CONS

Bail Reform Roll Back:

The list of qualifying crimes have been expanded to include crimes such as: **Class-A misdemeanors; Misdemeanor re-arrest; Arrest while on probation; Enterprise corruption; Vehicular assault.**

Expanding the crimes to include lesser crimes such as misdemeanors gives the justice system an opportunity to continue imprisoning people who likely are not to be harmful to the community if released while waiting for trial, including those who may have been wrongfully accused and arrested. This will have a negative impact on low-income and minority communities.

Additional qualifying crimes that have been added include: **Domestic violence - criminal obstruction of breathing, strangulation, unlawful imprisonment; Aggravated assault - person less than 11-years old; Grand larceny 1; Money laundering 1; Criminal possession of a controlled substance 1; Criminal sale 1; Sex trafficking (B felony) and Sex trafficking of a child (B felony); failure to register as a sex offender or endangering the welfare of a child while a level 3 sex offender.**
