

**As a dad,
I want health
care decisions
for my daughters
to be between
them and their
doctor.**

STATE ASSEMBLY

Protecting Women's Health Care

In New York, women have the right to make their own health care decisions in consultation with their doctor. It will stay that way. I will always vote to keep health care decisions between a woman and her doctor.

And we have more work to do to make critical health care for women more affordable and accessible:

- I support a proposal for pharmacies to stock emergency contraception¹
- I support a proposal to dispense emergency contraception under certain conditions like rape and incest to help reduce the total number of abortions²
- I support requiring health insurance policies to cover comprehensive genetic screening for ovarian and prostate cancers³
- I supported requiring certain insurers to provide coverage for prenatal vitamins that help promote a healthy pregnancy⁴

As your assemblyman, I want to hear any concerns or questions you may have so we can make our community a place we can be proud to call home. Please contact me any time—I'd love to hear from you.
