

Spring 2026

Assemblywoman
JAIMIE WILLIAMS

Reports to You

2026 COMMUNITY SERIES

Dear Neighbor,

One of the most important parts of my job as your Assemblywoman is spending time with the people I serve and offering opportunities for our residents and families to come together as a community.

That is why I am excited to announce my 2026 Community Series, a collection of events designed to bring people together this summer for educational and recreational activities.

In years past, we have hosted many events like these, and I am proud to say that this year's Summer Community Series is shaping up to be the best yet. We have planned a wonderful lineup of events for South Brooklyn residents of all ages to get out of the house, connect with neighbors from across the community, and have a great time.

This year's series includes:

- Summer Sea STEM
- Summer Concert Series
- Free Swimming
- Taste of the Caribbean
- Juneteenth Celebration

It is my honor to serve as your Assemblywoman, and I take great pride in organizing events that allow me to engage with and get to know neighbors from all across our community. I hope you will join us for one, or even all, of these exciting Summer Community Series events and take part in the celebration and connection they bring to our community.

Yours truly,

A handwritten signature in black ink that reads "Jaime Will" followed by a long, sweeping horizontal line.

Assemblywoman Jaime Williams

59th District, New York State Assembly

YOUTH ENGAGEMENT SUMMER STEM AT SEA (YESSS!)

Join Kingsborough Community College this Summer for a 4 day (Mon-Thurs, 10am-3pm) FREE Summer at Sea adventure! Youth aged 10-15 are invited to sign up for this program! Lunch is included!

Join us this summer to explore NYC's waterways aboard the RV CUNY I vessel. Students will discover the city's hidden wilderness--the estuaries and beaches that truly make it an island city! Students will comb beaches, collect water samples, and participate in other research activities. Our goal is to expose youth to the excitement of scientific inquiry!

YESSS! allows students to engage in outdoor exploration of the natural marine environment, followed by indoor, hands-on laboratory activities where they practice using scientific tools and methods. Through these immersive experiences students will build foundational science skills while deepening their understanding of the Ocean's critical role in Earth's climate system!

This amazing free program has been funded and supported by:

Assemblywoman Jaime Williams
District 59

Assemblywoman Monique Chandler-Waterman
District 58

Participants must reside in the 59th and 58th Assembly District. To apply for the program, scan the QR code and fill out the form or contact Suet Lee, program coordinator at 718-368-5525 for more information.

LEARN TO SWIM AT H.E.S.!

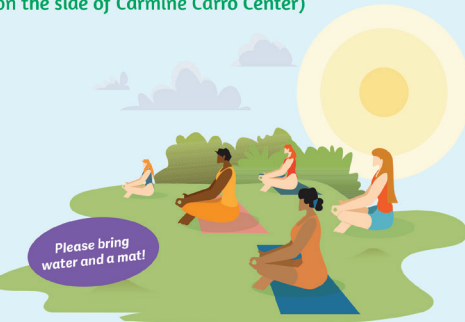

"I'm very excited about this free swim program at HES. My 12-year-old son loves being in the water but isn't a strong swimmer, and, given the unfortunate tragedies that occur each year, I believe this program will help him improve his swimming skills and knowledge. Thanks to Assemblywoman Jaime Williams and Assemblywoman Monique Chandler-Waterman for bringing this wonderful program to the Canarsie community."

- Elizabeth Clarke
Canarsie resident

NY State Assemblywoman JAIME WILLIAMS presents YOGA IN THE PARK MARINE PARK
