending June 30,
31 [2024] 2025; provided, however, that notwithstanding any other provision
32 of law, the superintendent shall not establish or approve any increase
33 in rates for the period commencing July 1, 2009 and ending June 30,
34 2010. The superintendent shall direct insurers to establish segregated
35 accounts for premiums, payments, reserves and investment income attrib-
36 utable to such premium periods and shall require periodic reports by the
37 insurers regarding claims and expenses attributable to such periods to
38 monitor whether such accounts will be sufficient to meet incurred claims
39 and expenses. On or after July 1, 1989, the superintendent shall impose
40 a surcharge on premiums to satisfy a projected deficiency that is
41 attributable to the premium levels established pursuant to this section
42 for such periods; provided, however, that such annual surcharge shall
43 not exceed eight percent of the established rate until July 1, [2024]
44 2025, at which time and thereafter such surcharge shall not exceed twen-
45 ty-five percent of the approved adequate rate, and that such annual
46 surcharges shall continue for such period of time as shall be sufficient
47 to satisfy such deficiency. The superintendent shall not impose such
48 surcharge during the period commencing July 1, 2009 and ending June 30,
49 2010. On and after July 1, 1989, the surcharge prescribed by this
50 section shall be retained by insurers to the extent that they insured
51 physicians and surgeons during the July 1, 1985 through June 30, [2024]
52 2025 policy periods; in the event and to the extent physicians and
53 surgeons were insured by another insurer during such periods, all or a
54 pro rata share of the surcharge, as the case may be, shall be remitted
55 to such other insurer in accordance with rules and regulations to be
56 promulgated by the superintendent. Surcharges collected from physicians

1 and surgeons who were not insured during such policy periods shall be
2 apportioned among all insurers in proportion to the premium written by
3 each insurer during such policy periods; if a physician or surgeon was
4 insured by an insurer subject to rates established by the superintendent
5 during such policy periods, and at any time thereafter a hospital,
6 health maintenance organization, employer or institution is responsible
7 for responding in damages for liability arising out of such physician's
8 or surgeon's practice of medicine, such responsible entity shall also
9 remit to such prior insurer the equivalent amount that would then be
10 collected as a surcharge if the physician or surgeon had continued to
11 remain insured by such prior insurer. In the event any insurer that
12 provided coverage during such policy periods is in liquidation, the
13 property/casualty insurance security fund shall receive the portion of
14 surcharges to which the insurer in liquidation would have been entitled.
15 The surcharges authorized herein shall be deemed to be income earned for
16 the purposes of section 2303 of the insurance law. The superintendent,
17 in establishing adequate rates and in determining any projected defi-
18 ciency pursuant to the requirements of this section and the insurance
19 law, shall give substantial weight, determined in his discretion and
20 judgment, to the prospective anticipated effect of any regulations
21 promulgated and laws enacted and the public benefit of stabilizing
22 malpractice rates and minimizing rate level fluctuation during the peri-
23 od of time necessary for the development of more reliable statistical
24 experience as to the efficacy of such laws and regulations affecting
25 medical, dental or podiatric malpractice enacted or promulgated in 1985,
26 1986, by this act and at any other time. Notwithstanding any provision
27 of the insurance law, rates already established and to be established by
28 the superintendent pursuant to this section are deemed adequate if such
29 rates would be adequate when taken together with the maximum authorized
30 annual surcharges to be imposed for a reasonable period of time whether
31 or not any such annual surcharge has been actually imposed as of the
32 establishment of such rates.

33 § 5. Section 5 and subdivisions (a) and (e) of section 6 of part J of
34 chapter 63 of the laws of 2001, amending chapter 266 of the laws of

11 volume payor" for such general hospital as defined in subparagraph (v)
12 of this paragraph, or for services provided pursuant to title XVIII of
13 the federal social security act (medicare), or for services provided
14 pursuant to title XIX of the federal social security act (medicaid). In
15 the event that a general hospital reviews a patient's assets in deter-
16 mining payment adjustments such policies and procedures shall not
17 consider as assets a patient's primary residence, assets held in a tax-
18 deferred or comparable retirement savings account, college savings
19 accounts, or cars used regularly by a patient or immediate family
20 members.

21 (vii)] (iv) Nothing in this paragraph shall be construed to limit a
22 hospital's ability to establish patient eligibility for payment
23 discounts at income levels higher than those specified herein and/or to
24 provide greater payment discounts for eligible patients than those
25 required by this paragraph.

26 (c) Such policies and procedures shall be clear, understandable, in
27 writing and publicly available in summary form and each general hospital
28 participating in the pool shall ensure that every patient is made aware
29 of the existence of such policies and procedures and is provided, in a
30 timely manner, with a summary of such policies and procedures [upon
31 request]. Any summary provided to patients shall, at a minimum, include
32 specific information as to income levels used to determine eligibility
33 for assistance, a description of the primary service area of the hospi-
34 tal and the means of applying for assistance. For general hospitals with
35 twenty-four hour emergency departments, such policies and procedures
36 shall require the written notification of patients during the intake and
37 registration process, and during discharge of the patient, and through
38 the conspicuous posting of language-appropriate information in the
39 general hospital, and information on bills and statements sent to
40 patients, that financial aid may be available to qualified patients and
41 how to obtain further information. For specialty hospitals without twen-
42 ty-four hour emergency departments, such notification shall take place
43 through written materials provided to patients during the intake and
44 registration process prior to the provision of any health care services
45 or procedures, and during discharge of the patient, and through informa-
46 tion on bills and statements sent to patients, that financial aid may be
47 available to qualified patients and how to obtain further information.
48 Application materials shall include a notice to patients that upon
49 submission of a completed application, including any information or
50 documentation needed to determine the patient's eligibility pursuant to
51 the hospital's financial assistance policy, the patient may disregard
52 any bills until the hospital has rendered a decision on the application
53 in accordance with this paragraph.

54 (d) Such policies and procedures shall include clear, objective crite-
55 ria for determining a patient's ability to pay and for providing such
56 adjustments to payment requirements as are necessary. In addition to

1 adjustment mechanisms such as sliding fee schedules and discounts to
2 fixed standards, such policies and procedures shall also provide for the
3 use of installment plans for the payment of outstanding balances by
4 patients pursuant to the provisions of the [hospital's] financial
5 assistance policy. The monthly payment under such a plan shall not
6 exceed [ten] five percent of the gross monthly income of the patient[,
7 provided, however, that if patient assets are considered under such a
8 policy, then patient assets which are not excluded assets pursuant to
9 subparagraph (vi) of paragraph (b) of this subdivision may be considered
10 in addition to the limit on monthly payments]. The rate of interest
11 charged to the patient on the unpaid balance, if any, shall not exceed
12 [the rate for a ninety-day security issued by the United States Depart-
13 ment of Treasury, plus .5] two percent and no plan shall include an
14 accelerator or similar clause under which a higher rate of interest is
15 triggered upon a missed payment. If such policies and procedures include
16 a requirement of a deposit prior to non-emergent, medically-necessary
17 care, such deposit must be included as part of any financial aid consid-
18 eration. Such policies and procedures shall be applied consistently to
19 all eligible patients.

20 (e) Such policies and procedures shall permit patients to apply for
21 assistance [within at least ninety days of the date of discharge or date
22 of service and provide at least twenty days for patients to submit a
23 completed application] at any time during the collection process. Such
24 policies and procedures may require that patients seeking payment
25 adjustments provide appropriate financial information and documentation
26 in support of their application, provided, however, that such applica-
27 tion process shall not be unduly burdensome or complex. General hospi-
28 tals shall, upon request, assist patients in understanding the hospi-
29 tal's policies and procedures and in applying for payment adjustments.
30 Application forms shall be printed in the "primary languages" of
31 patients served by the general hospital. For the purposes of this para-
32 graph, "primary languages" shall include any language that is either (i)
33 used to communicate, during at least five percent of patient visits in a
34 year, by patients who cannot speak, read, write or understand the
35 English language at the level of proficiency necessary for effective
36 communication with health care providers, or (ii) spoken by non-English
37 speaking individuals comprising more than one percent of the primary
38 hospital service area population, as calculated using demographic infor-
39 mation available from the United States Bureau of the Census, supple-
40 mented by data from school systems. Decisions regarding such applica-
41 tions shall be made within thirty days of receipt of a completed
42 application. Such policies and procedures shall require that the hospi-
43 tal issue any denial/approval of such application in writing with infor-
44 mation on how to appeal the denial and shall require the hospital to
45 establish an appeals process under which it will evaluate the denial of
46 an application. Nothing in this subdivision shall be interpreted as
47 prohibiting a hospital from making the availability of financial assist-
48 ance contingent upon the patient first applying for coverage under title
49 XIX of the social security act (medicaid) or another publicly subsidized
50 insurance program if, in the judgment of the hospital, the patient may
51 be eligible for medicaid or another publicly subsidized insurance
52 program, and upon the patient's cooperation in following the [hospi-
53 tal's] financial assistance application requirements, including the
54 provision of information needed to make a determination on the patient's
55 application in accordance with the hospital's financial assistance poli-
56 cy, provided, however, that this requirement shall not apply to any

1 patient that would otherwise not qualify for coverage based on their
2 immigration status.

3 (f) Such policies and procedures shall provide that patients with
4 incomes below [three] four hundred percent of the federal poverty level
5 are deemed presumptively eligible for payment adjustments and shall
6 conform to the requirements set forth in paragraph (b) of this subdivi-
7 sion, provided, however, that nothing in this subdivision shall be
8 interpreted as precluding hospitals from extending such payment adjust-
9 ments to other patients, either generally or on a case-by-case basis.
10 Such policies and procedures shall provide financial aid for emergency
11 hospital services, including emergency transfers pursuant to the federal
12 emergency medical treatment and active labor act (42 USC 1395dd), to
13 patients who reside in New York state and for medically necessary hospi-
14 tal services for patients who reside in the hospital's primary service
15 area as determined according to criteria established by the commission-
16 er. In developing such criteria, the commissioner shall consult with
17 representatives of the hospital industry, health care consumer advocates
18 and local public health officials. Such criteria shall be made available
19 to the public no less than thirty days prior to the date of implementa-
20 tion and shall, at a minimum:

21 (i) prohibit a hospital from developing or altering its primary
22 service area in a manner designed to avoid medically underserved commu-
23 nities or communities with high percentages of uninsured residents;

24 (ii) ensure that every geographic area of the state is included in at
25 least one general hospital's primary service area so that eligible
26 patients may access care and financial assistance; and

27 (iii) require the hospital to notify the commissioner upon making any
28 change to its primary service area, and to include a description of its
29 primary service area in the hospital's annual implementation report
30 filed pursuant to subdivision three of section twenty-eight hundred
31 three-1 of this article.

32 (g) Nothing in this subdivision shall be interpreted as precluding
33 hospitals from extending payment adjustments for medically necessary
34 non-emergency hospital services to patients outside of the hospital's
35 primary service area. For patients determined to be eligible for finan-
36 cial aid under the terms of a hospital's financial aid policy, such
37 policies and procedures shall prohibit any limitations on financial aid
38 for services based on the medical condition of the applicant, other than
39 typical limitations or exclusions based on medical necessity or the
40 clinical or therapeutic benefit of a procedure or treatment.

41 (h) Such policies and procedures shall prohibit the denial of admis-
42 sion or denial of treatment for services that are reasonably anticipated
43 to be medically necessary because the patient has an unpaid medical
44 bill. Such policies and procedures shall [not permit] prohibit the
45 forced sale or foreclosure of a patient's primary residence in order to
46 collect an outstanding medical bill and shall require the hospital to
47 refrain from sending an account to collection if the patient has submit-
48 ted a completed application for financial aid, including any required
49 supporting documentation, while the hospital determines the patient's
50 eligibility for such aid. Such policies and procedures shall prohibit
51 the sale of medical debt accumulated pursuant to this section to a third
52 party, unless the third party explicitly purchases such medical debt in
53 order to relieve the debt of the patient. Such policies and procedures
54 shall provide for written notification, which shall include notification
55 on a patient bill, to a patient not less than thirty days prior to the
56 referral of debts for collection and shall require that the collection

1 agency obtain the hospital's written consent prior to commencing a legal
2 action. Such policies and procedures shall prohibit a hospital from
3 commencing a legal action related to the recovery of medical debt or
4 unpaid bills against patients with incomes below four hundred percent of
5 the federal poverty level. In any legal action related to the recovery
6 of medical debt or unpaid bills by or on behalf of a hospital, the
7 complaint shall be accompanied by an affidavit by the hospital's chief
8 financial officer stating that based upon the hospital's reasonable
9 effort to determine the patient's income, the patient whom they are
10 taking legal action against does not have an income below four hundred
11 percent of the federal poverty level. Such policies and procedures shall
12 require all general hospital staff who interact with patients or have
13 responsibility for billing and collections to be trained in such poli-
14 cies and procedures, and require the implementation of a mechanism for
15 the general hospital to measure its compliance with such policies and
16 procedures. Such policies and procedures shall require that any
17 collection agency under contract with a general hospital for the
18 collection of debts follow the hospital's financial assistance policy,
19 including providing information to patients on how to apply for finan-
20 cial assistance where appropriate. Such policies and procedures shall
21 prohibit collections from a patient who is determined to be eligible for
22 medical assistance pursuant to title XIX of the federal social security
23 act at the time services were rendered and for which services medicaid
24 payment is available.

25 (i) Reports required to be submitted to the department by each general
26 hospital as a condition for participation in the pools, and which
27 contain, in accordance with applicable regulations, a certification from
28 an independent certified public accountant or independent licensed
29 public accountant or an attestation from a senior official of the hospi-
30 tal that the hospital is in compliance with conditions of participation
31 in the pools, shall also contain, for reporting periods on and after
32 January first, two thousand seven:

33 (i) a report on hospital costs incurred and uncollected amounts in
34 providing services to eligible patients without insurance[, including
35 the amount of care provided for a nominal payment amount,] during the
36 period covered by the report;

37 (ii) hospital costs incurred and uncollected amounts for deductibles
38 and coinsurance for eligible patients with insurance or other third-par-
39 ty payor coverage;

40 (iii) the number of patients, organized according to United States
41 postal service zip code, who applied for financial assistance pursuant
42 to the hospital's financial assistance policy, and the number, organized
43 according to United States postal service zip code, whose applications
44 were approved and whose applications were denied;

45 (iv) the number of patients, including their age, race, ethnicity,
46 gender and insurance status, who applied for financial assistance under
47 the hospital's financial assistance policy, and the number of patients,
48 including their age, race, ethnicity, gender and insurance status, whose
49 applications were approved and denied;

50 (v) the reimbursement received for indigent care from the pool estab-
51 lished pursuant to this section;

52 [(v)] (vi) the amount of funds that have been expended on charity care
53 from charitable bequests made or trusts established for the purpose of
54 providing financial assistance to patients who are eligible in accord-
55 ance with the terms of such bequests or trusts;

1 [(vi)] (vii) for hospitals located in social services districts in
2 which the district allows hospitals to assist patients with such appli-
3 cations, the number of applications for eligibility under title XIX of
4 the social security act (medicaid) that the hospital assisted patients
5 in completing and the number denied and approved; and

6 [(vii)] (viii) the hospital's financial losses resulting from services
7 provided under medicaid[; and

8 (viii) the number of liens placed on the primary residences of
9 patients through the collection process used by a hospital].

10 (j) Within ninety days of the effective date of this subdivision each
11 hospital shall submit to the commissioner a written report on its poli-
12 cies and procedures for financial assistance to patients which are used
13 by the hospital on the effective date of this subdivision. Such report
14 shall include copies of its policies and procedures, including material
15 which is distributed to patients, and a description of the hospital's
16 financial aid policies and procedures. Such description shall include
17 the income levels of patients on which eligibility is based, the finan-
18 cial aid eligible patients receive and the means of calculating such
19 aid, and the service area, if any, used by the hospital to determine
20 eligibility.

21 (k) [In the event it is determined by the commissioner that the state
22 will be unable to secure all necessary federal approvals to include, as
23 part of the state's approved state plan under title nineteen of the
24 federal social security act, a requirement, as set forth in paragraph
25 one of this subdivision, that compliance with this subdivision is a
26 condition of participation in pool distributions authorized pursuant to
27 this section and section twenty-eight hundred seven-w of this article,
28 then such condition of participation shall be deemed null and void and,
29 notwithstanding] Notwithstanding section twelve of this chapter, failure
30 to comply with the provisions of this subdivision by a hospital on and
31 after the date of such determination shall make such hospital liable for
32 a civil penalty not to exceed ten thousand dollars for each such
33 violation. The imposition of such civil penalties shall be subject to
34 the provisions of section twelve-a of this chapter.

35 (l) A hospital or its collection agent shall not commence a civil
36 action against a patient or delegate a collection activity to a debt
37 collector for nonpayment for at least one hundred eighty days after the
38 first post-service bill is issued and until a hospital has made reason-
39 able efforts to determine whether a patient qualifies for financial
40 assistance.

41 § 4. The public health law is amended by adding a new section 18-c to
42 read as follows:

43 § 18-c. Separate patient consent for treatment and payment for health
44 care services. Informed consent from a patient to provide any treatment,
45 procedure, examination or other direct health care services shall be
46 obtained separately from such patient's consent to pay for the services.
47 Consent to pay for any health care services by a patient shall not be
48 given prior to the patient receiving such services and discussing treat-
49 ment costs. For purposes of this section, "consent" means an action
50 which: (a) clearly and conspicuously communicates the individual's
51 authorization of an act or practice; (b) is made in the absence of any
52 mechanism in the user interface that has the purpose or substantial
53 effect of obscuring, subverting, or impairing decision-making or choice
54 to obtain consent; and (c) cannot be inferred from inaction.

55 § 5. The general business law is amended by adding two new sections
56 349-g and 519-a to read as follows:

1 § 349-g. Restrictions on applications for and use of credit cards and
2 medical financial products. 1. For purposes of this section, the follow-
3 ing terms shall have the following meanings:

4 (a) "Medical financial products" shall mean medical credit cards and
5 third-party medical installment loans.

6 (b) "Health care provider" shall mean a health care professional
7 licensed, registered or certified pursuant to title eight of the educa-
8 tion law.

9 (c) "Medical credit card" shall mean a credit card issued under an
10 open-end or closed-end plan offered specifically for the payment of
11 health care services, products, or devices provided to a person.

12 2. It shall be prohibited for any hospital or health care provider, or
13 employee or agent of a hospital or health care provider, to complete any
14 portion of an application for medical financial products for the patient
15 or otherwise arrange for or establish an application that is not
16 completely filled out by the patient.

17 § 519-a. Credit cards and payment for health care services. 1. For
18 purposes of this section, the term "credit card" shall have the same
19 meaning as in section five hundred eleven of this article.

20 2. No hospital or health care provider shall require credit card pre-
21 authorization nor require the patient to have a credit card on file
22 prior to providing emergency or medically necessary medical services to
23 such patient.

24 3. Hospitals and health care providers shall notify all patients about
25 the risks of paying for medical services with a credit card. Such
26 notification shall highlight the fact that by using a credit card to pay
27 for medical services, the patient is forgoing state and federal
28 protections that regard medical debt. The commissioner of health shall
29 have the authority and sole discretion to set requirements for the
30 contents of such notices.

31 § 6. This act shall take effect six months after it shall have become
32 a law; provided, however, that if section 1 of subpart C of part Y of
33 chapter 57 of the laws of 2023 shall not have taken effect on or before
34 such date then section two of this act shall take effect on the same
35 date and in the same manner as such chapter of the laws of 2023 takes
36 effect. Effective immediately, the addition, amendment and/or repeal of
37 any rule or regulation necessary for the implementation of this act on
38 its effective date are authorized to be made and completed on or before
39 such effective date.

43 ing pharmacists to direct limited service laboratories and order and
44 administer COVID-19 and influenza tests and modernizing nurse practi-
45 tioners, is amended to read as follows:

46 § 8. This act shall take effect immediately and shall be deemed to
47 have been in full force and effect on and after April 1, 2022; provided,
48 however, that sections one, two, three, four, six and seven of this act
49 shall expire and be deemed repealed [two years after it shall have
50 become a law] July 1, 2026.

4 it shall have become a law, provided, however, that the provisions of
5 sections two, three, and four of this act shall expire and be deemed
6 repealed July 1, [2024] 2026; provided, however, that the amendments to
7 subdivision 1 of section 6801 of the education law made by section one
8 of this act shall be subject to the expiration and reversion of such
9 subdivision pursuant to section 8 of chapter 563 of the laws of 2008,
10 when upon such date the provisions of section one-a of this act shall
11 take effect; provided, further, that effective immediately, the addi-
12 tion, amendment and/or repeal of any rule or regulation necessary for
13 the implementation of this act on its effective date are authorized and
14 directed to be made and completed on or before such effective date.

15 § 3. This act shall take effect immediately and shall be deemed to
16 have been in full force and effect on and after April 1, 2024.

21 PART S

22 Section 1. (a) The public health law is amended by adding a new
23 section 2825-i to read as follows:

24 § 2825-i. Healthcare safety net transformation program. 1. (a) A
25 statewide healthcare safety net transformation program shall be estab-
26 lished within the department for the purpose of supporting the transfor-
27 mation of safety net hospitals to improve access, equity, quality, and
28 outcomes while increasing the financial sustainability of safety net
29 hospitals. Such program may provide or utilize new or existing capital
30 funding, or operating subsidies, or both. Any application for this
31 program must be jointly submitted by a safety net hospital and at least
32 one partner organization.

33 (b) All applications shall demonstrate how the requested funding and
34 regulatory flexibilities are necessary to achieve the program goals of
35 improving the safety net hospital's financial outlook and improving
36 health outcomes for the communities it serves. The commissioner shall
37 develop an application for this program that includes but is not limited
38 to the following information:

39 (i) key organizational information, including the organizational
40 structure of the safety net hospital and partner organization (including
41 any parent or subsidiary, and the interrelationship between all such
42 organizations) and the name, business address, and biography of each
43 director and officer of the safety net hospital, the partner, and other
44 organizations within either the safety net hospital's or the partner's
45 organizational structure;

46 (ii) the type of collaborative model proposed, including but not
47 limited to a merger, acquisition, management services contract, or clin-
48 ical integration;

1 (iii) a detailed description of the proposed transformation plan that
2 includes, at a minimum, a five-year strategic and operational plan
3 outlining the roles and responsibilities of the safety net hospital and
4 partner organization;

5 (iv) a timeline of key metrics and goals;

6 (v) any regulatory flexibilities required to implement such plan,
7 including the justification for why such flexibilities are necessary for
8 the transformation plan to achieve an improved financial outlook for the
9 safety net hospital and improved health outcomes for the communities it
10 serves;

11 (vi) the amount of funding requested for the first five years and
12 projected needs thereafter, including the rationale for why such funding
13 is necessary for the transformation plan to achieve an improved finan-
14 cial outlook for the safety net hospital and improved health outcomes
15 for the communities it serves; and

16 (vii) detailed plans for any operational surplus after reaching finan-
17 cial sustainability.

18 2. The commissioner shall enter an agreement with the president of the
19 dormitory authority of the state of New York pursuant to section sixteen
20 hundred eighty-r of the public authorities law, as required, which shall
21 apply to this agreement, subject to the approval of the director of the
22 division of the budget, for the purposes of the distribution and admin-
23 istration of available funds pursuant to such agreement and made avail-
24 able pursuant to this section and subject to appropriation. Such funds
25 may be awarded and distributed by the department to safety net hospi-
26 tals, or a partner organization, in the form of grants. To qualify as a
27 safety net hospital for purposes of this section, a hospital shall:

28 (a) be either a public hospital, a rural emergency hospital, critical
29 access hospital or sole community hospital;

30 (b) have at least thirty percent of its inpatient discharges made up
31 of medical assistance program eligible individuals, uninsured individ-
32 uals or medical assistance program dually eligible individuals and at
33 least thirty-five percent of its outpatient visits made up of medical
34 assistance program eligible individuals, uninsured individuals or
35 medical assistance program dually-eligible individuals;

36 (c) serve at least thirty percent of the residents of a county or a
37 multi-county area who are medical assistance program eligible individ-
38 uals, uninsured individuals or medical assistance program dually-eligi-
39 ble individuals; or

40 (d) in the discretion of the commissioner, serve a significant popu-
41 lation of medical assistance program eligible individuals, uninsured
42 individuals or medical assistance program dually-eligible individuals.

43 3. Partner organizations may include, but are not limited to, health
44 systems, hospitals, health plans, residential health care facilities,
45 physician groups, community-based organization, or other healthcare
46 entities who can serve as partners in the transformation of the safety
47 net hospital.

48 4. Notwithstanding section one hundred sixty-three of the state
49 finance law, sections one hundred forty-two and one hundred forty-three
50 of the economic development law or any inconsistent provisions of law to
51 the contrary, awards may be provided without a competitive bid or
52 request for proposal process to safety net hospitals or partner organ-
53 izations for purposes of increasing access, equity, quality, outcomes,
54 and long-term financial sustainability of such safety net hospitals.

55 5. Notwithstanding any provision of law to the contrary, the commis-
56 sioner may waive regulatory requirements to allow applicants to more

1 effectively or efficiently implement projects awarded through the
 2 healthcare safety net transformation program, provided, however, that
 3 regulations pertaining to minimum standards for hospitals for patient
 4 safety, patient autonomy, patient privacy, patient rights, quality of
 5 care, safe staffing, adverse event reporting, due process, scope of
 6 practice, professional licensure, environmental protections, infection
 7 control, provider reimbursement methodologies, character and competence,
 8 or occupational standards and employee rights shall not be waived, nor
 9 shall any regulations be waived if such waiver would risk patient safe-
 10 ty. Such waiver shall not exceed the life of the project or such shorter
 11 time periods as the commissioner may determine. Any regulatory relief
 12 granted pursuant to this subdivision shall be specifically described and
 13 requested within each project application and be reviewed by the commis-
 14 sioner.

15 6. Continued support under the program shall be contingent upon the
 16 implementation of the approved plan and key milestones.

17 7. The release of any funding will be contingent upon compliance with
 18 the transformation plan and a determination that acceptable progress has
 19 been made with such plan. If key milestones and goals are not met, addi-
 20 tional financial resources may be withheld and redirected, upon the
 21 recommendation of the commissioner and approval by the director of budg-
 22 et.

23 8. The commissioner shall provide a report on an annual basis to the
 24 speaker of the assembly, the temporary president of the senate, the
 25 chair of the assembly ways and means committee, the chair of the senate
 26 finance committee, and the director of the division of budget, on any
 27 transformation plan approved under this section, including information
 28 on partnership agreements, and any amendments thereto. The report shall
 29 also include for each award, the name of the hospital and partner, the
 30 corporate structure of any partner organization, a description of the
 31 project and its purpose, the amount of the award and the disbursement
 32 date, the regulations waived for each project and the justification for
 33 such waiver, and the status of achievement of performance metrics and
 34 milestones. Such report shall be provided until such time as the depart-
 35 ment determines that the projects that receive funding pursuant to this
 36 section are substantially complete.

37 § 2. This act shall take effect immediately and shall be deemed to
 38 have been in full force and effect on and after April 1, 2024.

5 Section 1. Section 7 of part R2 of chapter 62 of the laws of 2003,
6 amending the mental hygiene law and the state finance law relating to
7 the community mental health support and workforce reinvestment program,
8 the membership of subcommittees for mental health of community services
9 boards and the duties of such subcommittees and creating the community

12 follows:

13 § 7. This act shall take effect immediately and shall expire March 31,
14 [2024] 2027 when upon such date the provisions of this act shall be
