Expand Access And Lower Costs

For many New Yorkers, the cost of healthcare is out of control. We need a system that works for everyone. That's why I'm supporting policies that would:

- **Enhance Outreach:** Increase grants to health marketplace navigators in areas of the state with uninsured rates among low-income individuals that are higher than the state average. (A.9405)
- **Ease Enrollment:** Create a program within the Department of Health to assist individuals without employer-sponsored coverage to enroll in coverage through state income tax filings and allow for expanded special enrollment periods for first-time enrollees and individuals enrolling through the tax filing program. (A.9378)
- **Increase Access for Employees:** Enact the "Small Business Health Plan Act," which provides small businesses opportunities to provide health insurance to owners and employees. (A.10904)
- **Empower Savings for Consumers:** Establish the New York Health Care Savings Act, which authorizes the creation of health care savings accounts to allow residents to save money for the payment of qualified health care related expenses. (A.9384)
