A special legislative message from

NEW YORK STATE ASSEMBLYMAN
BRIAN CURRAN

Protecting Women's Health Care

In New York, women have the right to make their own health care decisions in consultation with their doctor. It will stay that way. I will always vote to keep health care decisions between a woman and her doctor.

And we have more work to do to make critical health care for women more affordable and accessible:

I support a proposal for pharmacies to **stock emergency contraception**¹

I support requiring health insurance policies to cover **comprehensive genetic screening for ovarian and other cancers**²

I supported requiring certain insurers to provide coverage for **prenatal vitamins that help promote a healthy pregnancy**³

I supported increasing access to birth control⁴
